Holders of University of Illinois
Auxiliary Facilities System Revenue Bonds
and The Board of Trustees of the University of Illinois:

I am pleased to transmit the Annual Financial Report of the University of Illinois Auxiliary Facilities System for the fiscal year ending June 30, 2023. This report supplements the Annual Financial Report of the University of Illinois.

The University of Illinois Auxiliary Facilities System continues to have a strong financial position due to stable and consistent revenues in combination with efficient utilization of resources. The auxiliary facilities provide services such as housing, and recreational and athletic facilities utilized by students, staff, faculty, alumni and university guests.

The 2023 financial statements, accompanying notes and required supplementary information appearing on pages 5 through 37 have been audited by RSM US LLP, Independent Certified Public Accountants, as special assistants to the Auditor General of the State of Illinois, whose report on the financial statements appears on pages 2 through 4.

Respectfully,

SIGNED ORIGINAL ON FILE

Paul Ellinger
Vice President, Chief Financial Officer and Comptroller

Independent Auditor's Report

RSM US LLP

Honorable Frank J. Mautino
Auditor General
State of Illinois

and

Board of Trustees
University of Illinois

Report on the Audit of the Financial Statements

Opinion

As Special Assistant Auditors for the Auditor General, we have audited the financial statements of the business-type activities of the University of Illinois Auxiliary Facilities System (System), a segment of the University of Illinois, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the System's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the System, a segment of the University of Illinois, as of June 30, 2023, and the changes in financial position and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the University of Illinois, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matters

As discussed in Note 1(a), the financial statements of the System are intended to present the financial position, the changes in financial position, and cash flows of only that portion of the business-type activities of the University of Illinois that is attributable to the transactions of the System. They do not purport to, and do not, present fairly the financial position of the University of Illinois as of June 30, 2023, the changes in its financial position, or, where applicable, its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

As discussed in Note 1(r) to the financial statements of the System, in Fiscal Year 2023, the System adopted Governmental Accounting Standards Board's Statement No. 96, *Subscription-Based Information Technology Arrangements*. The adoption of this statement resulted in the restatement of opening net position and the inclusion of intangible right-to-use assets and a subscription liability. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Schedule of University of Illinois Auxiliary Facilities System Proportionate Share of the Net Pension Liability and the Notes to the Required Supplementary Information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the University Officials page and Transmittal Letter but does not include the basic financial statements and our auditor's report thereon. Our opinion on the basic financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 19, 2024, on our consideration of the System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the System's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the System's internal control over financial reporting and compliance.

**UNIVERSITY OF ILLINOIS
AUXILIARY FACILITIES SYSTEM**

Notes to Financial Statements

June 30, 2023

(1) Organization and Summary of Significant Accounting Policies

Organizational Background and Basis of Presentation

The University of Illinois (University) Auxiliary Facilities System (System) was created in June 1978 pursuant to the University of Illinois Revenue Bond Financing Act for Auxiliary Facilities, 110 ILCS 405/1, which authorized the University's Board of Trustees (Board) to combine and consolidate facilities into a single system. These financial statements have been prepared to satisfy the requirements of the System's Revenue Bonds master indenture. The financial balances and activities of the System, included in these financial statements, are included in the University's financial statements. The financial statements of the System are prepared in accordance with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB). The System is not a separate legal entity and has not presented management's discussion and analysis.

System financial activity mainly comprises housing, parking, and student activities, which span across the three campuses of the University. The operating revenues of the System largely consist of student service fees, various user fees, room and board charges, sales from merchandise/vending and rental of certain facilities. Facilities primarily consist of buildings and other structures that have been constructed or remodeled with funding provided from issuance of related revenue bonds. System facilities include Memorial Stadium, the State Farm Center, student unions, housing residence halls, parking, and other structures.

Certain System revenues are derived from the rental of Memorial Stadium and the State Farm Center, directly from the University's Division of Intercollegiate Athletics, and are reflected as rental revenues within the System's financial statements. Such rental revenues are determined based on the amount of debt service requirements and/or certain operation and maintenance considerations that apply to the facilities. Ticket revenues received by the University for events occurring at these facilities are not included within the System's reporting structure, in accordance with the related bond indentures. Housing revenues consist of charges for room, board, and meal plans. Student activities buildings consist of student unions, recreation and athletic facilities and student service buildings that generate lease and rental income, student fees and various other types of revenue. Operating expenses of the System include all necessary current maintenance charges, expenses of reasonable upkeep and repairs, allocations of a share of certain charges for insurance and other expenses incidental to the operations of all the various activities and facilities of the System in accordance with the bond indentures.

Significant Accounting Policies

(a) Financial Statement Presentation and Basis of Accounting

The System prepared its financial statements as a business-type activity, as defined by GASB Statement No. 35, *Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities*, using the economic resources measurement focus and the accrual basis of accounting. Business-type activities are those financed in whole or in part by fees charged to external parties for goods and services.

The financial statements of the System are intended to present the financial position, the changes in financial position, and cash flows of only that portion of the business-type activities of the University of Illinois that is attributable to the transactions of the System. They do not purport to, and do not, present fairly the financial position of the University as of June 30, 2023, and its changes in financial position and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Under the accrual basis, revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Advances are classified as unearned revenue.

(b) *Cash and Cash Equivalents*

The Statement of Cash Flows details the change in the cash and cash equivalents balance for the fiscal year. Cash and all liquid investments with original maturities of 90 days or less are defined as cash and cash equivalents.

(c) *Investments*

Investments are reported at fair value in accordance with guidelines defined by GASB Statement No. 72. Fair value is determined for the System's investments based upon a framework described in Note 2(f). Bank deposits and money market funds are recorded at cost.

Changes in fair value during the reporting period are reported as a net increase (decrease) in the fair value of investments. Net investment income includes interest, dividends, and realized gains and losses.

(d) *Accounts Receivable*

Accounts receivable are reported net of allowance for uncollectible. This allowance was \$5,034,515 at June 30, 2023. Accounts receivable consists of the following.

- Housing operations – room and board
- Student fees – service and general fees (assessed with tuition)
- Parking operations – space rental and related fees
- Other miscellaneous – includes health and recreation fees

(e) *Inventories*

Inventories are stated at the lower of cost or market with cost determined as follows:

- Books and other merchandise for resale – principally the retail inventory method
- Food – average cost method
- Other inventories – principally the first-in, first-out method

(f) Capital Assets

Capital assets, which will be or are owned by the University, are recorded at cost or, if donated, at acquisition value at the date of a gift. Intangible right-of-use lease and subscription assets are recorded at cost based on the present value of expected payments over the term of the respective lease or arrangement plus any payments made to the lessor or provider at or before the commencement of the lease or arrangement term and certain direct costs that are ancillary charges necessary to place the lease or subscription asset into service. Depreciation and amortization of the capital assets is calculated on a straight-line basis over the estimated useful lives (noted below) of the assets, or over the shorter of the estimated useful lives or over the lease or arrangement term for intangible right-of-use lease or subscription assets. The University's policy requires the capitalization of land and collection purchases regardless of cost, equipment and right-of-use lease assets at \$5,000, right-of-use subscription assets at \$25,000, purchased or internally developed software, easements, buildings and improvements over \$250,000 and purchased or internally developed infrastructure over \$1,000,000. The University does not capitalize collections, such as works of art or historical treasures, which are held for public exhibition, education, or research in furtherance of public service rather than capital gain, unless they were previously capitalized as of June 30, 1999. Proceeds from the sale, exchange or other disposal of any item belonging to a collection must be applied to the acquisition of additional items for the same collection. Estimated useful lives for capital assets are as follows:

	<u>Useful life (in years)</u>		<u>Useful life (in years)</u>
Buildings:		Improvements other than buildings:	
Shell	50	Site improvements	20
Service systems	25	Infrastructure	25
Fixed equipment	15		
Remodeling	25		
Intangibles:		Moveable equipment:	
Software	5 – 10	Equipment	3 – 20
Right-of-use	Shorter of the estimated useful lives or the lease/arrangement term		

(g) Deferred Outflows of Resources

Unamortized losses on refundings for the System's bonds of \$962,543 are reported as deferred outflow of resources on the accompanying Statement of Net Position. The losses on refundings are amortized over the life of the debt using the straight-line method.

