Ladies and Gentlemen:

We are responsible for the identification of, and compliance with, all aspects of laws, regulations, contracts, or grant agreements that could have a material effect on the operations of the University of Illinois. We are responsible for and we have established and maintained an effective system of internal controls over compliance requirements. We have performed an evaluation of the University of Illinois' compliance with the following assertions during the year ended June 30, 2017. Based on this evaluation, we assert that during the year ended June 30, 2017, the University of Illinois has materially complied with the assertions below.

- A. The University of Illinois has obligated, expended, received, and used public funds of the State in accordance with the purpose for which such funds have been appropriated or otherwise authorized by law.
- B. The University of Illinois has obligated, expended, received, and used public funds of the State in accordance with any limitations, restrictions, conditions, or mandatory directions imposed by law upon such obligation, expenditure, receipt, or use.
- C. The University of Illinois has complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.
- D. State revenues and receipts collected by the University of Illinois are in accordance with applicable laws and regulations and the accounting and recordkeeping of such revenues and receipts is fair, accurate, and in accordance with law.
- E. Money or negotiable securities or similar assets handled by the University of Illinois on behalf of the State or held in trust by the University of Illinois have been properly and legally administered, and the accounting and recordkeeping relating thereto is proper, accurate, and in accordance with law.

Yours truly,

University of Illinois

EXIT CONFERENCE

The University waived the exit conference for the Federal Compliance OMB Uniform Guidance audit and the State Compliance examination in an email dated January 23, 2018, from Ginger Velazquez, Interim Assistant Vice President for Business and Finance of the Office of the Business and Financial Services. Responses to the findings were provided by Jennifer Erickson, Associate Director for Business and Finance in emails dated January 23, 2018.

**INDEPENDENT ACCOUNTANTS' REPORT ON STATE COMPLIANCE  
AND ON INTERNAL CONTROL OVER COMPLIANCE  
FOR STATE COMPLIANCE PURPOSES**

Honorable Frank J. Mautino  
Auditor General  
State of Illinois  
and  
Board of Trustees  
University of Illinois

**Compliance**

As Special Assistant Auditors for the Auditor General, we have examined the University of Illinois' compliance with the requirements listed below, as more fully described in the Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide) as adopted by the Auditor General, during the year ended June 30, 2017. The management of the University of Illinois is responsible for compliance with these requirements. Our responsibility is to express an opinion on the University of Illinois' compliance based on our examination.

- A. The University of Illinois has obligated, expended, received, and used public funds of the State in accordance with the purpose for which such funds have been appropriated or otherwise authorized by law.
- B. The University of Illinois has obligated, expended, received, and used public funds of the State in accordance with any limitations, restrictions, conditions, or mandatory directions imposed by law upon such obligation, expenditure, receipt, or use.
- C. The University of Illinois has complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.
- D. State revenues and receipts collected by the University of Illinois are in accordance with applicable laws and regulations and the accounting and recordkeeping of such revenues and receipts is fair, accurate, and in accordance with law.
- E. Money or negotiable securities or similar assets handled by the University of Illinois on behalf of the State or held in trust by the University of Illinois have been properly and legally administered and the accounting and recordkeeping relating thereto is proper, accurate, and in accordance with law.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants; the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States; the Illinois State Auditing Act (Act); and the Audit Guide as adopted by the Auditor General pursuant to the Act (the Audit Guide). Those standards, the Act, and the Audit Guide require that we plan and perform the examination to obtain reasonable assurance about whether the University of Illinois complied, in all material respects, with the specified requirements listed above. An examination involves performing procedures to obtain evidence about whether the University of Illinois complied with the specified requirements listed above. The nature, timing, and extent of the procedures selected depend on our judgement, including an assessment of the risks of material noncompliance, whether due to fraud or error.

We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion. Our examination does not provide a legal determination on the University of Illinois' compliance with specified requirements.

As described in item 2017-005 in the accompanying schedule of findings and questioned costs, the University of Illinois did not comply with requirements regarding all applicable laws and regulations. Compliance with such requirements is necessary, in our opinion, for the University of Illinois to comply with the requirements listed in the first paragraph of this report.

