Ladies and Gentlemen:

We are responsible for the identification of, and compliance with, all aspects of laws, regulations, contracts, or grant agreements that could have a material effect on the operations of the University of Illinois (University). We are responsible for and we have established and maintained an effective system of internal controls over compliance requirements. We have performed an evaluation of the University's compliance with the following assertions during the year ended June 30, 2016. Based on this evaluation, we assert that during the year ended June 30, 2016, the University has materially complied with the assertions below.

- A. The University has obligated, expended, received and used public funds of the State in accordance with the purpose for which such funds have been appropriated or otherwise authorized by law.
- B. The University has obligated, expended, received and used public funds of the State in accordance with any limitations, restrictions, conditions or mandatory directions imposed by law upon such obligation, expenditure, receipt or use.
- C. The University has complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.
- D. State revenues and receipts collected by the University are in accordance with applicable laws and regulations and the accounting and recordkeeping of such revenues and receipts is fair, accurate and in accordance with law.
- E. Money or negotiable securities or similar assets handled by the University on behalf of the State or held in trust by the University have been properly and legally administered, and the accounting and recordkeeping relating thereto is proper, accurate and in accordance with law.

Sincerely,

EXIT CONFERENCE

The University waived the exit conference for the Federal Compliance OMB Uniform Guidance audit and the State Compliance examination in an email dated January 22, 2017, from Ginger Velazquez, Interim Assistant Vice President of the Office of the Assistant Vice President for Business and Finance. Responses to the findings were provided by Jennifer Erickson, Assistant Director for Business and Finance, and Ruth Boardman, Associate Director of Compliance, in emails dated January 20, 2017 and January 22, 2017.

**INDEPENDENT ACCOUNTANTS' REPORT ON STATE COMPLIANCE
AND ON INTERNAL CONTROL OVER COMPLIANCE
FOR STATE COMPLIANCE PURPOSES**

Honorable Frank J. Mautino
Auditor General
State of Illinois

and

Board of Trustees
University of Illinois:

Compliance

As Special Assistant Auditors for the Auditor General, we have examined the University of Illinois' compliance with the requirements listed below, as more fully described in the Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide) as adopted by the Auditor General, during the year ended June 30, 2016. The management of the University of Illinois (the University) is responsible for compliance with these requirements. Our responsibility is to express an opinion on the University's compliance based on our examination.

- A. The University has obligated, expended, received, and used public funds of the State in accordance with the purpose for which such funds have been appropriated or otherwise authorized by law.
- B. The University has obligated, expended, received, and used public funds of the State in accordance with any limitations, restrictions, conditions or mandatory directions imposed by law upon such obligation, expenditure, receipt or use.
- C. The University has complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.
- D. State revenues and receipts collected by the University are in accordance with applicable laws and regulations and the accounting and recordkeeping of such revenues and receipts is fair, accurate and in accordance with law.
- E. Money or negotiable securities or similar assets handled by the University on behalf of the State or held in trust by the University have been properly and legally administered and the accounting and recordkeeping relating thereto is proper, accurate, and in accordance with law.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants; the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States; the Illinois State Auditing Act (Act); and the Audit Guide as adopted by the Auditor General pursuant to the Act; and, accordingly, included examining, on a test basis, evidence about the University's compliance with those requirements listed in the first paragraph of this report and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the University's compliance with specified requirements.

In our opinion, the University complied, in all material respects, with the compliance requirements listed in the first paragraph of this report during the year ended June 30, 2016. However, the results of our procedures disclosed instances of noncompliance with the requirements, which are required to be reported in accordance with criteria established by the Audit Guide, issued by the Illinois Office of the Auditor General and which are described in the accompanying schedule of findings and questioned costs as items 2016-001 through 2016-003, and 2016-015 through 2016-018.

Internal Control

Management of the University is responsible for establishing and maintaining effective internal control over compliance with the requirements listed in the first paragraph of this report. In planning and performing our examination, we considered the University's internal control over compliance with the requirements listed in the first paragraph of this report to determine the examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with the Audit Guide, issued by the Illinois Office of the Auditor General, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the requirements listed in the first paragraph of this report on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a requirement listed in the first paragraph of this report will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as items 2016-001 through 2016-003, and 2016-015 through 2016-018, that we consider to be significant deficiencies.

As required by the Audit Guide, immaterial findings excluded from this report have been reported in a separate letter to your office.

The University's responses to the findings identified in our examination are described in the accompanying schedule of findings and questioned costs. We did not examine the University's responses and, accordingly, we express no opinion on the responses.

This report is intended solely for the information and use of the Auditor General, the General Assembly, the Legislative Audit Commission, the Governor, University management, the Board of Trustees of the University, others within the University, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Frank J. Mautino
Auditor General
State of Illinois

and

Board of Trustees
University of Illinois:

As Special Assistant Auditors for the Auditor General, we have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of University of Illinois and the aggregate discretely presented component units, collectively a component unit of the State of Illinois, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the University of Illinois' basic financial statements, and have issued our report thereon dated February 1, 2017.

Our report includes a reference to other auditors who audited the financial statements of the discretely presented component units, as described in our report on the University's financial statements. Other auditors audited the financial statements of the University of Illinois Foundation (a discretely presented component unit) in accordance with *Government Auditing Standards*, as described in our report on the University's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. The financial statements of the University of Illinois Alumni Association; Wolcott, Wood, and Taylor, Inc.; Prairieland Energy, Inc.; Illinois Ventures, LLC; the University Research Park, LLC; and UI Singapore Research, LLC (all discretely presented component units), were not audited in accordance with *Government Auditing Standards* and accordingly this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance with those entities.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the University of Illinois' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University of Illinois' internal control. Accordingly, we do not express an opinion on the effectiveness of the University of Illinois' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings as items 2016-001, 2016-002, and 2016-003 that we consider to be significant deficiencies in internal control over financial reporting. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University of Illinois' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

University of Illinois' Response to Findings

The University of Illinois' response to the findings identified in our audit is described in the accompanying schedule of findings. The University of Illinois' responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the University of Illinois' internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University of Illinois' internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR
FEDERAL PROGRAM, ON INTERNAL CONTROL OVER COMPLIANCE,
AND ON THE SCHEDULE OF EXPENDITURES OF FEDERAL
AWARDS REQUIRED BY THE UNIFORM GUIDANCE**

Honorable Frank J. Mautino
Auditor General
State of Illinois

and

Board of Trustees
University of Illinois:

Report on Compliance for Each Major Federal Program

We have audited University of Illinois' (the University) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the University's major federal programs for the year ended June 30, 2016. The University's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

The schedule of expenditures of federal award and our audit described below does not include expenditures of federal award for those agencies determined to be component units of the University for financial statement purposes.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the University's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the University's compliance.

Opinion on Each Major Federal Program

In our opinion, the University complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2016.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2016-004 through 2016-008 and 2016-010 through 2016-014. Our opinion on each major federal program is not modified with respect to these matters.

The University's responses to the noncompliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The University's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of the University is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the University's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as items 2016-004 through 2016-014 that we consider to be significant deficiencies.

The University's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The University's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of, the business-type activities, the aggregate discretely presented component units of the University of Illinois, a component unit of the State of Illinois, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the University of Illinois's basic financial statements. We issued our report thereon dated February 1, 2017, which contained unmodified opinions on those financial statements. Our report was modified to include a reference to other auditors and to include an emphasis of matter paragraph stating the University adopted GASB Statement No.72, *Fair Value Measurement and Application* and to disclose that Public Act 099-0524 granted the University Fiscal Year 2017 appropriations, totaling \$355,815,000, which the University has used to pay Fiscal Year 2016 costs as allowed for by Public Act 099-0524. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS
Year Ended June 30, 2016**

2016-001. Finding: Inadequate Procedures over Expense Deferrals and Other Cut-off Related Issues

The University of Illinois (the University) has not established adequate internal controls over accurately identifying and recording deferred expense transactions and reporting prepaid expenses at fiscal year-end for financial reporting purposes.

During our audit, we noted that the University's procedures to identify and record prepaid expenses include a review of all cash disbursements by University Payables (UPAY). UPAY identifies expense transactions that pertain to multiple fiscal years and code them for further review by University Accounting and Financial Reporting (UAFR). UAFR will then post year-end journal entries to appropriately defer the identified expense transactions. In addition to the review of all cash disbursements by UPAY, UAFR also requires individual units to identify and report known accrual and deferral transactions at fiscal year-end for certain fund types. We also noted that the University's year-end accounts payable procedures include specifically reviewing cash disbursements made subsequent to year-end through the end of October to determine which accounting period the related expense transactions pertain.

In relation to our test work over expense transactions, we reviewed 225 cash disbursement transactions (totaling \$66,416,080), 60 P-Card expense transactions (totaling \$264,882), and 60 T-Card expense transactions (totaling \$331,836) recorded during the fiscal year. In relation to our test work over revenue transactions, we reviewed 60 cash receipt transactions recorded during the fiscal year (totaling \$47,087,045). We also reviewed 13 cash disbursements occurring subsequent to year-end (totaling \$35,244,921). Additionally, we separately reviewed 12 internal journal voucher transactions recorded during the fiscal year (totaling \$13,266,046 debits and \$423,600 credits).

During our review of these transactions, we noted the following items were not recorded in the proper accounting period:

University of Illinois transactions

- One (1) general expense cash disbursement (totaling \$4,157) that was recorded as an expense for fiscal year ended June 30, 2016, should have been fully accrued as of June 30, 2015 at an amount of \$4,157.
- One (1) general expense cash disbursement (totaling \$27,563) that was recorded as an expense for fiscal year ended June 30, 2016, should have been partially deferred as of June 30, 2016 at an amount of \$17,662, and then recognized as an expense for the fiscal year ending June 30, 2017.
- Three (3) cash receipts (totaling \$67,225) that were recorded as operating revenue for the fiscal year ended June 30, 2016, should have been partially accrued as of June 30, 2015 at an amount of \$61,070.