(h) Deferred Inflows of Resources

Unamortized gains on refundings for the System's bonds of \$1,403,246 are reported as deferred inflows of resources on the accompanying Statement of Net Position. The gains on refundings are amortized over the life of the debt using the straight-line method.

Deferred inflows of resources of \$3,835,242 related to leases in which the System is lessor are measured at the value of the lease receivable plus any payments received at or before the commencement of the lease term that relate to future periods. The deferred inflows of resources are recognized as revenue over the term of the lease.

(i) *Compensated Absences*

Accrued compensated absences for System personnel are charged as an operating expense, using the vested method based on earned and unused vacation and sick leave days including the System's share of Medicare taxes.

Section 14a of the State Finance Act (30 ILCS 105/14a) provides that employees eligible to participate in the State Universities Retirement System or the Federal Retirement System are eligible for compensation at time of resignation, retirement, death or other termination of System employment for one-half (1/2) of the unused sick leave earned between January 1, 1984 and December 31, 1997. Any sick leave days that were earned before or after this period of time are noncompensable.

Changes in Compensated Absences Balance	
Balance, beginning of year	\$ 6,767,547
Additions	917,069
Deductions	<u>(789,542)</u>
Balance, end of year	6,895,074
Less current portion	<u>642,478</u>
Balance, end of year - noncurrent portion	<u><u>\$ 6,252,596</u></u>

(j) *Premiums*

Premiums for the System's bonds are reported within bonds payable and amortized over the life of the debt issue using the effective interest method.

(k) *Net Position*

The System's resources are classified into net position categories and reported in the Statement of Net Position. These categories are defined as (a) Net investment in capital assets – capital assets net of accumulated depreciation and amortization and related outstanding debt balances attributable to the acquisition, construction, or improvement of those assets, (b) Restricted – net position subject to externally imposed restrictions that can be fulfilled by actions of the System pursuant to those stipulations or that expire by the passage of time, and (c) Unrestricted – net position not subject to externally imposed stipulations but may be designated for specific purposes by action of management or the Board. The System first applies resources included in restricted net position when an expense or outlay is incurred for purposes for which resources in both restricted and unrestricted net positions are available.

(l) *Classification of Revenues*

The Statement of Revenues, Expenses and Changes in Net Position classifies the System's fiscal year activity as operating and nonoperating. Operating revenues generally result from exchange transactions such as payments received for providing goods and services.

Certain revenue sources that the System relies on for operations, including on-behalf for fringe benefits, special funding situation for fringe benefits, and investment income, are defined by GASB Statement No. 35 as nonoperating. In addition, certain transactions related to capital and financing activities are components of net nonoperating revenue including a transfer of funds received from the University to construct a new parking garage as mentioned in Note 6.

Housing charges billed or received in advance are unearned and recognized as revenue during the period of occupancy. Student service fees for the summer academic term are unearned and recognized as revenue over the summer semester.

(m) Classification of Expenses

The majority of the System's expenses are exchange transactions which GASB defines as operating expenses for financial statement presentation. Nonoperating expenses include capital financing costs.

(n) On-Behalf for Fringe Benefits

In accordance with GASB Statement No. 24, *Accounting and Financial Reporting for Certain Grants and Other Financial Assistance*, the System has reported outside sources of financial assistance provided by other entities on behalf of the System during the year ended June 30, 2023, as described below.

Substantially all eligible employees participate in group health insurance plans provided by the State and administered by the Illinois Department of Central Management Services (CMS). The State contributed, on behalf of the System, an estimated \$11,091,000 which is reflected as nonoperating revenues and operating expenses within the System's financial statements.

(o) Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the State Universities Retirement System (SURS) and additions to/deductions from SURS fiduciary net position has been determined on the same basis as they are reported by SURS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

For financial reporting purposes, the State and its public universities and community colleges are under a special funding situation. A special funding situation exists when a non-employer entity (the State) is legally responsible for making contributions directly to a pension plan that is used to provide pensions to the employees of another entity (the University, including the System) and the non-employer (the State) is the only entity with a legal obligation to make contributions directly to a pension plan. The System recognizes its proportionate share of the State's pension expense relative to the System's employees as nonoperating revenue and special funding situation for fringe benefits operating expense.

(p) Other postemployment benefits (OPEB)

The State Employees Group Insurance Act of 1971 (Act) (5 ILCS 375) authorizes the State Employees Group Insurance Program (SEGIP), which includes activity for both active employees and retirees, as a single-employer defined benefit OPEB plan not administered as a trust. Substantially all State and state public universities' unit employees become eligible for these OPEB plan benefits when they become annuitants of one of the State sponsored pension plans. CMS administers these benefits for the annuitants with the assistance of the public retirement systems sponsored by the State General Assembly Retirement System (GARS), Judges Retirement System (JRS), State Employees Retirement System (SERS), Teachers' Retirement System (TRS), and SURS.

In order to fund SEGIP's pay-as-you-go obligations for both current employees and retirees, the Act (5 ILCS 375/11) requires contributions based upon total employee compensation paid from any State fund, including the University's State Appropriations Funds. Pursuant to State Statute, the State covers the contributions for employees who are compensated from the System's operating funds. This relationship may be modified through the enactment of a Public Act by the State's highest level of decision-making authority exercised by the Governor and the General Assembly pursuant to the State's Constitution.

The University has two separate components of OPEB administered within SEGIP. The (1) State of Illinois and its public universities are under a special funding situation for employees not paid from gift, grant, and other similar funds, while (2) the University is responsible for OPEB employer contributions when University employees are paid from gift, grant, and other similar funds. The System is under a special funding situation since its employees are not paid from gift, grant, and other similar funds.

A special funding situation exists when a non-employer entity (the State) is legally responsible for making contributions directly to an OPEB plan that is used to provide OPEB to the employees of another entity (the University, including the System) and the non-employer (the State) is the only entity with a legal obligation to make contributions directly to an OPEB plan. The System recognizes the proportionate share of the State's OPEB expense relative to the System's employees as non-operating revenue and special funding situation for fringe benefits operating expense.

(q) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

(r) New Accounting Pronouncements

The System adopted the provisions of GASB Statement No. 91, *Conduit Debt Obligations*, which was effective for periods beginning after December 15, 2021. This Statement provides a single method of reporting conduit debt obligations by issuers and eliminates diversity practice associated with commitments extended by issuers, arrangements associated with conduit debt obligations and related note disclosures. The Statement achieves those objectives by clarifying the existing definition of conduit debt obligation, establishing that a conduit debt obligation is not a liability of the issuer, establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations and improving required note disclosures. Implementation of this pronouncement did not materially impact the System's financial statements.

The System adopted the provisions of GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, which was effective for periods beginning after June 15, 2022. The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). This Statement requires that PPPs that meet the definition of a lease apply the guidance in Statement No. 87, *Leases*, as amended, if existing assets of the transferor that are not required to be improved by the operator as part of the PPP arrangement are the only underlying PPP assets and the PPP does not meet the definition of a service concession arrangement. This Statement provides accounting and financial reporting requirements for all other PPPs. Implementation of this pronouncement did not materially impact the System's financial statements.