In our opinion, except for the noncompliance described in the preceding paragraph, the University of Illinois complied, in all material respects, with the compliance requirements listed in the first paragraph of this report during the year ended June 30, 2017. However, the results of our procedures disclosed instances of noncompliance with the requirements, which are required to be reported in accordance with criteria established by the Audit Guide, issued by the Illinois Office of the Auditor General and which are described in the accompanying schedule of findings and questioned costs as items 2017-001 through 2017-004, and 2017-014 through 2017-018.

The University of Illinois' responses to the findings identified in our examination are described in the accompanying schedule of findings and questioned costs. The University of Illinois' responses were not subjected to the procedures applied in the compliance examination and, accordingly, we express no opinion on the responses.

The purpose of this report on compliance is solely to describe the scope of our testing and the results of that testing in accordance with the requirements of the Audit Guide issued by the Illinois Office of the Auditor General. Accordingly, this report is not suitable for any other purpose.

### **Internal Control**

Management of the University of Illinois is responsible for establishing and maintaining effective internal control over compliance with the requirements listed in the first paragraph of this report. In planning and performing our examination, we considered the University of Illinois' internal control over compliance with the requirements listed in the first paragraph of this report to determine the examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with the Audit Guide, issued by the Illinois Office of the Auditor General, but not for the purpose of expressing an opinion on the effectiveness of the University of Illinois' internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University of Illinois' internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses and significant deficiencies.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the requirements listed in the first paragraph of this report on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a requirement listed in the first paragraph of this report will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2017-005 to be a material weakness.

*A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2017-001 through 2017-004, and 2017-014 through 2017-018 to be significant deficiencies.

As required by the Audit Guide, immaterial findings excluded from this report have been reported in a separate letter to your office.

The University of Illinois' responses to the internal control findings identified in our examination are described in the accompanying schedule of findings and questioned costs. The University of Illinois' responses were not subjected to the procedures applied in the compliance examination and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Audit Guide, issued by the Illinois Office of the Auditor General. Accordingly, this report is not suitable for any other purpose.

**CliftonLarsonAllen LLP**

Peoria, Illinois  
February 2, 2018

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Honorable Frank J. Mautino  
Auditor General, State of Illinois  
and  
Board of Trustees  
University of Illinois

As Special Assistant Auditors for the Auditor General, we have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of University of Illinois and the aggregate discretely presented component units, collectively a component unit of the State of Illinois, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the University of Illinois' basic financial statements, and have issued our report thereon dated January 30, 2018.

Our report includes a reference to other auditors who audited the financial statements of the discretely presented component units, as described in our report on the University's financial statements. Other auditors audited the financial statements of the University of Illinois Foundation (a discretely presented component unit) in accordance with *Government Auditing Standards*, as described in our report on the University's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. The financial statements of the University of Illinois Alumni Association; Wolcott, Wood, and Taylor, Inc.; Prairieland Energy, Inc.; Illinois Ventures, LLC; the University Research Park, LLC; and UI Singapore Research, LLC (discretely presented component units), were not audited in accordance with *Government Auditing Standards* and accordingly this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance with those entities.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the University of Illinois' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University of Illinois' internal control. Accordingly, we do not express an opinion on the effectiveness of the University of Illinois' internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying schedule of findings, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings as item 2017-005 to be a material weakness.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings as items 2017-001, 2017-002, 2017-003, and 2017-004 to be significant deficiencies.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the University of Illinois' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **University of Illinois' Response to Findings**

The University of Illinois' response to the findings identified in our audit is described in the accompanying schedule of findings. The University of Illinois' responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the University of Illinois' internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University of Illinois' internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Peoria, Illinois  
January 30, 2018

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR  
FEDERAL PROGRAM, ON INTERNAL CONTROL OVER COMPLIANCE, AND  
ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
REQUIRED BY THE UNIFORM GUIDANCE**

The Honorable Frank J. Mautino  
Auditor General of the State of Illinois  
and  
Board of Trustees  
University of Illinois

**Report on Compliance for Each Major Federal Program**

We have audited University of Illinois' compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the University of Illinois' major federal programs for the year ended June 30, 2017. The University of Illinois' major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

The schedule of expenditures of federal awards and our audit described below does not include expenditures of federal awards for those agencies determined to be component units of the University of Illinois for financial statement purposes.