University of Illinois P-card transactions

- Three (3) general and service expense cash disbursements (totaling \$8,399) that were recorded as expenses for fiscal year ended June 30, 2016, should have been partially deferred as of June 30, 2016 at an amount of \$8,222, and then recognized as expenses for the fiscal year ending June 30, 2017.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS
Year Ended June 30, 2016**

University of Illinois T-card transactions

- One (1) general expense cash disbursement (totaling \$1,895) that was recorded as an expense for fiscal year ended June 30, 2016, should have been deferred as of June 30, 2016, and then recognized as an expense for the fiscal year ending June 30, 2017.

Generally accepted accounting principles require transactions to be reported in the period they are incurred. Additionally, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001), requires the University to establish and maintain a system, or systems, of internal fiscal and administrative controls, which shall provide assurance that: (1) resources are utilized efficiently, effectively, and in compliance with applicable law; (2) obligations and costs are in compliance with applicable law; (3) funds, property, and other assets and resources are safeguarded against waste, loss, unauthorized use, and misappropriation; (4) revenues, expenditures, and transfers of assets, resources, or funds applicable to operations are properly recorded and accounted for to permit the preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources; and (5) funds held outside the State Treasury are managed, used, and obtained in strict accordance with the terms of their enabling authorities and that no unauthorized funds exist. The University's system of internal controls should include procedures to ensure expenses and revenues are recognized in the appropriate reporting period.

In discussing these conditions with University personnel, they stated that the units associated with the exceptions did not adequately follow the procedures to record the transactions in the proper period. While the University believes it has processes in place to prevent material misstatements in the financial statements, the highly decentralized business environment with hundreds of units and large volumes of transactions does present challenges to catching all errors.

Failure to accurately analyze and record cash receipts and disbursements within the proper fiscal year may result in the misstatement of the University's financial statements. (Finding Code No. 2016-001, 2015-001, 2014-001, 2013-001, 12-01, 11-01, 10-03, 09-03)

Recommendation:

We recommend the University continue to review its process to assess the existence of current period revenues and expenses and consider changes necessary to ensure they are accurately identified and recorded for presentation in the University's financial statements.

University Response:

Accepted. The University will continue to implement corrective actions to address the recommendation in this finding.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS
Year Ended June 30, 2016**

2016-002. Finding: Inadequate Controls Over University Procurement Card Transactions

The University of Illinois (the University) has not complied with University policies and internal controls over procurement card transactions.

The University operates a procurement card program which allows individuals throughout the University to make smaller purchases (defined as less than \$4,999) on a credit card which is directly paid by the University on a monthly basis. The University's policies require employees assigned a procurement card to complete training on policies and procedures, pass a test, and sign an agreement stipulating they will use the card in accordance with University policy. This agreement is also required to be authorized by the individual's supervisor or the department head. The University's policies require transactions incurred on the procurement card to be approved in the University's procurement card system by the individual cardholder and an assigned reviewer.

During our test work over 85 procurement card transactions totaling \$302,720, we noted the following:

- One transaction (totaling \$3,850) was a charge for pharmaceuticals/drugs, which are prohibited by the University's procurement card policies.
- Four transactions (totaling \$30,699) were paid in two or more installments, circumventing the card holder's single transaction limit of \$4,999.
- One transaction (totaling \$6,582) was made prior to the approval of form "Software Purchased by P-Card". The form was approved two days after the transaction date.

The University has approximately 4,462 active procurement cards and the procurement card expenditures paid for the year ended June 30, 2016 totaled \$58,487,244.

The University policy states that all P-Card exception requests must be submitted to UPAY Card Services using the P-Card Exception Request. Based on the exception criteria, UPAY Card Services routes the request to the appropriate unit(s) or employee(s) for review, and notifies the requester via email of the approval or denial of the request. Exceptions must be approved prior to making the requested purchase(s).

The University policy states that prior to purchasing software with a P-card, units must complete and retain in their files the "Software Purchased by P-Card" form.

Also, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the University to establish and maintain a system, or systems, of internal fiscal and administrative controls, which shall provide assurance that: (1) resources are utilized effectively, and in compliance with applicable law; (2) obligations and cost are in compliance with applicable law; (3) funds, property, and other assets and resources are safeguarded against waste, loss, unauthorized use, and misappropriation; (4) revenues, expenditures, and transfers of assets, resources or funds applicable to operations are properly recorded and accounted for to permit preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources; and (5) funds held outside the State Treasury are managed, used, and obtained in strict accordance with the terms of their enabling authorities and that no unauthorized funds exist. The University's system of internal controls should include procedures to ensure procurement card transactions are in accordance with University policies and procedures and supporting documentation for each transaction is maintained.

University management indicated the bulleted exceptions largely resulted from human error at the individual and unit level. In addition, management indicated the 4 transactions related to circumventing the card holder's single transaction limit of \$4,999 are the result of misunderstanding prohibitions outlined in policy.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS
Year Ended June 30, 2016**

Failure to properly review and approve procurement card transactions in accordance with University policies could result in erroneous or fraudulent transactions being recorded in the general ledger system. (Finding Code No. 2016-002, 2015-002, 2014-002, 2013-002, 12-02, 11-03, 10-02, 09-02, and 08-03)

Recommendation:

We recommend the University continue to review and improve its internal controls over procurement card transactions to ensure compliance with University policies so that erroneous or fraudulent transactions are not recorded in the general ledger system.

University Response:

Accepted. The University recognizes the importance of process controls, training, and transaction monitoring in this area. Further corrective action measures will be taken in connection with the recommendation in this finding.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS
Year Ended June 30, 2016**

2016-003. Finding: Inadequate Procedures over Maintenance of Accounts Payable Master Vendor File

The University of Illinois (the University) has inadequate controls in place to monitor and maintain the accounts payable master vendor file.

During our review of the University's accounts payable master vendor file (with 144,071 total vendors), we noted there were 779 duplicate records representing 360 vendors. The vendors had the same name but were given different vendor identification numbers in the accounts payable system. In addition, we noted 3,115 vendors without an employer identification number (EIN) listed and 105,938 vendors with no activity within the 3 previous fiscal years.

Good business practices recommend that the accounts payable master vendor file be reviewed for possible duplicate vendor data. The Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires each State Agency to establish and maintain an effective system of internal control, which would include controls over the master vendor file. Per University policies, vendors should also have an employer identification number (EIN) on file when creating the vendor to ensure the vendor is not fraudulent. In addition vendors with no recent activity should be inactivated to ensure no inappropriate payments are made to outdated vendors.

The University indicated that the conditions found within the University's accounts payable master vendor file largely resulted from a combination of systems limitations and the need for more regular reviews of the vendor master file. Regarding the systems limitations, one challenge involves the inability to delete a vendor in the system without also deleting the related spending history for that vendor. As such, there has been a historic hesitancy to delete vendors from the vendor file. A second challenge relates to the fact that some vendors are foreign nationals and do not have an employer identification number (EIN). Identifying these vendors in the system requires significant manual effort.

Failure to appropriately monitor the accounts payable master vendor file may result in an unauthorized vendor payment. (Finding Code No. 2016-003)

Recommendation:

We recommend the University review and implement stronger internal controls in order to monitor and maintain the accounts payable master vendor file.

University Response:

Accepted. The University will continue to implement necessary corrective action to address the recommendation in this finding. Development and testing initiatives are on-going and will continue with staff from Administrative Information Technology Services (AITS) to resolve the system limitations regarding the inactivation/deletion of vendors with no activity and properly identifying foreign vendors and nationals.

93.575/93.596 (\$4,274,413)

Award Numbers: See Table of Award Numbers

Questioned Costs: \$45,000

2016-004. Finding: Inadequate Support for Cash Requests

The University had inadequate accounting records to support reimbursement requests for the Research and Development Cluster and did not refund the overpayment on the Child Care Development Funds (CCDF) Grant timely.

During our testing of 40 grants in the Research and Development (R&D) Cluster and one grant for the CCDF Cluster for cash management procedures, we noted the following:

- For Research and Development 6 out of 60 draws (10%) tested included unsupported expenditures at the time of the draw. The agreements CFO00235 and OR DHS 146499 (both CFDA 93.658) included expenditures noted within the draw that were not supported by documented expenditures at the time of the draws. The effect is a total of \$45,000 of funds were drawn down that were not supported at the time of the drawdowns for these two R&D grants.
- For the CCDF grant award IDHS FCSUI03305 at the University of Illinois at Champaign, it was noted the agency overpaid the University for the final report for the June 30, 2016 close out by \$3,729. The refund of \$3,729 due the agency hadn't been processed timely as the closeout of the grant is still in progress, which is later than the 90 days close out period under the grant.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – FEDERAL COMPLIANCE
Year Ended June 30, 2016**

Uniform Grant Guidance (2 CFR 200.305) requires the University to minimize the time elapsing between the transfer of funds from the federal government and the payment of program expenditures. Uniform Grant Guidance (2 CFR 200.303) also requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations and programs compliance requirements. Effective internal controls should include procedures to ensure reimbursement requests are properly supported by expenditures incurred prior to the draw.

The University stated the unsupported six R&D draws under the two grants identified occurred due to the University unit responsible for management of these two grants not following established policy. The University stated the late return of funds under the CCDF grant occurred due to ongoing communications related to the closeout of the award.

Drawing federal funds before expenses are incurred may result in funds being drawn in advance of the University's immediate cash needs. (Finding Code No. 2016-004, 2015-008, 2014-010, 2013-010, 12-14, 11-28, 10-33)

Recommendation:

We recommend the University implement procedures to ensure properly documented expenditures are recorded in the general ledger as they are incurred to ensure the reimbursement requests are adequately supported by the University's official accounting records.

University Response:

Accepted.