The System adopted the provisions of GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*, which was effective for periods beginning after June 15, 2022. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, *Leases*, as amended. The System has included subscription assets and liabilities within the Statement of Net Position and interest expense related to SBITAs within the Statement of Revenues, Expenses and Changes in Net Position. See note 1(s) for impact to the beginning net position for fiscal year 2023 related to implementation of this pronouncement.

The System adopted the provisions of GASB Statement No. 99, *Omnibus 2022*, which was effective for periods beginning after June 15, 2022. The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements and accounting and financial reporting for financial guarantees. This Statement addresses a variety of topics and includes specific provisions about derivatives, leases, PPPs, SBITAs, LIBOR, distribution of benefits, nonmonetary transactions, pledges of revenues, clarification of provisions related to the focus of the government-wide financial statements, terminology updates related to deferred inflows and outflows and terminology related to resource flows statements. Implementation of this pronouncement did not materially impact the System’s financial statements.

(s) Change in Accounting Principles

Effective for the fiscal year ended June 30, 2023, the System adopted GASB Statement No. 96, *Subscription Based Information Technology Arrangements*, (GASB 96). Under this statement, the System generally should recognize a right-of-use subscription asset (an intangible asset) and a corresponding subscription liability. The adoption of GASB 96 has been reflected as of July 1, 2022. As reported on the Statement of Revenues, Expenses, and Changes in Net Position, beginning net position as of July 1, 2022, was restated for the effects of the System’s adoption of GASB 96.

Balances, including beginning net position, impacted by the adoption of GASB Statement No. 96, as of July 1, 2022, were as follows:

	July 1, 2022 as Previously Stated	GASB 96 Impact	July 1, 2022 as Restated
Current assets	\$ 218,223,918		\$ 218,223,918
Noncurrent assets	1,239,971,302	722,544	1,240,693,846
Total assets	1,458,195,220	722,544	1,458,917,764
Deferred outflows of resources	10,959,583		10,959,583
Total assets and deferred outflows of resources	\$ 1,469,154,803	722,544	\$ 1,469,877,347
Current liabilities	\$ 94,138,963	312,197	\$ 94,451,160
Noncurrent liabilities	1,061,860,145	361,838	1,062,221,983
Total liabilities	1,155,999,108	674,035	1,156,673,143
Deferred inflows of resources	5,030,264		5,030,264
Net position	308,125,431	48,509	308,173,940
Total liabilities, deferred inflows of resources, and net position	\$ 1,469,154,803	722,544	\$ 1,469,877,347

(2) Cash, Cash Equivalents and Investments

The System has cash and certain investments that are pooled with other University funds for the purpose of securing a greater return on investment and providing an equitable distribution of investment return. Income is distributed based upon average quarterly balances invested in the investment pool.

Nearly all of the University's investments are managed by external professional investment managers, who have full discretion to manage their portfolios subject to investment policy and manager guidelines established by the University, and in the case of mutual funds and other commingled vehicles, in accordance with the applicable prospectus or limited partnership agreement.

The Board follows the State of Illinois Uniform Prudent Management of Institutional Funds Act, 760 ILCS 51/1-11, when managing the University's investments. The Board fulfills its fiduciary responsibility for the management of investments, including endowment farm real estate, by adopting policies to maximize investment return with a prudent level of risk.

The following details the carrying value of the System's cash, cash equivalents and investments as of June 30, 2023:

U.S. Treasury bonds and bills	\$	7,314,650
Money market funds		<u>16,785,878</u>
Subtotal		24,100,528
Claim on cash and on pooled investments		<u>230,161,874</u>
Total cash, cash equivalents and investments	\$	<u><u>254,262,402</u></u>

(a) Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the University employs multiple investment managers, of which each has specific maturity assignments related to the operating funds. The funds are structured with different layers of liquidity. Funds expected to be used within one year are invested using the Barclay's Capital 90-Day and Bank of America Merrill Lynch 12-month Treasury Bill Index as performance benchmarks. Core operating funds are invested in longer maturity investments. Core operating funds investment managers' performance benchmarks are the Barclays Capital one-year to three-year Government Bond Index, the Barclays Capital one-year-to-three-year Government Credit Bond Index, Barclays Capital Intermediate Government Credit Bond Index and the Barclays Capital Intermediate Aggregate Bond Index.

The System's nonpooled investments and maturities as of June 30, 2023 are illustrated as follows:

	<u>Total</u>	<u>Less than 1</u>
U.S. Treasury bonds and bills	\$ 7,314,650	\$ 7,314,650
Money market funds	<u>16,785,878</u>	<u>16,785,878</u>
Total cash equivalents and investments	<u><u>\$ 24,100,528</u></u>	<u><u>\$ 24,100,528</u></u>

Claim on cash and on pooled investments represents the System's share of participation in the University's operating internal investment pool. At June 30, 2023, the University's operating funds internal investment portfolio had an effective duration for its interest bearing securities of 1.4 years.

(b) Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The University's investment policy requires that the University's short-term operating funds be invested in fixed income securities and other short-term fixed income instruments (e.g. money markets). Fixed income securities shall be rated investment grade or better by one or more nationally recognized statistical rating organizations. Unrated securities are not allowed unless specifically permitted by an individual manager's guidelines. Securities that fall below the stated minimum credit requirements subsequent to initial purchase may be held at the manager's discretion.

The University reports the credit ratings of fixed income securities and short-term instruments using Standard and Poor's and Moody's ratings. Securities with split ratings or with a different rating assignment are disclosed using the rating indicative of the greatest degree of risk. At June 30, 2023, the University's operating internal investment pool securities had the following credit ratings (reported as a percent of the pool): AAA – 37.25%, AA – 24.01%, A – 16.23%, BBB – 10.00%, and not rated – 12.51%. Of the System's non-pooled investments, U.S. Treasury bonds and bills are rated of AA, and money market funds have a credit rating of AAA.

(c) Custodial Credit Risk

Custodial credit risk is the risk that in the event of the failure of the counterparty, the University will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Exposure to custodial credit risk relates to investment securities that are held by someone other than the University and are not registered in the University's name. The University's investment policy does not limit the value of investments that may be held by an outside party. At June 30, 2023, the System's investments and deposits had no custodial credit risk exposure.

(d) Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the University's investment in a single issuer. The University's investment policy provides that the total operating funds portfolio will be broadly diversified across securities in a manner that is consistent with fiduciary standards of diversification. Issuer concentrations are limited to 5% per issuer of the total market value of the portfolio at the time of purchase, or in the case of securitized investments (e.g. mortgage-backed securities), concentration is limited to an individual issuance trust (e.g. pooled receivables). These concentration limits do not apply to investments in pooled investment products, tri-party repurchase agreements or obligations of, or issues guaranteed by, the U.S. Treasury, U.S. agencies or U.S. government sponsored enterprises.

As of June 30, 2023, not more than 5% of the University's total investments were invested in securities of any one issuer, excluding pooled investment products, tri-party repurchase agreements or obligations of, or issues guaranteed by, the U.S. Treasury, U.S. agencies or U.S. government sponsored enterprises.

(e) Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or deposit. The University's operating fund investments generally are not exposed to foreign currency risk. The University does not have an overarching policy related to foreign currency risk; however, under each investment manager's respective fund agreement, the portfolio's foreign currency exposure may be unhedged or hedged back into U.S. dollars.