***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

***Auditors' Responsibility***

Our responsibility is to express an opinion on compliance for each of the University of Illinois' major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about University of Illinois' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the University of Illinois' compliance.

### ***Opinion on Each Major Federal Program***

In our opinion, the University of Illinois complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

### ***Other Matters***

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2017-006 through 2017-013. Our opinion on each major federal program is not modified with respect to these matters.

The University of Illinois' responses to the noncompliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The University of Illinois' responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

### **Report on Internal Control Over Compliance**

Management of the University of Illinois is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the University of Illinois' internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University of Illinois' internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as items 2017-006 through 2017-013 that we consider to be significant deficiencies.

The University of Illinois' responses to the internal control over compliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The University of Illinois' responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

### **Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

We have audited the financial statements of, the business-type activities, the aggregate discretely presented component units of the University of Illinois, a component unit of the State of Illinois, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the University of Illinois' basic financial statements. We issued our report thereon dated January 30, 2018, which contained unmodified opinions on those financial statements. Our report was modified to include a reference to other auditors and to include an emphasis of matter paragraph stating the University of Illinois as discussed in Note 17 to the financial statements, Public Act 100-0021 granted the University of Illinois fiscal year 2017 appropriations, totaling approximately \$300 million. Even though this law appropriated funds for the fiscal year ended June 30, 2017, it was enacted on July 6, 2017. To comply with GASB reporting requirements, the University of Illinois intends to report this appropriation as revenue in the fiscal year ending June 30, 2018. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Year Ended June 30, 2017**

**2017-001. Finding: Inadequate Procedures over Expense Deferrals and Other Cut-off Related Issues**

The University of Illinois (the University) has not established adequate internal controls over accurately identifying and recording deferred expense transactions and reporting prepaid expenses at fiscal year-end for financial reporting purposes.

During our audit, we noted that the University's procedures to identify and record prepaid expenses include a review of all cash disbursements by University Payables (UPAY). UPAY identifies expense transactions that pertain to multiple fiscal years and codes them for further review by University Accounting and Financial Reporting (UAFR). UAFR will then post year-end journal entries to appropriately defer the identified expense transactions. In addition to the review of all cash disbursements by UPAY, UAFR also requires individual units to identify and report known accrual and deferral transactions at fiscal year-end for certain fund types. We also noted that the University's year-end accounts payable procedures include specifically reviewing cash disbursements made subsequent to year-end through the end of October to determine which accounting period the related expense transactions pertain.

In relation to our test work over expense transactions, we reviewed 225 cash disbursement transactions (totaling \$46,313,716), 60 P-Card expense transactions (totaling \$316,272), and 60 T-Card expense transactions (totaling \$428,908) recorded during the fiscal year. In relation to our test work over revenue transactions, we reviewed 60 cash receipt transactions recorded during the fiscal year (totaling \$120,935,264). We also reviewed 34 cash disbursements occurring subsequent to year-end (totaling \$72,993,712). Additionally, we separately reviewed 20 internal journal voucher transactions recorded during the fiscal year (totaling \$36,022,969).

During our review of these transactions, we noted the following items were not recorded in the proper accounting period:

*University of Illinois transactions*

- Two (2) general expense cash disbursements (totaling \$173,843) that were recorded as expenses for fiscal year ended June 30, 2017, should have been fully accrued as of June 30, 2016.
- Two (2) telecommunication expense cash disbursements (totaling \$78,538) that were recorded as expenses for fiscal year ended June 30, 2017, should have been partially deferred as of June 30, 2017 at an amount of \$46,512, and then recognized as expenses for the fiscal year ending June 30, 2018.
- One (1) cash receipt (totaling \$8,864) that was recorded as operating revenue for the fiscal year ended June 30, 2017, should have been partially accrued as of June 30, 2016 at an amount of \$429.
- One (1) cash receipt (totaling \$29,483) that was recorded as operating revenue for the fiscal year ended June 30, 2017, should have been fully deferred as of June 30, 2017, and then recognized as operating revenue for the fiscal year ending June 30, 2018.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS  
Year Ended June 30, 2017**

*University of Illinois P-card transactions*

- Five (5) general and service expenses (totaling \$14,388) that were recorded as expenses for fiscal year ended June 30, 2017, should have been partially deferred as of June 30, 2017 at an amount of \$8,953, and then recognized as expenses for the fiscal year ending June 30, 2018.
- One (1) general expense (totaling \$1,477) that was recorded as an expense for fiscal year ended June 30, 2017, should have been fully accrued as of June 30, 2016.
- One (1) general expense (totaling \$8,755) that was recorded as an expense for fiscal year ended June 30, 2017, should have been partially accrued as of June 30, 2016 at an amount of \$2,012.