The University agrees the Research and Development funds were drawn prior to the expenditures being incurred. While the University has cash policies and procedures, the errors resulted from a unit not following established policies. The University provided additional training to the unit and implemented additional procedures to prevent funding from being drawn in advance of incurred expenditures. The CCDF late return of funds was due to ongoing communication related to the closeout of the award.

2016-005. Finding: Inadequate Procedures for Closing out Federal Projects

The University does not have adequate procedures in place to ensure federal projects are closed in a timely manner.

The University administers thousands of individual federal projects from several federal agencies and pass-through entities which have varying project periods. The University has formally documented policies and procedures for closing out federally funded projects which generally require projects to be closed within 90 days after the project end date. Procedures have been established to send a notice of terminating accounts to the principal investigator or program coordinator 90 days prior to the project end date. The notice provides information about the process for closing projects and includes an information request for any extensions granted and other project information necessary to complete the project close out. Personnel in the Grants and Contracts Office are responsible for ensuring the University has met its obligations under the project, closing the general ledger accounts, and returning any unexpended grant funds to the federal agency or pass-through entity.

During our review of the University's schedule of expenditures of federal awards for the year ended June 30, 2016, we noted expenditures (or negative expenditures) were reported for several projects with end dates of greater than the 90 day close out period. Specifically, we noted the following:

Year Ended	Number of projects with end date during fiscal year	Year ended June 30, 2016		
		Number of Expenditures	Dollar amount of positive costs	Dollar amount of negative costs
6/30/2009	2	5	2,050	-
6/30/2010	3	86	5	(42,414)
6/30/2011	10	182	-	(278,393)
6/30/2012	29	230	4,345	(117,769)
6/30/2013	44	624	10,892	(110,339)
6/30/2014	89	2,018	101,042	(605,009)
6/30/2015	238	14,158	467,725	(1,214,313)
Total	415	17,303	586,059	(2,368,237)

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – FEDERAL COMPLIANCE
Year Ended June 30, 2016**

Upon review of the transactions recorded in the projects above, we noted transactions included a number of transfer expenditures and corrections. Periodic financial reports previously submitted for several of the University's federally funded projects inaccurately included or excluded project expenditures which have later been corrected.

Uniform Grant Guidance (2 CFR 200.302) requires accurate, current and complete disclosure of the financial results of each federally sponsored project or program in accordance with the applicable reporting criteria. Uniform Grant Guidance (2 CFR 200 Section 200.343(a)) also requires the non-Federal entity must submit, no later than 90 calendar days after the end of the period of performance, all financial, performance and other reports as required by the terms and conditions of the Federal award. The Federal awarding agency or pass-through entity may approve extensions when requested by the non-Federal entity. Uniform Grant Guidance (2 CFR 200.303) also requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure expenditures are allowable in accordance with federal regulations.

In discussing these conditions with University officials, they stated the reason for late closeout varies from award to award. Difficulties in collecting delinquent Accounts Receivable balances or completion of project deliverables can contribute to late award closeout. Additionally, some awards may remain open more than 90 days after the end date as the University awaits continuation paperwork for incrementally funded awards.

Failure to close projects and process necessary cost transfers in a timely manner may result in inaccurate periodic financial reports and unallowable costs. (Finding Code No. 2016-005, 2015-005, 2014-005, 2013-005, 12-04, 11-07, 10-11, 09-13)

Recommendation:

We recommend the University review its current close-out procedures and implement additional procedures to monitor the timeliness of federal account close-outs.

University Response:

Accepted.

The University agrees that there were projects cited with end dates greater than the 90 day closeout period. The reason for late closeout varies from award to award. Difficulties in collecting delinquent Accounts Receivable balances or completion of project deliverables can contribute to late award closeout. Additionally, some awards may remain open more than 90 days after the end date as the University awaits continuation paperwork for incrementally funded awards. The University believes that there are effective internal controls to ensure that expenditures are allowable and in accordance with federal regulations. While the thorough closeout process ensures the appropriateness of the charges, it may also lengthen the closeout time.

The University has devoted additional attention to closeout review and processing to improve the timeliness of its closeouts. As a result of these efforts, the University has been successful in closing out a significant number of older awards. Of the 415 awards cited above, 285 of 296 UIUC projects, and 111 of 119 UIC projects have been successfully closed to date.

UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – FEDERAL COMPLIANCE
Year Ended June 30, 2016**

Federal Agency: US Department of Health & Human Services (USDHHS)

Program Name: Temporary Assistance for Needy Families (TANF)
Child Care Development Funds (CCDF)

CFDA # and Program Expenditures: 93.558 (\$4,549,819)
93.575/93.596 (\$4,274,413)

Award Numbers: See Table of Award Numbers

Questioned Costs: \$733

2016-006. Finding: Inadequate Procedures for Verifying Participant Eligibility

The University of Illinois did not have proper procedures in place to verify participant eligibility and correctly calculate co-payments for the State's Child Care Assistance Program at the Illinois Child Care Resource Services (CCRS).

In relation to the Temporary Assistance for Needy Families Grant (TANF), CCRS is the department for the University of Illinois designated to verify eligibility for participants receiving aid under the Child Care Resource Services program. The Illinois Department of Human Services (IDHS) is responsible for setting the eligibility requirements, determining payment rates, and accrediting providers. CCRS is responsible for the data entry process into the IDHS system, verifying eligibility per IDHS guidelines, calculating copay using IDHS spreadsheets, and retaining documentation and client files.

During our testing of 40 beneficiary files for TANF, we noted ten beneficiary files where CCRS did not properly verify eligibility or calculate the co-payment correctly:

- In three cases, the income per the parent co-payment calculation worksheet, which is used to determine monthly income, was improper based on federal regulation and co-payments were incorrect. For two applicants, their incorrect TANF Cash Assistance amount was used to calculate the income. Per the Child Care Assistance Program (CCAP) Manual Section 01.020.05, CCRS should use the higher amount between IDHS and the amount of TANF Cash Assistance reported on the application. In two instances, the lower amount was used in the calculation, resulting in an undercharge of \$33 for one of the copayments and an undercharge of \$21 for the other co-payment. Additionally, when calculating the monthly income for one participant, gross wages were entered under bi-weekly instead of weekly which caused the wrong rate to be used resulting in an undercharge of \$20 for the copayment.
- In four cases, the income per the parent co-payment calculation worksheet, were improper based on federal regulations. For one applicant the IDHS system indicated the applicant received TANF Cash Assistance but the amount was improperly entered in the 'child support' field rather than the TANF field due to a data entry error. For another applicant, the wrong amount was used from one of the pay stubs to calculate the income. For the other two Section 01.02.05 of the CCAP manual indicates, CCRS should use the higher amount between IDHS and the amount of TANF Cash Assistance reported on the application. Although the errors were not discovered; the participants were eligible under the program and the co-payments were not affected by the errors.
- In three cases, we viewed the participant's grant history printout from IDHS' system, and noted that the participant's eligibility was not verified by a "Y" in the grant history column for the period of eligibility that was being tested. For two of the participants, we then viewed the application and noted that there was no indication of TANF Cash Assistance; therefore, the applicant would not be eligible

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – FEDERAL COMPLIANCE
Year Ended June 30, 2016**

for the program. For the third participant, the IDHS system showed that the Social Security Information amount was entered incorrectly into the TANF line due to a data entry error. CCRS noted the error and the participant should not have been eligible based on TANF guidelines. CCRS incorrectly verified the eligibility for the three applicants and paid a total of \$549 in error for child care for the applicants for the monthly vouchers that were tested.

In relation to the Child Care Development Funds Grant, CCRS is the department for the University of Illinois designated to receive and administer funds and aid under the Child Care Assistance Program to assist parents with child care needs. During our testing for 40 beneficiary payments disbursed totaling \$11,551 under the Child Care Assistance Program, we noted eight beneficiary files with payments totaling \$2,872 with incorrect or incomplete information related to eligibility or co-payments.

- In five cases, the income per the parent co-payment calculation worksheet was improper based on federal regulation. The improper calculation, therefore, resulted in assessing the wrong co-payment amount for all of the applicants. Although all applicants were eligible for the program, there were three applicants that were undercharged co-pays, for a total of \$110 and two applicants were overcharged, for a total of \$37 and the errors were not caught in review.
- In three additional cases, there were improper amounts used on the parent co-payment calculation worksheet was improper based on federal regulations. In all three cases, the applicants were eligible and co-payments remained the same; however, the errors were not caught in review.

The Illinois Department of Human Services Child Care Program Manual, Section 01, establishes guidelines for the eligibility criteria. Per this established eligibility criteria, an individual or family's eligibility for TANF grant money is ultimately determined by IDHS. When CCRS receives the beneficiary information for processing, they are responsible for verifying that eligibility has been determined by IDHS before information is processed for payment to the recipient for child care assistance. CCRS first checks the individual's grant history on the IDHS printout to see if a "Y" is listed under the months that the individual is determined to be eligible. If there is not a "Y" in the grant history for the months of eligibility, CCRS views the individual's application to see if they are receiving TANF Cash Assistance. If the individual indicates they are not receiving TANF Cash Assistance, they need to verify their eligibility with IDHS and not process the information until the issue has been resolved.

The Illinois Department of Human Services Child Care Program Manual Income Guidelines, Section 01.02.01, effective July 1, 2014, states a family is considered income eligible when the combined gross monthly base income (earned and unearned) of all family members is at or below the amounts of income for the corresponding family size. In two-parent families, both incomes must be combined to determine eligibility.

The Illinois Department of Human Services Monthly Income Guidelines has a 185% threshold of the Federal Poverty Guidelines published yearly by the U.S. Department of Health And Human Services (89 Ill. Admin. Code, 50.110(d); 50.230; 50.235).

Uniform Grant Guidance (2 CFR 300.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure the eligibility of beneficiaries is properly determined and co-payments are properly calculated and documentation is maintained to support the determination.