The University invests in non-U.S. developed and emerging markets through commingled funds invested in non-U.S. equities, fixed income, private markets and hedge funds. As these funds are reported in U.S. dollars, both price changes of the underlying securities in local markets and changes to the value of local currencies relative to the U.S. dollar are embedded in investment returns.

(f) Investments and Fair Value Measurements

Accounting guidance for fair value establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The fair value hierarchy is as follows:

Level 1 - Quoted prices (unadjusted) for identical assets or liabilities in active markets that the University has the ability to access as of the measurement date. Level 1 inputs would also include investments valued at prices in active markets that the University has access to where transactions occur with sufficient frequency and volume to provide reliable pricing information.

Level 2 - Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 - Significant unobservable inputs that reflect a reporting entity's own assumptions about what market participants would use in pricing an asset or liability.

A description of the valuation methodologies used for assets and liabilities measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below.

Investments may be classified as Level 1 when the values are based upon unadjusted quoted prices in active markets for identical assets and generally include active listed equities. Publicly-traded investments that have no or insignificant restrictions are classified in Level 1 of the fair value hierarchy.

Investments may be classified as Level 2 when the values include inputs that are directly observable for an asset (including quoted prices for similar assets), as well as inputs that are not directly observable for the asset. These inputs are derived principally from or corroborated by observable market data through correlation or by other means (market corroborated inputs). The concept of market-corroborated inputs is intended to incorporate observable market data (such as interest rates and yield curves that are observable at commonly quoted intervals) based upon an assessment of factors relevant to the asset or liability.

Investments may be classified as Level 3 when the values include inputs that are unobservable and Level 1 and Level 2 inputs are not available. The values are based upon the best information available under the circumstances and may include management's own data.

The following table summarizes assets measured at fair value as of June 30, 2023, based on the level of the valuation inputs within the fair value hierarchy utilized to measure fair value:

Fair Value Measurements as of June 30, 2023	
Investments in which fair value was measured based on significant other observable inputs (Level 2):	
U.S. Treasury bonds and bills (subject to fair value hierarchy)	\$ <u>7,314,650</u>
Investments measured at cost:	
Money market funds	<u>16,785,878</u>
Total cash equivalents and investments	\$ <u><u>24,100,528</u></u>

(3) Capital Assets

The capital assets of the System are not pledged to secure outstanding indebtedness of the Board. The System records right-of-use lease and subscription assets based on the present value of expected payments over the term of the respective leases and arrangements. The expected payments are discounted using the interest rate charged on the lease or arrangement, if available, and are otherwise discounted using the System’s incremental borrowing rate. The System does not have any leases subject to a residual value guarantee.

Capital asset activity for the year ended June 30, 2023 is summarized as follows:

Capital Assets					
	Beginning balance, restated	Additions	Retirements	Transfers	Ending balance
Nondepreciable capital assets:					
Land	\$ 19,249,334	\$ —	\$ —	\$ —	\$ 19,249,334
Construction in process	25,942,739	18,909,125	—	(34,802,947)	10,048,917
Total nondepreciable capital assets	<u>45,192,073</u>	<u>18,909,125</u>	<u>—</u>	<u>(34,802,947)</u>	<u>29,298,251</u>

Total net depreciable and amortizable capital assets	<u>\$ 1,164,994,639</u>	<u>\$ (49,469,459)</u>	<u>\$ (38,245)</u>	<u>\$ 34,802,947</u>	<u>\$ 1,150,289,882</u>

(4) Bonds Payable

On April 11, 2023, the University issued \$153,150,000 of Auxiliary Facilities System Revenue Bonds, Series 2023A. Proceeds of these bonds are or were being used to currently refund the Series 2013A Bonds and to pay certain interest and costs of issuing the Series 2023A Bonds. The refunding of Series 2023A resulted in a saving of \$11,421,983 over the life of the issue at a present value of \$9,925,871. The difference between the reacquisition price and the net carrying amount of the old debt, gain on refunding, was \$124,316. This gain on refunding is deferred and amortized as a component of interest expense over the remaining life of the old debt or the life of the new debt, whichever is shorter.

Bonds payable activity for the year ended June 30, 2023 was as follows:

Bonds payable							
Series	Rate on June 30 outstanding debt	Fiscal year maturity dates	Beginning balance	Additions	Deductions	Ending balance	Current portion
1999A	6.30% to 6.33%	2024 – 2030	\$ 19,170,000	\$ -	\$ (2,110,000)	\$ 17,060,000	\$ 2,195,000
2001A	5.50%	2024	11,265,000	-	(5,395,000)	5,870,000	5,870,000
2003A	5.50%	2027 – 2034	28,015,000	-	-	28,015,000	-

2015A	3.00% to 5.00%	2024 – 2038	84,310,000	-	(1,545,000)	82,765,000	2,065,000
2016A	4.00% to 5.00%	2024 – 2036	119,890,000	-	(2,135,000)	117,755,000	2,260,000
2016B	3.00% to 5.00%	2024 – 2046	18,530,000	-	(485,000)	18,045,000	510,000
2018A	4.00% to 5.00%	2024 – 2048	130,650,000	-	(3,010,000)	127,640,000	3,165,000
2018B	3.00% to 5.00%	2024 – 2048	18,435,000	-	(420,000)	18,015,000	445,000
2019A	3.00% to 5.00%	2024 – 2049	40,380,000	-	(835,000)	39,545,000	880,000
2020A	4.00% to 5.00%	2024 – 2050	56,170,000	-	(1,800,000)	54,370,000	1,890,000
2020B	2.95% to 4.00%	2024 - 2044	31,175,000	-	-	31,175,000	1,005,000
2021A	2.125% to 5.00%	2024 - 2051	126,405,000	-	(4,795,000)	121,610,000	5,045,000
2023A	5.00%	2024 - 2032	-	153,150,000	-	153,150,000	16,685,000
			1,034,250,000	153,150,000	(212,400,000)	975,000,000	44,085,000
Unaccrued appreciation			(4,469,476)	910,102		(3,559,374)	(832,280)
			1,029,780,524	154,060,102	(212,400,000)	971,440,626	43,252,720
Unamortized debt premium			64,868,769	14,271,120	(18,405,326)	60,734,563	
Total bonds payable			\$ 1,094,649,293	\$ 168,331,222	\$ (230,805,326)	\$ 1,032,175,189	\$ 43,252,720

Capital appreciation bonds (Series 1999A) of \$17,060,000 outstanding at June 30, 2023 do not require current interest payments and have a net unappreciated value of \$13,500,626. The University records the annual increase in the principal amount of these bonds as interest expense and accretion on bonds payable.

None of the System’s bonds constitute obligations of the State of Illinois but are payable solely by the Board from net revenues of the System, student tuition and fees and debt service funds.

The resolutions authorizing the University of Illinois Auxiliary Facilities System Revenue Bonds provide for the establishment of separate funds as follows: Current Unrestricted Fund, Unexpended Fund, Repair and Replacement Reserve, Equipment Reserve, Bond and Interest Sinking Fund, and Development Reserve. All System revenues, including student tuition and fees as provided for by the Bond Resolutions are to be deposited in the Current Unrestricted Fund and used to pay necessary operation and maintenance expenses of the System. In the event of default, the bond owners may sue to command performance.

The Bond Resolutions also require transfers to funds as follows:

Unexpended Fund – amounts, as determined by the Board, not needed to complete construction and renovation projects specified in the Bond Resolutions are required to be transferred from the Unexpended Fund to the Bond and Interest Sinking Fund.

Repair and Replacement Reserve – an amount calculated as specified in the Bond Resolutions to provide for the cost of maintenance and repairs.