*University of Illinois T-card transactions*

- Three (3) general expense cash disbursements (totaling \$15,728) that were recorded as expenses for fiscal year ended June 30, 2017, should have been deferred as of June 30, 2017, and then recognized as expense for the fiscal year ending June 30, 2018.

Generally accepted accounting principles require transactions to be reported in the period they are incurred. Additionally, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001), requires the University to establish and maintain a system, or systems, of internal fiscal and administrative controls, which shall provide assurance that: (1) resources are utilized efficiently, effectively, and in compliance with applicable law; (2) obligations and costs are in compliance with applicable law; (3) funds, property, and other assets and resources are safeguarded against waste, loss, unauthorized use, and misappropriation; (4) revenues, expenditures, and transfers of assets, resources, or funds applicable to operations are properly recorded and accounted for to permit the preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources; and (5) funds held outside the State Treasury are managed, used, and obtained in strict accordance with the terms of their enabling authorities and that no unauthorized funds exist. The University's system of internal controls should include procedures to ensure expenses and revenues are recognized in the appropriate reporting period.

In discussing these conditions with University personnel, they stated that in many of these instances, the units associated with the exceptions did not adequately follow established procedures to record the transactions in the proper period. With respect to the P-card-related exceptions, the current P-card processing software system utilized by the University does not provide the detailed information required to monitor/identify instances requiring year-end accrual or deferral. While the University believes it has processes in place to prevent material errors in the financial statements, the highly decentralized environment with hundreds of units and large volumes of transactions does present challenges in catching all errors.

Failure to accurately analyze and record cash receipts and disbursements within the proper fiscal year may result in the misstatement of the University's financial statements. (Finding Code No. 2017-001, 2016-001, 2015-001, 2014-001, 2013-001, 12-01, 11-01, 10-03, 09-03)

**Recommendation:**

We recommend the University continue to review its process to assess the existence of current period revenues and expenses and consider changes necessary to ensure they are accurately identified and recorded for presentation in the University's financial statements.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS  
Year Ended June 30, 2017**

**University Response:**

**Accepted.** The University will continue taking corrective action to address the recommendation in this finding. Regarding the P-card-related cut-off exceptions, the University believes that the small size of individual card transactions combined with the aggregate monthly volume/dollar value of such transactions represents an expense population in which the probability of a material financial statement error would be extremely remote.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS  
Year Ended June 30, 2017**

**2017-002. Finding: Inadequate Controls over Self-Approved Timesheets**

The University of Illinois (the University) has not followed established adequate internal controls over Self-Approved Time Sheets.

After every pay period, the University creates a report showing employees who have approved their own timesheet. Timesheets are required for hourly employees and civil-service employees. The report lists all self-approvals for FY17 and included 53 employees with 67 occurrences of self-approval. The applicable human resources office and the relevant departments are supposed to take action to ensure a proper segregation and approval process. In 43 of the 67 occurrences, follow-up procedures failed to result in approval by the department prior to the next payroll.

The University policy states that each department is responsible for approving all web time reports or completing and approving the departmental time report for each employee from time sheets or cards filled out by the employees. Section 4 of the Office of Business and Financial Services Policy and Procedures Manual specifies that approvers cannot approve their own time.

Also, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the University to establish and maintain a system or systems of internal fiscal and administrative controls, which shall provide assurance that: (1) resources are utilized efficiently, effectively, and in compliance with applicable law; (2) obligations and costs are in compliance with applicable law; (3) funds, property, and other assets and resources are safeguarded against waste, loss, unauthorized use, and misappropriation; (4) revenues, expenditures, and transfers of assets, resources or funds applicable to operations are properly recorded and accounted for to permit preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources; and (5) funds held outside the State Treasury are managed, used, and obtained in strict accordance with the terms of their enabling authorities and that no unauthorized funds exist. The University's system of internal controls should include procedures to ensure timely supervisory approval of employee timesheets.