University officials stated the conditions noted in the finding were the result of clerical errors.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – FEDERAL COMPLIANCE
Year Ended June 30, 2016**

Without effective internal controls over compliance, CCRS could allow an individual to receive financial support for applicants that are financially ineligible. Also, failure to perform verification of eligibility determinations in accordance with the program regulation may result in ineligible beneficiaries receiving services. Lastly, inaccurate calculation worksheets can lead to applicants not paying the correct amount of co-payments based on federal regulations. (Finding Code No. 2016-006, 2015-010)

Recommendation:

We recommend the University review its procedures for verifying participant eligibility and implement additional procedures to ensure the correct participant information is used to determine eligibility and calculate co-payments under the TANF and CCDF programs.

University Response:

Accepted.

The University has policies and procedures in place for verifying participant eligibility.

For the first two TANF bullets cited, the University acknowledges that, due to human error, proper assistance amounts were not used to determine eligibility for Child Care Resources Services. However, the University disagrees with the third TANF bullet that participants were ineligible for assistance. The participants would still be eligible for assistance under the non-TANF rules. The University is reviewing current policies and procedures for determining eligibility and will revise if necessary.

For the Child Care Development Funds Grant exceptions cited, the University acknowledges that, due to human error, proper assistance amounts were not used to determine eligibility and co-payment calculations. The University is reviewing current policies and procedures for determining eligibility and will revise if necessary.

Auditors' Comment:

The exceptions identified for TANF were the result of expenditures reported by the University under TANF. Hence, the University's assertion that they disagree with bullet three under TANF as these participants would have been eligible to receive benefits under non-TANF rules does not address that these participants did receive benefits reported under the TANF program. As a result, these participants received ineligible benefits under TANF as reported by the University.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – FEDERAL COMPLIANCE
Year Ended June 30, 2016**

Questioned Costs: None

2016-007. Finding: Incomplete Cost Transfer Information

The University does not adequately document cost transfers for the Research and Development agricultural grant (Hatch Grant).

The University lacks formal policies and procedures for the Federal Agriculture Funds and does not prepare cost transfer forms for any appropriations received under the Hatch Grant in the Research and Development Cluster.

During our testing of 40 Research and Development cost transfers we noted two cost transfer totaling \$558 under the Hatch Grant where cost transfer forms were not prepared.

Uniform Grant Guidance (2 CFR 200.402 and .403) establishes principles and standards for determining costs for federal awards carried out through grants, cost reimbursements contracts, and other agreements with higher education institutions. To be allowable under federal awards, costs must meet certain general criteria including that the expenditures must be allocable, reasonable, and supported by adequate documentation.

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonable ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure expenditures (including cost transfers) are adequately documented in accordance with federal regulations and University policy at the time the transfer is made.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – FEDERAL COMPLIANCE
Year Ended June 30, 2016**

The University is responsible for maintaining a policy to document the processing of cost transfers. However, the current cost transfer policy does not address these particular grant funds.

Failure to maintain a policy to adequately document cost transfers may result in unallowable costs being transferred to federal programs. (Finding Code No. 2016-007, 2015-006, 2014-006, 2013-006)

Recommendation:

We recommend the University review its policies related to documentation and approval of cost transfers and implement procedures to ensure the University cost transfer policies are being adequately followed for all federal funds including agricultural grant funds (Hatch grant).

University Response:

Accepted.

There is no requirement under University Policy 16.1.2 for the forms cited in the finding. However, effective July 1, 2016, the University developed and implemented policies and procedures related to documentation and approval of cost transfers for Hatch Capacity Funds and Cooperative Extension Services Smith-Lever Capacity Funds.

The cost transfer form cited as missing is required for sponsored projects administered at the Office of Grants and Contracts. The Federal Agriculture Appropriation Capacity Funds are administered at the College of Agriculture, Consumer and Environmental Sciences.

2016-008. Finding: Failure to Communicate Required Information to Subrecipients or Obtain Required Information from Subrecipients

The University did not communicate required program information to subrecipients of the Research and Development Cluster program and the Head Start Cluster.

During our testwork of 4 subrecipient subawards in the Head Start Cluster totaling \$701,400 and 40 subrecipient awards totaling \$58,036,158 for the Research and Development Cluster, we noted the following:

- In the Head Start Cluster, two subrecipients (with awards totaling \$457,000) were not informed of the Federal Award Identification Number (FAIN). The University erroneously listed the internal grant number in place of the FAIN.
- In the Research and Development cluster the following was noted:
 - One subrecipient (with awards totaling \$193,934), did not provide the University their DUNS number.
 - Thirteen subrecipients (with awards totaling \$7,145,199) were not notified of the CFDA and title. The CFDA number was listed in the prime award, but was omitted for the sub agreement upon issuance of the sub award.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – FEDERAL COMPLIANCE
Year Ended June 30, 2016**

- Five subrecipients (with awards totaling \$11,792,314) were not informed of the Federal Award Date in the subagreements.

Uniform Guidance (2 CFR section 200.331 (a)) requires all pass through entities ensure that every subaward is clearly identified to the subrecipient as a subaward and include information to comply with Federal statutes, regulations, and the terms and conditions of the award. The required information includes the subrecipient's DUNS number, CFDA number and name, federal award date, and further additional requirements. When some of this information is not available, the pass-through entity shall provide the best information available to describe the Federal award.

Additionally, Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving awards to establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal control should include procedures to ensure required information is communicated prior to the issuance of the subaward.

In discussing this condition related to the Head Start subawards with University officials, the University stated the subrecipients were provided with the University's identification number rather than the FAIN due to human error.

In discussing this condition related to the Research and Development subawards with University officials, the University stated in some cases an outdated subaward template was used resulting in subrecipients not being informed of the Federal Award Date in the subagreements. The University stated they maintain subaward procedures, but in these cases the subaward procedures were not adequately followed by grant personnel.

Failure to communicate required information could result in subrecipients not properly administering the federal programs in accordance with federal regulations. (Finding Code No. 2016-008, 2015-013, 2014-020)

Recommendation:

We recommend the University review its procedures for communicating information to subrecipients and implement the procedures necessary to ensure information is included in the subrecipient award documents at the time of funding.

University Response:

Accepted.

UIUC Response:

The University has developed more robust subaward procedures to ensure the required information is obtained from or communicated to subrecipients. The exceptions cited above were for agreements completed prior to the implementation of these procedures. The University is revisiting awards completed under the previous procedure to ensure required elements have been communicated.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – FEDERAL COMPLIANCE
Year Ended June 30, 2016**

UIC Response:

The University agrees that two Head Start subawards were missing the Federal Award Identification number (FAIN) and two Research and Development subawards were missing the Federal Award Date as a result of human error. The University is reviewing its procedures for communicating information to subrecipients and is using updated subaward templates if necessary to ensure all required information is included in the subrecipient award documents at the time of funding.

2016-009. Finding: Untimely Submission of Financial Reports

The University did not timely submit financial reports for its federal programs.

During our test work of 40 Research and Development Cluster SF-425 reports (16 quarterly reports, 4 annual reports, and one final report), 13 monthly reports and 7 ACM\$ reports we noted the following:

- In the Research and Development Cluster, three monthly reports were submitted 8 to 20 days, one annual report was submitted 10 days, and one quarterly financial status report was submitted 2 days after the required filing dates. These reports related to CFDA Nos. 77.000, 66.469 and 17.720.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – FEDERAL COMPLIANCE
Year Ended June 30, 2016**

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include timely submission to ensure the compliance of all financial reports submitted to the federal agencies.

University officials stated there are various reasons for submitting after the required filing dates such as delays in confirmation of expenditures from the administering departments or awaiting fully executed agreements.

Failure to file reports timely may jeopardize future reimbursement of expended funds or award of future funding from the identified federal agencies. (Finding Code No. 2016-009)

Recommendation:

We recommend the University implement procedures to ensure financial reports are filed in a timely manner.

University Response:

Accepted.

UIUC Response:

The University agrees that three monthly financial reports for CFDA 77.000 were filed late.

UIC Response:

The final quarterly Federal Financial Report for CFDA 66.469 and the annual report for CFDA 17.720 were submitted after the reporting deadlines due to delays in the confirmation of expenditures from the administering departments.

Award Numbers: See Table of Award Numbers

Questioned Costs: None

2016-010. Finding: Errors in Reporting for National Student Loan Data Systems (NSLDS)

Throughout the 2015-16 award year, we noted error records were being returned on the enrollment reporting rosters that were sent to National Student Loan Data System (NSLDS) and those error records were not being corrected and resubmitted within the required 10 days. We also noted student status changes were not being reported to NSLDS within the 60-day requirement.

During our testing of the Direct Loan and Pell Grant programs, we selected a sample of students to test for timeliness of reporting student status changes to the NSLDS. During our testing, we noted the rosters returned yielded error reports that were not corrected and resubmitted within the required 10 days. In addition, out of 14 students tested at the University of Illinois at Chicago, we noted 2 (14%) students' status changes were reported after the 60- day requirement.

This processing error is not within a computer system in the control of the University; nevertheless, the University initiated on-going discussions with the National Student Clearinghouse staff to determine ways to mitigate the effects of the errors. While it is difficult to eliminate all errors, it is possible for colleges and universities to create an Enrollment Reporting Summary Report after reporting student status changes on NSLDS, which can help to detect these types of errors. The Summary Report must then be reviewed by college registrar staff and errors must be corrected manually.

The Code of Federal Regulations, (34 CFR 685.309) requires enrollment status changes for students be reported to NSLDS within 30 days or within 60 days if the student with the status change will be reported on a scheduled transmission within 60 days of the change in status. Regulations require the status include an accurate effective date. In addition, regulations require an institution to make the necessary corrections and return the records within 10 days for any roster files that doesn't pass the NSLDS enrollment reporting edits.

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure enrollment reporting is timely completed.

University officials stated processing errors occurred with the third party vendor it uses for enrollment reporting that resulted in lack of timely enrollment status updates being made to NSLDS.