Equipment Reserve – an amount approved by the Board for the acquisition of movable equipment to be installed in the facilities constituting the System. The reserve may not exceed 20% of the book value of the movable equipment of the System. Additions of \$131,182 were made to the Equipment Reserve and expenses of \$499,785 were incurred to replace movable equipment during the year ended June 30, 2023. The fund balance of the Equipment Reserve was \$7,793,734 at June 30, 2023.

Bond and Interest Sinking Fund – amounts are transferred into the Bond and Interest Sinking Fund sufficient to pay principal and interest as it becomes due on the outstanding bonds.

Development Reserve – an amount approved by the Board for System development. No transfers were authorized by the Board during the year ended June 30, 2023, and there was no balance in the reserve at June 30, 2023.

The System made all required transfers for the year ended June 30, 2023.

The table below shows the amount of revenues pledged for future principal and interest payments on the bonds:

Pledged revenues					
Bond issue(s)	Purpose	Source of revenue pledged	Future revenues pledged¹	Term of commitment	Debt service to pledged revenues (current year)
System	Refundings, various improvements and additions to the System	Net System revenue, student tuition and fees	\$ 1,416,942,898	2051	6.59%

¹ Total future principal and interest payments

After fulfillment of the provisions described above, the surplus, if any, remaining in the Current Unrestricted Fund may be used (a) to redeem bonds of the System which are subject to early redemption, (b) to purchase any outstanding bonds for cancellation, or (c) to advance refund any bonds outstanding.

Debt Service Requirements

Future debt service requirements for all bonds outstanding at June 30, 2023 are as follows:

Debt service requirements		
	<u>Principal</u>	<u>Interest</u>
Years:		
2024	\$ 44,085,000	\$ 42,256,570
2025	46,390,000	40,396,779
2026	48,760,000	38,434,679
2027	51,685,000	36,135,179
2028	54,640,000	33,685,554
2029-2033	277,020,000	129,340,065
2034-2038	206,935,000	73,343,193
2039-2043	155,295,000	38,990,889
2044-2048	83,180,000	9,038,321
2049-2051	7,010,000	321,669
Total debt service	\$ 975,000,000	\$ <u>441,942,898</u>
Unaccrued appreciation	(3,559,374)	
Unamortized debt premium	60,734,563	
Total bonds payable	\$ <u>1,032,175,189</u>	

(5) Leases and Subscription-Based Information Technology Arrangements

(a) Lessee Arrangements

The System leases office space and equipment with remaining lease terms ranging from less than one year to five years from external parties. The renewal and termination options are not included in the right-of-use assets or leases payable balance until they are reasonably certain of exercise. The lease term does not include periods of a lease that include a mutual termination option. Variable payments that are not fixed in nature and non-rent charges are not included in leases payable. The System did not have any leases with variable lease payments as of June 30, 2023.

In accordance with GASB 87, the System records leases payable based on the present value of expected payments over the term of the respective leases. The expected payments are discounted using the interest rate charged on the lease, if available, and are otherwise discounted using the System's incremental borrowing rate.

As of June 30, 2023, the scheduled fiscal year maturities of leases payable and related interest expense are as follows:

	<u>Principal</u>	<u>Interest</u>
2024	\$ 180,967	\$ 6,749
2025	88,360	3,977
2026	43,013	2,298
2027	34,349	876
2028	7,580	45
	\$ <u>354,269</u>	\$ <u>13,945</u>

(b) Lessor Arrangements

The System leases space within and attached to its buildings to external parties. These arrangements have terms ranging from less than one year to five years. In accordance with GASB 87, the System records lease receivables and deferred inflows of resources based on the present value of expected receipts over the term of the respective leases. The expected receipts are discounted using the interest rate charged on the lease. During the fiscal year ended June 30, 2023, the System recognized revenues related to these lease agreements totaling \$4,160,718, including interest and other related revenues. Of these amounts recognized during the fiscal year ended June 30, 2023, the System recognized \$2,093,627 of revenue related to variable receipts that were not previously included in the measurement of the lease receivable.

(c) Subscription-Based Information Technology Arrangements

The System has many subscription-based information technology arrangements (SBITAs) with remaining terms ranging from less than one year to five years. The renewal and termination options are not included in the right-of-use subscriptions asset or subscriptions payable balance until they are reasonably certain of exercise. The SBITA term does not include periods that include a mutual termination option.

Certain System SBITAs contain both fixed and variable subscription payments. These exist primarily within the arrangements based on the consumer price index (fixed in substance) or other maintenance costs, which are paid based on actual costs incurred by the vendor (not fixed). The remaining SBITA do not contain variable lease payments. Variable payments that are not fixed in nature and non-subscription charges are not included in the subscriptions payable. The total expenditures for variable payments not previously included in the measurement of the subscriptions payable during the fiscal year ended June 30, 2023, were \$19,204.

Additionally, the System recognized termination penalties for SBITAs held at June 30, 2023. These amounts were not included in the measurement of the subscriptions payable and were minimal. There were no commitments for SBITAs that have not yet commenced.

As of June 30, 2023, the scheduled fiscal year maturities of subscriptions payable and related interest expense are as follows:

	<u>Principal</u>	<u>Interest</u>
2024	\$ 241,162	12,732
2025	146,676	6,823
2026	87,750	3,048
2027	26,659	744
2028	1,627	23
	<u>\$ 503,874</u>	<u>23,370</u>

(6) Related-Party Transactions

The University charged the System administrative service charges totaling \$14,606,053 in 2023, based upon the gross expenditures and debt service transfers of various operations of the System. These charges represent a portion of estimated administrative and other service costs incurred by the University in support of the System and are reported as administrative services expenses in the accompanying financial statements.

The System includes certain athletic facilities and office space utilized by the Division of Intercollegiate Athletics. Student fees provide the primary funding for the operation of these athletic facilities and office space. The Division of Intercollegiate Athletics transferred funds to the System of \$15,726,337 in 2023 to fund the operations not covered by student fees. This transfer has been reported as rental and lease income in the accompanying financial statements.

The University paid the System \$12,029,388 to relocate spaces in the form of a parking garage to allow for construction of a new academic facility. Through a public-private partnership agreement, the System will have constructed a new freestanding parking structure to be located on another existing surface parking lot to recapture the lost capacity resulting from this transaction. The System has used a substantial portion of the funds transferred as an equity contribution towards the financing of the new garage.

At June 30, 2023, the System had borrowings under multiple internal financing notes with the University in order to finance acquisition, construction, and renovation of System facilities. The notes have repayment terms and interest rates ranging from 3.00% to 4.09%

Notes payable to the University						
	Maturity date	Beginning balance	New debt	Principal paid/debt refunded	Ending balance	Current portion
Payable to the University	2024 - 2031	\$ 8,300,905	\$ 20,620,726	\$ 2,262,509	\$ 26,659,122	\$ 3,659,486

Future debt service requirements for the outstanding notes payable as of June 30, 2023 are as follows:

Notes payable to the University			
Debt service requirements			
		Principal	Interest
Years:			
2024		\$ 3,659,486	\$ 1,056,284
2025		3,772,021	916,203
2026		3,916,413	771,811
2027		3,401,337	621,827
2028		3,042,439	487,114
2029-2031		8,867,426	694,158
Total		\$ 26,659,122	\$ 4,547,397

The University (including the System) is a defendant in a number of legal actions. These legal actions have been considered in estimating the University's accrued self-insurance liability, which covers hospital and medical professional/general liability; estimated general and contractual liability, and workers' compensation liability. As of June 30, 2023, the University's total accrued self-insurance liability was \$281,931,000.