University management indicated the mitigating control procedure, in which the applicable human resources office notifies the employees involved as well as the unit or college contacts and requests confirmation of supervisory approval, was not consistently followed in a timely manner.

Failure to properly review and approve timecards could result in erroneous or fraudulent transactions and/or payroll disbursements being recorded in the general ledger system. (Finding Code No. 2017-002)

**Recommendation:**

We recommend the University ensure its employees follow its established internal controls over self-approved timesheets to ensure compliance with University policies.

**University Response:**

**Accepted.** Although all self-approved timesheets were validated as being correct and have supervisory approval, the approval was not always timely. The University will continue to strengthen controls in this area.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS  
Year Ended June 30, 2017**

**2017-003. Finding: Inadequate Procedures over Maintenance of Accounts Payable Master Vendor File**

The University of Illinois (the University) has inadequate controls in place to monitor and maintain the accounts payable master vendor file.

During our review of the University's accounts payable master vendor file (with 55,152 total vendors), we noted there were 12 duplicate records representing six (6) vendors. The vendors had the same name but were given different vendor identification numbers in the accounts payable system. In addition, we noted 2,742 vendors without a tax identification number (TIN) listed and 36,294 vendors with no activity within the three previous fiscal years.

Good business practices recommend that the accounts payable master vendor file be reviewed for possible duplicate vendor data. The Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires each State Agency to establish and maintain an effective system of internal control, which would include controls over the master vendor file. Per University policies, vendors should also have a TIN on file when creating the vendor to ensure the vendor is not fraudulent. In addition vendors with no recent activity should be inactivated to ensure no inappropriate payments are made to outdated vendors.

University management indicated that although significant progress was made during fiscal year 2017, additional research still needs to be performed on the remaining issues related to the accounts payable master vendor file. Active efforts in this area continue but have been time-consuming due to the complexity of the data as well as the systems involved.

Failure to appropriately monitor the accounts payable master vendor file may result in an unauthorized vendor payment. (Finding Code No. 2017-003, 2016-003)

**Recommendation:**

We recommend the University review and implement stronger internal controls in order to monitor and maintain the accounts payable master vendor file.

**University Response:**

**Accepted.** The University will continue to strengthen the controls and maintenance procedures related to the master vendor file.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS  
Year Ended June 30, 2017**

**2017-004. Finding: Inadequate Controls Over University Procurement Card Transactions**

The University of Illinois (the University) has not complied with University policies and internal controls over procurement card transactions.

The University operates a procurement card program which allows individuals throughout the University to make smaller purchases (defined as less than \$4,999) on a credit card which is directly paid by the University on a monthly basis. The University's policies require employees assigned a procurement card to complete training on policies and procedures, pass a test, and sign an agreement stipulating they will use the card in accordance with University policy. This agreement is also required to be authorized by the individual's supervisor or the department head. The University's policies require transactions incurred on the procurement card to be approved in the University's procurement card system by the individual cardholder and an assigned reviewer.

During our test work over 62 procurement card transactions totaling \$318,117, we noted the following:

- Five (5) transactions (totaling \$10,963) were for charges such as gift cards, lodging, ambulance services, and PayPal transaction fees, all of which were prohibited by the University's procurement card policies.
- One (1) transaction (totaling \$2,454) was not supported by an itemized receipt, as required.
- Nine (9) transactions (totaling \$30,250) were not reconciled within seven days of appearance on the P-Card software, as required. The reconciliations were completed five to 309 days late.
- One (1) transaction for printing services (totaling \$1,050) was not in compliance with the Illinois Procurement Code and the waiver for this requirement was not obtained from the State Purchasing Officer.
- One (1) transaction (totaling \$2,589) was a purchase of equipment that was not tagged in accordance with University's policies and procedures.

The University has approximately 4,125 active procurement cards and the procurement card expenditures paid for the year ended June 30, 2017 totaled \$55,672,737.