If the NSLDS system is not updated with the student information, overawards could occur should the student transfer to another institution and the students may not properly enter the repayment period. (Finding Code No. 2016-010, 2015-016)

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – FEDERAL COMPLIANCE
Year Ended June 30, 2016**

Recommendation:

We recommend the University review current processes for reporting to NSLDS and implement procedures to ensure submissions are reported timely for enrollment status and student status changes.

University Response:

Accepted.

The University agrees that processing errors occurred with the third party vendor used for enrollment reporting. The University continues to work with the vendor and the NSLDS to improve timely reporting.

The University of Illinois at Chicago agrees two students records were not updated within the sixty day requirement. The University timely certified the change with the third party vendor but due to processing errors at the vendor, the changes did not occur within sixty days. The University is reviewing procedures to ensure submissions are reported timely for enrollment status and student status changes and will revise if determined necessary.

Award Numbers: See Table of Award Numbers

Questioned Costs: None

2016-011. Finding: Incorrect Award of Title IV Funds

The University of Illinois at Springfield incorrectly awarded one student Pell Title IV Funds.

During our student file testing we noted one student out of 60 (2%) had an incorrect award letter showing more Title IV funds than they were qualified for. The payment schedules take into account the cost of attendance, the student's Expected Family Contribution and the enrollment status of the student. The University of Illinois at Springfield Student Financial Aid department should have completed the award letter for a Pell amount of \$4,925 instead of \$5,025, resulting in an error on the letter of \$100. However, the University did not disburse funds to the student in excess of their total need.

The Code of Federal Regulations (34 CFR 690.62) states the Pell grant for an academic year is based upon the payment and disbursement schedule published by the Secretary for each award year.

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure student awards are within the prescribed limits.

In discussing this condition with University officials, the incorrect award occurred due to human error.

Failure to properly award student financial aid could jeopardize future Federal funding.
(Finding Code No. 2016-011, 2015-017)

Recommendation:

We recommend the University review current procedures for awarding Title IV Funds and implement further control procedures to ensure students are correctly awarded federal funds.

University Response:

Accepted.

The University agrees one award letter communicated an incorrect Pell award amount. The Notification Letter included the Pell award amount prior to the completion of the verification process. Once the verification process was complete, the maximum Pell award amount decreased, and the award letter was not updated. However, the student's Pell award disbursement was correct, and the total cost of attendance was not exceeded. The University is reviewing its current procedures to ensure award records are correctly updated and will revise if determined necessary.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – FEDERAL COMPLIANCE
Year Ended June 30, 2016**

Federal Agency: US Department of Education (USDE)

93.264/93.342/93.364/93.925 (\$602,884,498)

Award Numbers: See Table of Award Numbers

Questioned Costs: \$677

2016-012. Finding: Inadequate Return of Title IV Fund Calculation

The University did not accurately complete Return of Title IV (R2T4) calculations for students.

Out of the 22 students tested at University of Illinois at Chicago, we noted 1 (5%) student for which the University did not accurately complete the R2T4 calculation. The student requested the withdrawal on 2/2/16 but the University used 2/8/16 as the withdrawal date for the R2T4 calculation, resulting in an error in the R2T4 calculation of \$677, which should have been returned to the Department of Education.

Out of the 22 students tested at University of Illinois at Chicago, we noted 2 (9%) students for which the University did not properly round to three decimal places for the students' R2T4 calculations, resulting in errors in the R2T4 calculation of \$7, which should have been earned by the students.

The University of Illinois at Springfield and at Chicago do not have a formal review process in place for the R2T4 calculations. The Universities have indicated a review is happening; however, no formal review is documented.

According to 34 CFR 668.22, institutions are required to complete accurate Return of Title IV calculations as defined in the regulations. For a student that provides official notification of his or her intent to withdraw, the date the student began the institution's withdrawal process is the withdrawal date for Title IV purposes.

The Federal Student Aid Handbook published by the Department of Education states that percentages are calculated to four decimal places and is rounded to three decimal places for the return of Title IV calculations.

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure students returns are within the prescribed limits and include a documented formal review to ensure the accuracy of all R2T4 calculations.

In discussing this condition with University officials, the inadequate Return of Title IV calculations were a result of human errors and a change in how withdrawals are processed.

The Return of Title IV calculation determines the amount of federal financial assistance that the student is entitled to and is based on the number of days they completed in the period. Using the incorrect number of days in the term in the Return of Title IV calculations results in incorrect return calculations and additional funds that should be returned to the Department of Education.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – FEDERAL COMPLIANCE
Year Ended June 30, 2016**

The lack of independent documented review of the Return of Title IV calculations being performed by the student financial aid staff could result in errors going undetected by the University. (Finding Code No. 2016-012, 2015-018)

Recommendation:

We recommend the University review its current procedures for Title IV funds and implement additional procedures to ensure funds are properly and timely returned. We also recommend the University implement a formal review procedure to document the R2T4 calculations are being performed to minimize the likelihood that errors may go undetected and not be corrected in a timely manner.

University Response:

Accepted.

The University of Illinois at Chicago agrees that the incorrect withdrawal date was used for one student, and there were two instances where the refunds were not processed to the correct decimal place for the Return of Title IV (R2T4). The University is reviewing current procedures to ensure funds are properly and timely returned to the Department of Education and will revise if determined necessary. Additionally, we believe that a Return of Title IV review was conducted but not formally documented.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – FEDERAL COMPLIANCE
Year Ended June 30, 2016**

Federal Agency: US Department of Health & Human Services (USDHHS)

Program Name: Maternal and Child Health Services Block Grant to the States

CFDA # and Program Expenditures: 93.994 (\$7,411,572)

Award Numbers: See Table of Award Numbers

Questioned Costs: None

2016-013. Finding: Incomplete Documentation in Client Eligibility Files

The University of Illinois did not perform eligibility determinations for beneficiaries of the Maternal and Child Health Services Block Grant (MCH Block Grant) program in accordance with the Illinois Division for Specialized Care for Children (DSCC).

MCH Block Grant funds are used to provide care to special needs children who meet a variety of program eligibility requirements which include medical, financial and other general criteria. During our testing for 40 beneficiary payments disbursed totaling \$6,663 under the MCH Block Grant, we noted one beneficiary with a payment totaling \$52 with incorrect information.

- The benefit paid on behalf of the beneficiary was not calculated properly. Based on review of the claim summary form from the health insurance, the beneficiary was only responsible for paying \$49 and due to a data entry error, the beneficiary paid \$52, which resulted in an overpayment of \$3.

The Illinois Administrative Code (Code) (89 Ill. Admin. Code 1200.50 (c)(4)(A)) states that financial assistance is provided when the total family income is equal to or less than the income allowable according to the Financial Eligibility Scale. The Financial Eligibility Scale represents 285% of the Federal Poverty Guidelines published yearly by the Department of Health And Human Services (89 Ill. Admin. Code 1200.50 (c)(2)).

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure that benefits are properly calculated.

In discussing this condition with University officials, they stated the differences were a result of human error.

Failure to perform eligibility determinations in accordance with the program regulation may result in ineligible beneficiaries receiving services for which they are not eligible. (Finding Code No. 2016-013, 2015-004, 2014-004, 2013-003, 12-03, 11-06)

Recommendation:

We recommend the University review current procedures for performing eligibility determination in accordance with program regulations and implement any changes necessary to ensure proper documentation is used to determine program eligibility.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – FEDERAL COMPLIANCE
Year Ended June 30, 2016**

University Response:

Accepted.

The University agrees that the benefit was incorrectly calculated. Due to a typographical error when entering data from medical claims to be paid from the MCH Block Grant, an overpayment was created. The overpayment has been refunded and removed from the award.

Questioned Costs: None

2016-014. Finding: Improper Property Management Procedures

The University does not adequately follow property management regulations relative to equipment purchased with federal funding from the Research and Development Cluster and Cooperative Extension Services programs.

The University conducts research and extension services in multiple locations on each of its Universities, as well as at off-site locations throughout the State. Equipment items purchased with federal funds are utilized at each of these locations. The University identifies all equipment in its property management records with individually assigned asset numbers and each individual asset record includes the specific location of the asset, the federal award general ledger account number which funded the purchase of the asset, and other required information. An asset tag with the assigned asset number is affixed to each asset in accordance with University policy and State Property Management Regulations.

During our physical observation of 40 pieces of equipment purchased with the Research and Development Cluster funds and 16 pieces of equipment purchased with Cooperative Extension Service Program funds, we noted the following:

- One item included on the fiscal year 2016 Cooperative Extension equipment listing could not be verified as the asset tag was not visible on the equipment item.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – FEDERAL COMPLIANCE
Year Ended June 30, 2016**

- One item included on the fiscal year 2016 Research and Development equipment listing could not be located. Upon further inquiry, this piece of equipment was on loan to another University. Forms such as the Sponsored Equipment Loan Agreement and the Agreement for Temporary Off-University Use were not completed and signed.

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure equipment inventory records are accurate and equipment items are properly tagged.

The University stated the asset tag was not visible on the server without unplugging the server. The University stated the equipment on loan was transferred with incomplete loan forms due to the timing of the departure of the Principal Investigator on the grant.

Failure to maintain accurate property records inhibits the University from properly safeguarding and maintaining equipment. (Finding Code No. 2016-014)

Recommendation:

We recommend the University review its procedures to ensure equipment inventory records are accurate and equipment items are properly tagged.

University Response:

Accepted.

The University has property and equipment policies and procedures in place related to the tagging and transfer of equipment. The University agrees that one asset tag was not visible at the inspection without a service interruption. During this period, service interruptions were not allowed in order to meet the demands of the crucial data processing. There are policies and procedures currently in place related to equipment loans. The University agrees that the Research and Development equipment was transferred with incomplete loan forms.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – STATE COMPLIANCE
Year Ended June 30, 2016**

2016-015. Finding: Contracts and Real Property Leases Not Properly Executed

The University has not established adequate internal controls over contracts and leases to ensure all necessary approvals are received and the agreements are executed prior to the performance and filed with the State of Illinois Office of the Comptroller on a timely basis.