Ultimate cost consists of amounts estimated by the University's risk management division and actuaries for asserted claims, unasserted claims arising from reported incidents, expected litigation expenses and amounts determined by actuaries using relevant industry data and System specific data to cover projected losses for claims incurred but not yet reported. The System contributes to the University's self-insurance reserve through annual assessments. The entire self-insurance liability is reflected in the University's financial statements.

(7) **Retirement and Postemployment Benefits**

(a) ***Defined Benefit Pension Plan***

General Information about the Defined Benefit Pension Plan

Plan Description: The University contributes to SURS, a cost-sharing multiple-employer defined benefit plan with a special funding situation whereby the State makes substantially all actuarially determined required contributions on behalf of the participating employers. SURS was established July 21, 1941 to provide retirement annuities and other benefits for staff members and employees of State universities, certain affiliated organizations, and certain other State educational and scientific agencies and for survivors, dependents and other beneficiaries of such employees. SURS is considered a component unit of the State's financial reporting entity and is included in the State's Annual Comprehensive Financial Report as a pension trust fund. SURS is governed by Chapter 40, Act 5, Article 15 of the Illinois Compiled Statutes. SURS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by accessing the website at www.surs.org.

Benefits Provided: A traditional benefit plan was established in 1941. Public Act 90-0448 enacted effective January 1, 1998, established an alternative defined benefit program known as the portable benefit package. The traditional and portable plan Tier 1 refers to members that began participation prior to January 1, 2011. Public Act 96-0889 revised the traditional and portable benefit plans for members who begin participation on or after January 1, 2011, and who do not have eligible reciprocal system service. The revised plan is referred to as Tier 2. New employees are allowed six months after their date of hire to make an irrevocable election whether to participate in either the traditional or portable benefit plans. A summary of the benefit provisions as of June 30, 2022 can be found in the SURS Annual Comprehensive Financial Report Notes to the Financial Statements.

Contributions: The State is primarily responsible for funding the SURS on behalf of the individual employers at an actuarially determined amount. Public Act 88-0593 provides a statutory funding plan consisting of two parts: (i) a ramp-up period from 1996 to 2010 and (ii) a period of contributions equal to a level percentage of the payroll of active members within SURS to reach 90% of the total Actuarial Accrued Liability by the end of fiscal year 2045. Employer contributions from "trust, federal, and other funds" are provided under Section 15-155 (b) of the Illinois Pension Code and require employers to pay contributions which are sufficient to cover the accruing normal costs on behalf of applicable employees. The employer normal cost for fiscal year 2022 and 2023 respectively, was 12.32% and 12.83% of employee payroll. The normal cost is equal to the value of current year's pension benefit and does not include any allocation for the past unfunded liability or interest on the unfunded liability. Plan members are required to contribute 8.0% of their annual covered salary except for police officers and fire fighters who contribute 9.5% of their earnings. The contribution requirements of plan members and employers are established and may be amended by the State's General Assembly.

Participating employers make contributions toward separately financed specific liabilities under Section 15-139.5(e) of the Illinois Pension Code (relating to contributions payable due to the employment of "affected annuitants" or specific return to work annuitants), Section 15-155(g) (relating to contributions payable due to earning increases exceeding 6% during the final rate of earnings period), and Section 15-155 (j-5) (relating to contributions payable due to earnings exceeding the salary set for the Governor).

Pension Liabilities, Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Defined Benefit Pensions

Net Pension Liability: The net pension liability (NPL) was measured as of June 30, 2022. At June 30, 2022, the SURS reported a NPL of \$29,078,053,857.

Employer Proportionate Share of Net Pension Liability: The amount of the proportionate share of the NPL to be recognized for the System is \$0. The proportionate share of the State’s NPL associated with the System is \$456,397,809. This amount is not recognized in the System’s financial statements. The NPL and total pension liability as of June 30, 2022 was determined based on the June 30, 2021 actuarial valuation rolled forward. The basis of allocation used in the proportionate share of net pension liability is the actual reported pensionable contributions made to the SURS during fiscal year 2021.

Defined Benefit Pension Expense: At June 30, 2022 SURS defined benefit plan reported a collective net pension expense of \$1,903,314,699.

Employer Proportionate Share of Defined Benefit Pension Expense: The employer proportionate share of collective defined benefit pension expense is recognized as nonoperating revenue with matching operating expense (special funding situation for fringe benefits) in the financial statements. The basis of allocation used in the proportionate share of collective pension expense is the actual reported pensionable contributions made to the SURS during fiscal year 2021. As a result, the University recognized revenue and defined benefit pension expense of \$872,498,244 from this special funding situation during the year ended June 30, 2023, of which \$29,873,678 was related to the System.

Deferred Outflows of Resources and Deferred Inflows of Resources Related to Defined Benefit Pensions: Deferred outflows of resources are the consumption of net position by SURS that is applicable to future reporting periods. Conversely, deferred inflows of resources are the acquisition of net position by SURS that is applicable to future reporting periods.

SURS Collective Deferred Outflows and Deferred Inflows of Resources by Sources

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 31,973,496	\$ 28,674,599
Changes in assumption	279,362,441	982,954,268
Net difference between projected and actual earnings on pension plan investments	31,628,935	—
Total	<u>\$ 342,964,872</u>	<u>\$ 1,011,628,867</u>

Year Ending June 30	Net Deferred Outflows and Deferred Inflows of Resources
2023	\$ (332,941,204)
2024	(528,966,820)
2025	(249,290,775)
2026	442,534,804
2027	
Total	<u>\$ (668,663,995)</u>

Assumptions and Other Inputs

Actuarial assumptions: The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial experience study for the period June 30, 2017 through June 30, 2020. The total pension liability in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.25 percent
Salary increases	3.00 to 12.75 percent, including inflation
Investment rate of return	6.50 percent

Mortality rates were based on the Pub-2010 employee and retiree gender distinct tables with projected generational mortality and a separate mortality assumption for disabled participants.

The long-term expected rate of return on defined benefit pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return were adopted by the plan's trustees after considering input from the plan's investment consultants and actuary.

For each major asset class that is included in the pension plan's target asset allocation as of June 30, 2022, these best estimates are summarized in the following table:

Defined Benefit Plan	Strategic Policy Allocation	Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)
Traditional Growth		
Global Public Equity	38.0%	7.62%
Stabilized Growth		
Public Credit Fixed Income	9.0%	4.20%
Credit Real Assets	4.5%	4.98%
Options Strategies	2.5%	4.91%
Private Credit	1.0%	7.45%
Non-Traditional Growth		
Private Equity	10.5%	11.91%
Non-Core Real Assets	2.5%	9.43%
Inflation Sensitive		
U.S. TIPS	5.0%	1.23%
Principal Protection		
Core Fixed Income	8.0%	1.79%
Crisis Risk Offset		
Systematic Trend Following	10.0%	4.33%
Alternative Risk Premia	5.0%	3.59%
Long Duration	4.0%	2.16%
Total	100.0%	6.08%
Inflation		2.25%
Expected Arithmetic Return		8.33%

Discount Rate: A single discount rate of 6.39% was used to measure the total pension liability. This single discount rate was based on an expected rate of return on pension plan investments of 6.50% and a municipal bond rate of 3.69% (based on the Fidelity 20-Year Municipal GO AA Index as of June 30, 2022). The projection of cash flows used to determine this single discount rate were the amounts of contributions attributable to current plan members and assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the statutory contribution rates under SURS funding policy. Based on these assumptions, the pension plan’s fiduciary net position and future contributions were sufficient to finance the benefit payments through the year 2076. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2076, and the municipal bond rate was applied to all benefit payments after that date.

Sensitivity of the SURS Net Pension Liability to Changes in the Discount Rate: Regarding the sensitivity of the NPL to changes in the single discount rate, the following presents the State’s NPL, calculated using a single discount rate of 6.39%, as well as what the State’s NPL would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher:

1% Decrease 5.39%	Current Single Discount Rate Assumption 6.39%	1% Increase 7.39%
\$35,261,802,968	\$29,078,053,857	\$23,928,731,076

Additional information regarding the SURS basic financial statements including the plan net position can be found in the SURS Annual Comprehensive Financial Report by accessing the website at www.SURS.org.

(b) Defined Contribution Pension Plan

General Information about the Defined Contribution Pension Plan

Plan Description: The University contributes to the Retirement Savings Plan (RSP) administered by SURS, a cost-sharing multiple-employer defined contribution pension plan with a special funding situation whereby the State makes substantially all required contributions on behalf of the participating employers. SURS was established July 21, 1941 to provide retirement annuities and other benefits for staff members and employees of State universities, certain affiliated organizations, and certain other State educational and scientific agencies and for survivors, dependents and other beneficiaries of such employees. SURS is governed by Chapter 40, Act 5, Article 15 of the *Illinois Compiled Statutes*. SURS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by accessing the website at www.surs.org. The RSP and its benefit terms were established and may be amended by the State’s General Assembly.

Benefits Provided: A defined contribution pension plan, originally called the Self-Managed Plan, was added to SURS benefit offerings as a result of Public Act 90-0448 enacted effective January 1, 1998. The plan was renamed the RSP effective September 1, 2020, after an extensive plan redesign. New employees are allowed six months after their date of hire to make an irrevocable election whether to participate in either the traditional or portable defined benefit pension plans or the RSP. A summary of the benefit provisions as of June 30, 2022, can be found in SURS Annual Comprehensive Financial Report – Notes to the Financial Statements.

Contributions: All employees who have elected to participate in the RSP are required to contribute 8.0% of their annual covered earnings. Section 15-158.2(h) of the Illinois Pension Code provides for an employer contribution to the RSP of 7.6% of employee earnings. The State is primarily responsible for contributing to the RSP on behalf of the individual employers. Employers are required to make the 7.6% contribution for employee earnings paid from “trust, federal, and other funds” as described in Section 15-155(b) of the Illinois Pension Code. The contribution requirements of plan members and employers were established and may be amended by the State’s General Assembly.

Forfeitures: Employees are not vested in employer contributions to the RSP until they have attained five years of service credit. Should an employee leave SURS-covered employment with less than five years of service credit, the portion of the employee’s RSP account designated as employer contributions is forfeited. Employees who later return to SURS-covered employment will have these forfeited employer contributions reinstated to their account, so long as the employee’s own contributions remain in the account. Forfeited employer contributions are managed by SURS and are used both to reinstate previously forfeited contributions and to fund a portion of the State’s contributions on behalf of the individual employers. The vesting and forfeiture provisions of the RSP were established and may be amended by the State’s General Assembly.

Pension Expense Related to Defined Contribution Pensions

Defined Contribution Pension Expense: For the year ended June 30, 2022, the State’s contributions to the RSP on behalf of individual employers totaled \$89,770,940. Of this amount, \$80,902,699 was funded via an appropriation from the State and \$8,868,241 was funded from previously forfeited contributions.

Employer Proportionate Share of Defined Contribution Pension Expense: The employer proportionate share of collective defined contribution pension expense is recognized as nonoperating revenue with matching operating expense (special funding situation for fringe benefits) in the financial statements. The basis of allocation used in the proportionate share of collective defined contribution pension expense is the actual reported pensionable contributions made to the RSP during fiscal year 2022. The University’s share of pensionable contributions was 56.0744%. As a result, the University recognized revenue and defined contribution pension expense of \$50,338,541 from this special funding situation during the year ended June 30, 2023, of which \$1,723,570 was related to the System. The amount that constituted forfeitures for the University was \$4,972,815.

(c) Postemployment Benefits

Plan description: The State Employees Group Insurance Act of 1971 (Act), as amended, authorizes the SEGIP to provide health, dental, vision, and life insurance benefits for certain retirees and their dependents. Substantially all of the University’s full-time employees are members of SEGIP. Members receiving monthly benefits from the GARS, JRS, SERS, TRS, and SURS are eligible for these other post-employment benefits (“OPEB”). The eligibility provisions for the SURS members were defined within Note 7(a).

The State recognizes SEGIP OPEB benefits as a single-employer defined benefit plan, which does not issue a stand-alone financial report.

Benefits provided: The health, dental, and vision benefits provided to and contribution amounts required from annuitants are the result of collective bargaining between the State and the various unions representing the State's and the State universities' employees in accordance with limitations established in the Act. Therefore, the benefits provided and contribution amounts are subject to periodic change. Coverage through SEGIP becomes secondary to Medicare after Medicare eligibility has been reached. Members must enroll in Medicare Parts A and B to receive the subsidized SEGIP premium available to Medicare eligible participants. The Act requires the State to provide life insurance benefits for annuitants equal to their annual salary as of the last day of employment until age 60, at which time, the benefit amount becomes \$5,000.

Funding policy and annual other postemployment benefit cost: OPEB offered through SEGIP are financed through a combination of retiree premiums, State contributions and Federal government subsidies from the Medicare Part D program. Contributions are deposited in the Health Insurance Reserve Fund, which covers both active State employees and retirement members. Annuitants may be required to contribute towards health and vision benefits with the amount based on factors such as date of retirement, years of credited service with the State, whether the annuitant is covered by Medicare, and whether the annuitant has chosen a managed health care plan. Annuitants who retired prior to January 1, 1998, and who are vested in the State Employee's Retirement System do not contribute toward health and vision benefits. For annuitants who retired on or after January 1, 1998, the annuitant's contribution amount is reduced five percent for each year of credited service with the State allowing those annuitants with twenty or more years of credited service to not have to contribute towards health and vision benefits. All annuitants are required to pay for dental benefits regardless of retirement date. The Director of CMS shall, on an annual basis, determine the amount the State shall contribute toward funding the basic program of group health benefits. State contributions are made primarily from the State's General Fund on a pay-as-you-go basis. No assets are accumulated or dedicated to funding the retiree health insurance benefit and a separate trust has not been established for the funding of OPEB.

For fiscal year 2023, the annual cost of the basic program of group health, dental, and vision benefits before the State's contribution was \$12,636 (\$6,990 if Medicare eligible) if the annuitant chose benefits provided by a health maintenance organization and \$14,646 (\$5,882 if Medicare eligible) if the annuitant chose other benefits. The State is not required to fund the plan other than the pay-as-you-go amount necessary to provide the current benefits to retirees.

Special funding situation of OPEB: The proportionate share of the State's OPEB expense relative to the System's former employees or retirees was estimated to be (\$23,078,610) during the year ended June 30, 2023. The amount of the total proportionate share of the total OPEB liability to be recognized by the System related to the special funding situation is \$0.

Actuarial Methods and Assumptions: The total OPEB liability was determined by an actuarial valuation using the following actuarial assumptions, applied to all periods included in the measurement unless otherwise specified. The actuarial valuation for the SEGIP was based on GARS, JRS, SERS, TRS, and SURS active, inactive, and retiree data as of June 30, 2021, for eligible SEGIP employees, and SEGIP retiree data as of June 30, 2021.