During our review of 69 contracts, including purchase orders, executed during the fiscal year ended June 30, 2016, we noted the following:

- Three contracts did not contain the signature of the employee signing on behalf of the University Comptroller.
- Five contracts (totaling \$31,448,711) were not approved by the University's Chief Executive Officer or Chief Legal Counsel out of 54 contracts (totaling \$194,952,526) sampled requiring this level of approval. Of the five contracts, one contract (totaling \$1,000,000) was approved 155 days after the contract start date, and four contracts (totaling \$30,448,711) were not approved at all.
- Six contracts (totaling \$33,675,196) were executed subsequent to the start date of the contracts. The contract execution dates ranged from seven to 248 days from the commencement of service.
- Three contracts did not contain disclosure of financial interest statements of contractors or subcontractors, as required. The disclosures were submitted 33 to 326 days late.
- One contract was not published in the Illinois Procurement Bulletin, as required.
- 13 contracts did not have standard vendor certifications, as required. Of the 13 contracts, 12 contracts did not contain the certification by the vendor to maintain and make available records to the State for audit purposes.
- Two contracts were awarded to vendors not registered with the State Board of Elections.
- One contract's total expenditures (totaling \$150,000) for the fiscal year exceeded the total contract amount (totaling \$78,021) awarded.
- Eight contracts were not submitted to the State Comptroller's Office, as required. Of the eight, one contract was filed 68 days late and seven contracts were not filed at all.

During our review of 25 real property leases executed during the year ended June 30, 2016, we noted the following:

- Seven lease agreements (totaling \$18,865,776) did not contain the signature of the employee signing on behalf of the University Comptroller.
- Two leases (totaling \$252,078) were executed after the lease term began. The lease execution dates ranged from one to 37 days after the beginning of the lease.
- One lease was not paid in accordance with the lease term resulting in an overpayment of \$13,301.
- Six lease agreements did not contain the certification by the vendor to maintain and make available records to the State for audit purposes.
- Real Estate Disclosure Forms for two leases were not properly and timely completed, as required. Of the two Real Estate Disclosure Forms, one was signed seven days after the beginning of the lease term, and the other was not completed at all.

During our review of 25 emergency purchases that occurred during the year ended June 30, 2016, we noted the following:

- One contract was procured as an emergency when none of the emergency purchase conditions were met or such conditions could have been avoided.
- One emergency purchase was extended beyond 90 days; however, requirements for an emergency purchase extension were not complied with. Rather than complying with the requirements for an emergency purchase extension, a new emergency purchase affidavit was issued for the extended period.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – STATE COMPLIANCE
Year Ended June 30, 2016**

- Four emergency purchases were not filed with the Office of the Auditor General, as required. Three out of the four emergency purchases were filed 21 to 88 days late and one emergency purchase was not filed at all.

The Illinois Procurement Code (Code) (30 ILCS 500 et seq.) and Statewide Accounting Management System (Procedure 15.20 et. seq. and 15.10.40) require contracts and real property leases to contain certain signatures, clauses, and certifications, and also require State agencies to file contracts, purchase orders and leases exceeding \$20,000 with the Office of the State Comptroller within 30 calendar days after execution. Moreover, except as otherwise provided by the Illinois Procurement Code, all State contracts shall be awarded by competitive sealed bids, and notice of exempt purchases under the Illinois Procurement Code (30 ILCS 500/1-12) shall be published in the Illinois Procurement Bulletin within 14 calendar days after the contract execution. The Code (30 ILCS 500/20-30 (a)) states that in accordance with standards set by rule, a purchasing agency may make emergency procurements without competitive sealed bidding or prior notice when there exists a threat to public health or public safety, or when immediate expenditure is necessary for repairs to State property in order to protect against further loss of or damage to State property, to prevent or minimize serious disruption in critical State services that affect health, safety, or collection of substantial State revenues, or to ensure the integrity of State records; provided, however, that the term of the emergency purchase shall be limited to the time reasonably needed for a competitive procurement, not to exceed 90 days. A contract may be extended beyond 90 calendar days if the chief procurement officer determines additional time is necessary and that the contract scope and duration are limited to the emergency. Prior to execution of the extension, the chief procurement officer must hold a public hearing and provide written justification for all emergency contracts. Notice of all emergency procurements shall be provided to the Procurement Policy Board and published in the online electronic Bulletin. The section also states that a chief procurement officer shall file affidavits with the Procurement Policy Board and the Auditor General of the State of Illinois within 10 days after the procurement setting forth the amount expended.

Further, the State Finance Act (30 ILCS 105/9.02) states that new contract, contract renewal, order against a master contract, or any contract amendment of \$250,000 or more in a fiscal year, shall be signed or approved in writing by the agency's chief executive officer, chief legal counsel, and chief fiscal officer.

In addition, the University of Illinois Business and Financial Policies and Procedures (Section 1) and good business practices require all contracts and leases to be properly approved and fully executed prior to the beginning of the lease term or the commencement of services. Additionally, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001), requires the University to establish and maintain a system, or systems, of internal controls to provide assurance that: (1) resources are utilized effectively, and in compliance with applicable law; (2) obligations and cost are in compliance with applicable law; (3) funds, property, and other assets and resources are safeguarded against waste, loss, unauthorized use, and misappropriation; (4) revenues, expenditures, and transfers of assets, resources, or funds applicable to operations are properly recorded and accounted for to permit the preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources; and (5) funds held outside the State Treasury are managed, used, and obtained in strict accordance with the terms of their enabling authorities and that no unauthorized funds exists. The University's system of internal controls should include procedures to ensure that contracts and leases contain all necessary provisions, properly approved, and fully executed prior to the performance.

University officials stated that given the large number of contracts processed by the University there are occasions when certain State and University requirements and University best business practices are not met. University management indicated the bulleted exceptions largely resulted from human error, technical deficiencies or process interpretation and oversight.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – STATE COMPLIANCE
Year Ended June 30, 2016**

Failure to fully execute a contract or real property lease prior to the commencement of services or lease term leaves the University vulnerable to unnecessary liabilities and potential legal issues. In addition, failure to include all appropriate signatures, clauses, and certifications in contracts and leases, failure to file contracts and real property leases with the Office of the Comptroller on a timely basis, and failure to follow emergency purchase requirements result in noncompliance with State statutes and regulations. (Finding Code No. 2016-015, 2015-020, 2014-022, 2013-018, 12-18, 11-32, 10-35, 09-35, 08-09, 07-10, 06-07, 05-05, 04-05, 03-06)

Recommendation:

We recommend the University establish appropriate procedures to ensure that all contracts and leases are completed, approved, and properly executed prior to the start of the services and lease term. Further, the University should review procedures to ensure all appropriate signatures, clauses and certifications are obtained prior to execution for all contracts and lease agreements and that all applicable contracts, real estate leases, and emergency purchases are filed with the Office of the Comptroller and the Auditor General of the State of Illinois in accordance with the State statutes and related guidelines.

University Response:

Accepted. The University recognizes the importance of process controls, training, and transaction monitoring in these areas. Corrective action measures have been put in place or will be taken in connection with the recommendations in this finding to include: (1) contracts missing name and title of person who signed the documents were completed prior to enhancements to the enterprise-wide Illinois Contract System (ICS) program in December 2015, which added name and titles of all authorized signatory and added automatic notifications to staff responsible for timely filing of contracts to the State Comptroller's Office; (2) staff will receive annual refresher training in January 2017 regarding executed and start dates of contracts and on University policy stating that all procurement contracts that exceed \$249,999 must have the signature of the Comptroller, President, and Chief Legal Counsel; and (3) further training and template revisions will be accomplished to mitigate human error and misinterpretations of transaction processing for group purchasing requirements in relation to Board of Trustee approval, requirements for all contract and real estate lease disclosures to include financial interests, conflict of interest and certifications, contract approval prior to service, vendor registrations, contract file documentation, and emergency purchasing processing and filing.

CURRENT FINDINGS – STATE COMPLIANCE
Year Ended June 30, 2016**

2016-016. Finding: Failure to Follow Time Reporting Requirements

The University does not require all employees to submit time sheets as required by the State Officials and Employees Ethics Act.

During our testing of payroll, we selected 25 employees across all three campuses and noted the following:

- Eight employees (three from the Urbana-Champaign campus and five from the Chicago campus) did not file time sheets as required by the State Officials and Employees Ethics Act. Based upon inquiry of the University management, faculty, postdoctoral employees, instructors, and lecturers continue to track their time using a “negative” timekeeping system whereby the employee is assumed to be working unless noted otherwise.
- Three employees (two from the Urbana-Champaign campus and one from the Chicago campus) under Academic Professional and Civil Service employee classes did not properly submit time sheets, as required by the University policy. Of the three employees, one employee did not submit any time sheets during fiscal year 2016, one employee did not submit time sheets for one full pay event of 14 days, and the other employee did not submit time sheets for eight of the 28 days within the full pay event.

The State Officials and Employees Ethics Act (the Act) (5 ILCS 430/1-5) defines “State agency” to include “public institutions of higher learning...” and defines “State employee” to be “any employee of a State agency”. The Act required the Illinois Board of Higher Education (IBHE), with respect to State employees of public universities, to adopt and implement personnel policies. The Act (5 ILCS 430/5-5(c)) also states, “The policies shall require State employees to periodically submit time sheets documenting the time spent each day on official State business to the nearest quarter hour; contractual State employees may satisfy the time sheets requirement by complying with the terms of their contract, which shall provide for a means of compliance with this requirement.” The IBHE adopted personnel policies for public universities on February 3, 2004 in accordance with the Act. The University has not incorporated these policies into the University’s policies.

The University Reporting Policy for the State Officials and Employees Ethics Act (SOEEA) requires all Academic Professional and Civil Service employees to document all hours worked, using the University’s Online Reporting tool, while conducting official University business.