Valuation Date	June 30, 2021
Measurement Date	June 30, 2022
Actuarial Cost Method	Entry Age Normal
Inflation Rate	2.25%
Projected Salary Increases*	2.50% - 12.75%
Healthcare Cost Trend Rate:	
Medical & Rx (Pre-Medicare - QCHP**)	Trend rates start at 8.00% in 2024, decreasing by 0.25% per year to an ultimate trend rate of 4.25% in year 2039.
Post-Medicare - MAPD***	Trend rates are 0.00% in years 2024 to 2028, 19.42% from 2029 to 2033, then 5.77% in 2034 decreasing ratably to an ultimate trend rate of 4.25% in 2039.
Retirees' share of benefit-related costs	Healthcare premium rates for members depend on the date of retirement and the years of service earned at retirement. Members who retired before January 1, 1998, are eligible for single coverage at no cost to the member. Members who retire after January 1, 1998, are eligible for single coverage provided they pay a portion of the premium equal to 5 percent for each year of service under 20 years. Eligible dependents receive coverage provided they pay 100 percent of the required dependent premium. Premiums for plan year 2022 and 2023 are based on actual premiums. Premiums after 2023 were projected based on the same healthcare cost trend rates applied to per capita claim costs.

Note: the above actuarial assumptions were used to calculate the OPEB liability as of the current year measurement date and are consistent with the actuarial assumptions used to calculate the OPEB liability as of the prior year measurement date except for the following:

Healthcare Cost Trend Rate:	
Medical & Rx (Pre-Medicare & Post-Medicare)	1.80 % grading up 6.20% in the first year to 8.00%, then grading down 0.25% per year to an ultimate trend of 4.25% in year 2038. There is no additional trend rate adjustment due to the repeal of the Excise Tax.
Medical & Rx (Post-Medicare)	-7.56% grading up 15.56% in the first year to 8.00%, then grading down 0.25% per year to an ultimate trend of 4.25% in year 2038.
Dental and Vision	3.75% grading up 0.25% in the first year to 4.00% through 2038.

*Dependent upon service and participation in the respective retirement systems. Includes inflation rate listed.

**Quality Care Health Plan

***Medicare Advantage Prescription Drug

Additionally, the demographic assumptions used in this OPEB valuation are identical to those used in the June 30, 2021 valuations for GARS, JRS, SERS, TRS, and SURS as follows:

	<u>Retirement age experience study[^]</u>	<u>Mortality^{^^}</u>
GARS	July 2018 - June 2021	Pub-2010 Above-Median Income General Healthy Retiree Mortality tables, sex distinct, scaling factors of 99% for males and females and generational mortality improvements using MP-2018 two-dimensional mortality improvement scales
JRS	July 2018 - June 2021	Pub-2010 Above-Median Income General Healthy Retiree Mortality table, sex distinct, scaling factors of 102% for males and 98% for females and generational mortality improvements using MP-2018 two-dimensional mortality improvement scales
SERS	July 2018 - June 2021	Pub-2010 General and Public Safety Healthy Retiree mortality table, sex distinct, with rates projected to 2018 generational mortality improvement factors were updated to projection scale MP-2018
TRS	July 2017 - June 2020	RP-2010 with future mortality improvements on a fully generational basis using projection table MP-2020
SURS	July 2017 - June 2020	Rates based on Pub-2010 Healthy Retiree Mortality tables and the most recent MP-2020 projection scale. Teachers table was used for Academic members and General

[^] The actuarial assumptions used in the respective actuarial valuations are based on the results of actuarial experience studies for the periods defined.

^{^^} Mortality rates are based on mortality tables published by the Society of Actuaries' Retirement Plans Experience Committee.

Discount Rate: Retirees contribute a percentage of the premium rate based on service at retirement. The State contributes additional amounts to cover claims and expenses in excess of retiree contributions. Because plan benefits are financed on a pay-as-you-go basis, the single discount rate is based on a tax-exempt municipal bond rate index of 20-year general obligation bonds with an average AA credit rating as of the measurement date. A single discount rate of 1.92% at June 30, 2021, and 3.69% at June 30, 2022, was used to measure the total OPEB liability.

(8) Commitments

At June 30, 2023, the System had commitments on various construction projects and contracts for repairs and renovation of auxiliary facilities of \$27,714,793.

On November 17, 2022, the University entered into a public-private partnership in order to finance, design, develop, construct, equip, and own: (1) an instructional facility to be known as the South Campus Center for Interdisciplinary Learning, along with associated site development and various related amenities and improvements (Learning Facility); and (2) a standalone parking facility, along with associated site development and various related amenities and improvements (Parking Facility). The Parking Facility will replace existing System surface parking spaces that will be removed to allow for the construction of the Learning Facility. Once completed, the Parking Facility will be part of the System.

(9) Subsequent Event

In August 2023, the Parking Facility, as mentioned in Note 8, was completed, and placed into service as a System capital asset.

(a) System Proportion Percentage of the Collective Net Pension Liability

(b) Proportionate Amount of the Collective Net Pension Liability

(c) Portion of Nonemployer Contributing Entities' Total Proportion of Collective Net Pension Liability associated with the System

(d) Proportion of Collective Net Pension Liability associated with the System as a percentage of defined benefit covered payroll

(e) SURS Plan Net Position as a Percentage of Total Pension Liability

*DBCPC-defined benefit covered payroll -- GASB Statement #82 amended GASB Statements #67 & #68 to require the presentation of covered payroll, defined as payroll on which contributions to a pension plan are based, and ratios that use that measure. For the SURS plans, the covered payroll are those employees within the defined benefit plan.

**Notes to Required Supplementary Information
June 30, 2023**

The pension schedules above are presented to illustrate the requirements of the Governmental Accounting Standards Board's Statement No. 68 to show information for 10 years. However, until a full 10-year trend is compiled, the University will only present available information measured in accordance with the requirements of Statement No. 68.

Changes of benefit terms. There were no benefit changes recognized in the Total Pension Liability as of June 30, 2022.

Changes of assumptions. In accordance with *Illinois Compiled Statutes*, an actuarial review is to be performed at least once every three years to determine the reasonableness of actuarial assumptions regarding the retirement, disability, mortality, turnover, interest and salary of the members and benefit recipients of SURS. An experience review for the years June 30, 2017 to June 30, 2020 was performed in Spring 2021, resulting in the adoption of new assumptions as of June 30, 2021. These assumptions are listed below and remained the same for the June 30, 2022, actuarial valuation.

- Salary increase. Change in the overall assumed salary increase rates, ranging from 3.00 percent to 12.75 percent based on years of service, while maintaining the underlying wage inflation rate of 2.25 percent.
- Investment return. Decrease the investment return assumption to 6.50 percent. This reflects decreasing the assumed real rate of return to 4.25 percent and maintaining the underlying assumed price inflation of 2.25 percent.
- Effective rate of interest. Decrease the long-term assumption for the effective rate of interest for crediting the money purchase accounts to 6.50 percent.
- Normal retirement rates. Establish separate rates for members in academic positions and non-academic positions to reflect that retirement rates for academic positions are lower than for non-academic positions.
- Early retirement rates. Establish separate rates for members in academic positions and non-academic positions to reflect that retirement rates for academic positions are lower than for non-academic positions.
- Turnover rates. Change rates to produce slightly lower expected turnover for most members, while maintaining a pattern of decreasing termination rates as years of service increase.
- Mortality rates. Change from the RP-2014 to the Pub-2010 mortality tables to reflect the latter's higher applicability to public pensions. Update the projection scale from the MP-2017 to the MP-2020 scale.
- Disability rates. Establish separate rates for members in academic positions and non-academic positions and maintain separate rates for males and females.
- Plan election. Change plan election assumptions to 75 percent Tier 2 and 25 percent Retirement Savings Plan (RSP) for non-academic members. Change plan election assumptions to 55 percent Tier 2 and 45 percent Retirement Savings Plan (RSP) for academic members.