University officials stated that due to the unique nature of faculty and post-doctoral work, the creative process for the development and discovery of new knowledge does not fit in with traditional Monday through Friday forty-hour work week. Tracking time that is put into the preparation of instructional materials, research, public service and economic development takes place anytime and anywhere on a continuing basis and is very difficult to quantify. Faculty productivity is evaluated through the tenure process and annually for tenured faculty. Each campus continues to track faculty and other post-doctoral positions through a timekeeping system whereby the employee reports their leave. While several mechanisms are in place, including training and weekly reminder emails, it can sometimes be a challenge to achieve full cooperation from some employees.

Failure to follow and ensure that all employees comply with the time reporting requirements of the Act results in noncompliance with the Act. (Finding Code No. 2016-016, 2015-021, 2014-023, 2013-016, 12-19, 11-33, 10-37, 09-40, 08-11, 07-11, 06-06, 05-06)

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – STATE COMPLIANCE
Year Ended June 30, 2016**

Recommendation:

We recommend the University implement procedures to ensure all employees submit time sheets as required by the Act.

University Response:

Accepted. For faculty and post-doctoral exceptions: There is ongoing dialogue with the academic leadership at each University campus regarding further implementation of this requirement.

For Academic Professional and Exempt Civil Service exceptions: The University continues to take steps to address any issues.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – STATE COMPLIANCE
Year Ended June 30, 2016**

2016-017. Finding: Sabbatical Reports Not Submitted in Accordance with University Policies and Procedures

The University does not have adequate procedures to monitor submission of sabbatical reports from employees returning from sabbatical leaves.

During our review of 25 employees who both returned from sabbatical leave and were required to submit a sabbatical report during fiscal year ended June 30, 2016, we noted the following:

- Two employees (one from the Urbana-Champaign campus and one from the Springfield campus) did not submit their required written sabbatical reports on their activities, study, and travel during the leave, within the required time frames. Delays in submitting these reports ranged from four and five days after the required time frames.
- The sabbatical reports of two employees from the Springfield campus were not transmitted from the college office to the Office of the Provost within the required time frame. The reports were submitted three and five days later than the required time frame.

The University's formal policy on sabbatical leaves requires faculty members to submit, in duplicate, a written report on their activities, study, and travel during the leave upon returning from a sabbatical leave. The submission of sabbatical reports should be made through the normal channel, through executive officer, dean/director, or Chancellor. In addition, the Springfield campus' Faculty Personnel Policies require faculty to submit the report to the Office of the Provost early in the Fall semester of the year following the sabbatical in accordance with the Campus Academic Personnel Calendar.

University officials stated: (a) for the Springfield campus, one of the noted faculty members communicated with the Provost Office prior to report due date, but upon receipt of report required follow-up due to missing signatures. The second noted faculty member was unable to meet the due date for the sabbatical report; and (b) for the Urbana-Champaign campus, the faculty member was unable to meet the due date for the sabbatical report.

Failure to submit written sabbatical reports summarizing employee activities, study, and travel during the leave, within the required time frame, inhibits the University's ability to monitor employee sabbatical leaves and results in noncompliance with the University's policies and procedures. (Finding Code No. 2016-017, 2015-023, 2014-029, 2013-025, 12-28)

Recommendation:

We recommend the University review its process for monitoring employee sabbatical leaves and consider any changes necessary to ensure all written sabbatical leave reports are properly completed and submitted within the required timeframes.

University Response:

Accepted. UIS faculty file office sends email reminders to faculty members about the deadline for submitting their sabbatical report. The faculty file office has implemented a more complete tracking system to monitor the receipt of sabbatical reports.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – STATE COMPLIANCE
Year Ended June 30, 2016**

UIUC has taken corrective action and reviewed its processes. In addition to the sabbatical report due date published in Provost's Communication #19, Sabbatical Leaves of Absence, Academic Human Resources followed established practice related to communicating sabbatical report due dates. Academic Human Resources (AHR) sent two e-mail messages, at one-month intervals, on February 15, 2016 and March 15, 2016 to individual faculty members who had returned in January 2016 to regular roles following fall semester 2015-16 sabbatical activities. AHR then communicated with College Dean's offices to track report submission and signature routing; one week prior to the report due date, AHR contacted Department Head's assistants via phone calls and e-mail messages requesting personal communication from the Department Head to each faculty member who had not yet submitted a report (faculty member was named within the phone call or e-mail communication). Based on these communications, AHR's records indicate that of the 46 reports due, one was submitted late.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – STATE COMPLIANCE
Year Ended June 30, 2016**

2016-018. Finding: Inadequate Controls over University Travel Card Transactions

The University has not established adequate internal controls over travel card transactions.

The University operates a travel card program allowing individuals travelling for University business to pay for qualified travel expenses and business meals, which are then directly reimbursed by the University on a monthly basis. The University's policies require employees assigned a travel card to complete training on University travel card policies, and sign an agreement stipulating they will use the card in accordance with University policy. The University's policies require transactions incurred on a travel card to be approved in the University's travel card system by the individual cardholder and an assigned reviewer. However, during our testwork over 60 travel card transactions (totaling \$331,836), we noted the following:

- Five transactions (totaling \$21,303) included charges for sales tax (totaling \$1,790), which is a prohibited charge since the University is considered to be a tax exempt organization;
- One transaction (totaling \$1,080) was not supported by an itemized receipt, as required;
- One transaction (totaling \$4,000) was part of an invoice (totaling \$25,883) that exceeded the cardholder's single transaction limit amount. The required T-Card Exception Request Form was not approved prior to using the T-Card for that purchase; and
- One transaction (totaling \$624) exceeded the allowable amount (\$20/per person) for refreshments and was not properly approved, as required.

The University has approximately 3,991 active travel cards, and the travel card expenditures paid for the year ended June 30, 2016 totaled \$32,202,956.

The University's policies and procedures state that use of the Travel Card (T-Card) for an expense that is normally prohibited by a policy or is above a Cardholders' limit must be approved prior to using the T-Card for the purchase. Exceptions to University policies or procedures regarding T-Card use must be documented on a T-Card Exception Request Form. These requests may be approved when necessary to meet special circumstances or when in the best interest of the University and the State. Furthermore, expenditures that exceed the allowable amounts for business meals and refreshments must have written approval from the dean, vice chancellor, assistant vice president, or provost, unless he or she will be attending the event. In that case, written approval from the head of the next higher administrative unit not attending the event is required. Also, all business meals must be supported by itemized receipt or invoice detailing all food and beverage purchases.

Moreover, the University's policies and procedures state that the University is an exempt organization that was formed and is operating exclusively for educational purposes, the University qualifies as an organization and, therefore, is exempt from paying sales tax in certain states. Individuals making authorized cash purchases for approved University business purposes should present a copy of the State of Illinois Sales Tax Exempt Letter to merchants and request that sales tax not be charged. The University reserves the right to deduct the amount of sales tax paid when reimbursing individuals for cash purchases.

In addition, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the University to establish and maintain a system, or systems, of internal fiscal and administrative controls to provide assurance that: (1) resources are utilized effectively, and in compliance with applicable law; (2) obligations and cost are in compliance with applicable law; (3) funds, property, and other assets and resources are safeguarded against waste, loss, unauthorized use, and misappropriation; (4) revenues, expenditures, and transfers of assets,

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – STATE COMPLIANCE
Year Ended June 30, 2016**

resources or funds applicable to operations are properly recorded and accounted for to permit preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources; and (5) fund held outside the State Treasury are managed, used, and obtained in strict accordance with the terms of their enabling authorities and that no unauthorized funds exist. The University's system of internal controls should include procedures to ensure procurement transactions are properly reviewed and approved to avoid prohibited transactions from being paid and recorded.

University officials stated the bulleted exceptions largely resulted from human error at the individual and unit level. In addition, management indicated the five exceptions related to the University's sales tax exemption status are the result of challenges in understanding when tax exemption applies and how and when it should be documented if a vendor does not accept the University's tax exemption status.

Failure to properly review and approve travel card transactions in accordance with University policies and procedures could result in prohibited or fraudulent transactions being recorded in the general ledger system. (Finding Code No. 2016-018)

Recommendation:

We recommend the University review its current process for reviewing and approving travel card transactions and consider any changes necessary to ensure charges are made in accordance with University policies and procedures.

University Response:

Accepted. The University recognizes the importance of process controls, training, and transaction monitoring in these areas. A university-wide communication will be issued to employees with travel cards and their Departmental Card Managers in February 2017 emphasizing requirements for pre-approval of exception requests, supporting documentation requirements for individual transactions, and reminders of sales tax exemption status. Further corrective action and training measures will be taken in connection with the recommendations in this finding.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
PRIOR FINDINGS NOT REPEATED – GOVERNMENT AUDITING STANDARDS
Year Ended June 30, 2016**

A. Finding: Inadequate Controls Over Monitoring External Audits, Attestation Engagements and Other Studies

During the prior audit, the auditors noted the University's system of internal controls over monitoring external audits, attestation engagements and studies were inadequate as there were no policies or procedures requiring central monitoring to ensure all identified risks and deficiencies were adequately assessed and addressed at a University-wide level. (Finding Code No. 2015-003)

During the current year engagement, the auditors noted the University strengthened their internal controls over monitoring external audits, attestation engagements and studies in order to ensure compliance with applicable laws and regulations.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
PRIOR FINDINGS NOT REPEATED – FEDERAL COMPLIANCE
Year Ended June 30, 2016**

B. Finding: Inadequate Approval Controls over Financial Reporting

The University did not adequately document the performance of supervisory reviews of financial reports submitted for its federal R&D programs. (Finding Code No. 2015-007, 2014-012, 2013-13, 12-16, 11-30)

In the current year, the University received Management Decision Letters (MDLs) which did not sustain this finding.

C. Finding: Improper Reporting Amounts in Financial Status Reports

The University did not submit monthly invoices for the Temporary Assistance for Needy Families (TANF) and Head Start in accordance with the grant reporting requirements. (Finding Code No. 2015-009, 2014-011, 2013-012, 12-07, 11-11, 10-15, 09-15)

In the current year, similar exceptions were not identified in the samples selected.

D. Finding: Inadequate Off Campus Work Study Agreements

The University of Illinois Chicago campus was unable to provide off campus work study agreements. (Finding Code No. 2015-011)

In the current year, similar exceptions were not identified in the samples selected.

E. Finding: Inaccurate Award Records

The University did not maintain accurate records related to award information. (Finding Code No. 2015-012, 2014-018, 2013-014)

In the current year, similar exceptions were not identified in the samples selected.

F. Finding: Failure to Obtain Suspension and Debarment Information from a Vendor

The University did not obtain required information for a procurement vendor to verify the vendor was not suspended or debarred from participation in federal assistance programs for the Research and Development cluster. (Finding Code No. 2015-014, 2014-021)

In the current year, similar exceptions were not identified in the samples selected.

G. Finding: Inadequate Review of Direct Loan Reconciliations

The University's campuses financial aid departments are not performing a documented independent review of Direct Loan Reconciliations being performed monthly at each campus by financial aid staff. (Finding Code No. 2015-015)

In the current year, similar exceptions were not identified in the samples selected.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
PRIOR FINDINGS NOT REPEATED – FEDERAL COMPLIANCE
Year Ended June 30, 2016**

H. Finding: Failure to Obtain Required Information from Subrecipient

The University did not maintain adequate support that they obtained the subrecipient's nine-digit Data Universal Numbering System (DUNS) number. (Finding Code No. 2015-019) In the current year, this issue was reported in Finding Code No. 2016-008.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
PRIOR FINDINGS NOT REPEATED – STATE COMPLIANCE
Year Ended June 30, 2016**

I. Finding: Statutory Mandates - Noncompliance with the School Code

The University did not include courses required by the Illinois School Code in its curriculum. (Finding Code No. 2015-022, 2014-028)

In the current year, the University made necessary changes to its curriculum to ensure required courses were included in the University's curriculum.

J. Finding: Noncompliance with State Vehicle Use Act

The University failed to comply with the provisions of the State Vehicle Use Act and did not properly calculate and report fringe benefits related to personal use of State vehicles. (Finding Code No. 2015-024, 2014-031)

In the current year, similar exceptions were not identified in the samples selected.

K. Finding: Statutory Mandates – Pension Code

The University did not comply with the requirements of the Pension Code (Code) on the employment and re-employment of State University Retirement System (SURS) annuitants. (Finding Code No. 2015-025, 2014-033)

In the current year similar exceptions were not identified in the samples selected.

L. Finding: Noncompliance with the University of Illinois Act Regarding Proficiency in the English Language

The University did not follow its established procedures for documenting that certain individuals (tenure-system faculty and "other academic" staff members) providing instructions are orally proficient in the English language in accordance with the University of Illinois Act. (Finding Code No. 2015-026, 2014-035, 2013-021)

In the current year, similar exceptions were not identified in the samples selected.

M. Finding: Lack of Formal Written Policy on Maintenance of University Vehicles

The University did not have a formal written policy in place regarding regular maintenance of University vehicles. (Finding Code No. 2015-028)

In the current year, we noted the University adopted a formal written policy on regular maintenance of University vehicles. However, during our testwork over maintenance of University vehicles, we noted that regular vehicle maintenance was not performed according to the policy. The exceptions identified were reported in the immaterial finding letter as finding number IM2016-003.

N. Finding: Noncompliance with the Campus Security Enhancement Act

The University did not comply with the Campus Security Enhancement Act requirements in reporting arrest information. (Finding Code No. 2015-029)

In the current year, similar exceptions were not identified in the samples selected.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
PRIOR FINDINGS NOT REPEATED – STATE COMPLIANCE
Year Ended June 30, 2016**

O. Finding: Noncompliance with State Employee Housing Act and Related University Policies and Procedures

The University did not comply with the State Employee Housing Act and related University policies and procedures. (Finding Code No. 2015-030)

In the current year, similar exceptions were not identified in the samples selected.

P. Finding: Inadequate Controls over Property and Equipment

The University did not fully comply with requirements applicable to its property and equipment. (Finding Code No. 2015-027)

During the current year, we noted the University improved in implementing the recommendations, and the exceptions identified were reported in the immaterial finding letter as finding number IM2016-004.

FINANCIAL RELATED INFORMATION SUMMARY
Year Ended June 30, 2016**

Financial related information presented in this section of the report includes the following:

- Financial Related Schedules:
 - Schedule of Expenditures of Federal Awards
 - Attachments to Schedule of Expenditures of Federal Awards
 - Notes to the Schedule of Expenditures of Federal Awards

The Schedule of Expenditures of Federal Awards presented in this section has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in the auditor's opinion, it is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The findings and auditor's reports on compliance testing and questioned costs and internal control related to federal awards are presented in the Compliance Report section of this report.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
June 30, 2016**

Note 1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of the University of Illinois (University) under programs of the federal government for the fiscal year ended June 30, 2016. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirement, Cost Principles, and Audit Requirements for Federal Awards* ("*Uniform Guidance*"). Because the Schedule presents only a selected portion of the operations of the University, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the University.

The schedule designates federal awards as direct and pass-through. Direct awards represent federal funding awarded directly to the University by a federal agency, pass-through awards are federal awards passed through a non-federal entity. Pass-through identifying information is presented when available and when applicable.

Note 2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are presented on a modified cash basis of accounting. The methodology for determining federal awards expended is:

Direct costs are reported as federal expenditures on a cash basis, with the following exceptions:

1. Academic Year (nine-month) faculty salaries charged to sponsored projects are earned over nine months and paid over twelve months.
2. Salaries and wages earned between the last payroll date in June and June 30 are accrued and included as a current year federal expenditure.
3. Payroll related fringe benefits costs that are charged on an actuarial basis are included as a current year federal expenditure.

Indirect costs are assessed as a percentage of direct costs and are included as a current year federal expenditure.

Expenditures reported on the Schedule meet the cost principles contained in OMB Circular A-21, *Cost Principles for Educational Institutions*, and/or in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

The University of Illinois has not elected to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance. The University has approved federally recognized indirect cost rates negotiated between the University and the Federal Government.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
June 30, 2016**

Note 3. Federal Student Loan Programs

As disclosed in the Schedule of Expenditures of Federal Awards, the Federal Direct Student Loans Program (CFDA No. 84.268) administered by the University of Illinois awarded approximately \$203.2 million at Urbana, \$239 million at Chicago, and \$20.4 million at Springfield.

In addition, the University of Illinois administers a series of loan programs as part of the Student Financial Assistance Cluster program. Loan balances subject to continuing compliance requirements during the year ended June 30, 2016 under the Federal Perkins Loan Program (Perkins), Health Professional Student Loans (HPSL), Nursing Faculty Loan Program (NFLP), Nursing Student Loan Program (Nursing), and Loans for Disadvantaged Students (LDS) programs were as follows:

	Perkins CFDA No. 84.038	HPSL CFDA No. 93.342	NFLP CFDA No. 93.264	Nursing CFDA No. 93.364	LDS CFDA No. 93.342
Beginning loan balances	41,853,165	8,222,005	341,152	809,008	616,381
New loans issued	2,044,488	1,436,275	-	131,441	199,538
Federal capital contributions	-	22,886	-	-	-
Administrative cost allowance	107,074	-	-	-	-
Total	44,004,727	9,681,166	341,152	940,449	815,919

The total loan balances outstanding at June 30, 2016 were approximately \$37.73 million for Perkins, \$8.4 million for HPSL, \$270 thousand for NFLP, \$727 thousand for Nursing, and \$745 thousand for LDS.

*Perkins = Federal Perkins Loan Program
HPSL = Health Professions Student Loans
NFLP = Nurse Faculty Loan Program
Nursing = Nursing Student Loans Program
LDS = Loans to Disadvantaged Students*

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
June 30, 2016**

Note 4. Non-Cash Federal Assistance

The University of Illinois received a pass-through grant from Illinois Department of Human Services (IDHS) to review the applications of families seeking subsidized day care under the Temporary Assistance Needy Families cluster, the Child Care Development Funds cluster, and the Social Service Block Grant programs. The applications were reviewed according to guidelines set by IDHS, the prime recipient of the federal funds.

As a result of the University's application review, the Illinois State Comptroller distributed \$6,976,369 of federal funds to day care providers as follows:

<u>Program</u>	<u>Number</u>	<u>Assistance</u>
Temporary Assistance Needy Families	93.558	4,450,408
<i>Child Care Development Funds Cluster:</i>		
Child Care Development Block Grant	93.575	906,678
Child Care Mandatory and Matching Funds of the Child Care and Development Fund	93.596	1,574,276
Social Service Block Grant	93.667	45,007
Total non-cash federal assistance:		6,976,369

These federal funds, which are paid directly by the State of Illinois to the day care providers, are considered to be non-cash federal assistance to the University of Illinois. The amounts are reported on the Schedule of Federal Awards and have been included for purposes of determination of major programs.

Note 5. Federal Insurance Disclosure

Federally funded medical malpractice insurance was in effect under the Federal Tort Claims Act for Health Resources and Services Administration Deeming Notice Number 1-F00000300-14-01 from July 1, 2015 to December 31, 2015 and Deeming Notice Number 1-F00000300-15-01 from January 1, 2016 through June 30, 2016.

Note 6. Federal Depository Library

The University's Government Documents Library (Urbana), Albert E. Jenner Jr. Memorial Law Library (Urbana), Richard J. Daley Library (Chicago), and Norris L. Brookens Library (Springfield) serve as depository libraries in the U.S. Government Publishing Office's Federal Depository Library Program (CFDA 40.001, Depository Libraries for Government Publications). The Federal Depository Library Program gives the public free access to government information. The University is the legal custodian of government publications received under this program; however, these publications remain the property of the federal government.