The University policy states that the reconciler must review and reconcile each transaction with the Order Log and with the original, detailed, itemized receipt within seven business days of its appearance in the P-Card software, in order for the transaction to post in the general ledger system for financial reporting.

In addition, the Illinois Procurement Code (30 ILCS 500/45-15) states that contracts requiring the procurement of printing services shall specify the use of soybean oil-based ink unless a State purchasing officer determines that another type of ink is required to assure high quality and reasonable pricing of the printed product.

Further, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the University to establish and maintain a system, or systems, of internal fiscal and administrative controls to provide assurance that: (1) resources are utilized effectively, and in compliance with applicable law; (2) obligations and cost are in compliance with applicable law; (3) funds, property, and other assets and resources are safeguarded against waste, loss, unauthorized use, and misappropriation; (4) revenues, expenditures, and transfers of assets, resources or funds applicable to operations are properly recorded and accounted for to permit preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources; and (5) funds held outside the State Treasury are managed, used, and obtained in strict accordance with the terms of their enabling authorities and that no unauthorized funds exist. The University's system of internal controls should include procedures to ensure procurement card transactions are in accordance with University policies and procedures and supporting documentation for each transaction is maintained.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS  
Year Ended June 30, 2017**

University management indicated the bulleted exceptions largely resulted from human error at the individual and/or unit level by not following procurement card policies and procedures.

Failure to properly review and approve procurement card transactions in accordance with University policies could result in erroneous or fraudulent transactions being recorded in the general ledger system. (Finding Code No. 2017-004, 2016-002, 2015-002, 2014-002, 2013-002, 12-02, 11-03, 10-02, 09-02, 08-03)

**Recommendation:**

We recommend the University continue to review and improve its internal controls over procurement card transactions to ensure compliance with University policies so that erroneous or fraudulent transactions are not recorded in the general ledger system.

**University Response:**

**Accepted.** While the procurement card is an efficient purchasing mechanism, the University recognizes the importance of procurement card process controls, training, and transaction monitoring. The University will implement the necessary corrective action related to the recommendation made in this finding.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS  
Year Ended June 30, 2017**

**2017-005. Finding: Inadequate Control over Reporting Restricted Accounts**

The University of Illinois (University) did not ensure restrictions from revenue bond covenants were properly reflected within the University's financial statements.

As of June 30, 2017, the University's Auxiliary Facilities System (System) consisted of certain facilities across campus which are not directly related to the University's instruction, research, or service units, including:

- athletic-related facilities, such as Memorial Stadium, the State Farm Center;
- recreation-related facilities, such as the Activities and Recreation Center, Campus Recreation Center East, Student Recreation Facility, and Ice Arena;
- resident halls and apartments;
- student services facilities; and
- parking facilities.

As of June 30, 2017, the University's Health Services Facilities System (HSFS) comprises the University of Illinois Hospital and associated clinical facilities providing patient care at, but not limited to, the University of Illinois at Chicago Medical Center.

As of June 30, 2017, the System had outstanding revenue bond issues (Series 1991, Series 1999A, Series 2001A, Series 2001B, Series 2003A, Series 2005A, Series 2008, Series 2009A, Series 2010A, Series 2011A, Series 2011B, Series 2011C, Series 2013A, Series 2014A, Series 2014B, Series 2014C, Series 2015A, Series 2016A and Series 2016B) and HSFS had outstanding revenue bond issues (Series 1997B, Series 2008, and Series 2013) where the proceeds from these bonds had been used to finance certain projects.

These bond issues established a "closed system" for the System and a "semi closed system" for HSFS, where the revenues generated by both could only be used for the following purposes:

- 1) expenses necessary for the operation and reasonable upkeep and repair of the System/HSFS;
- 2) payment of principal and/or interest amounts when due;
- 3) amounts set aside limited to and used for financing the costs of renovating or replacing capital assets of the System/HSFS beyond ordinary maintenance and operation of the System;
- 4) amounts set aside limited to and used for constructing new space or additions to existing facilities within the System/HSFS; and
- 5) amounts set aside limited to and used for the purchase of moveable equipment to be installed in the facilities within the System/HSFS.

However, if any funds existed following the use of revenues for the above purposes, restrictions differed for the System and HSFS. For the System, remaining funds were to be set aside to either fund the redemption of previously issued bonds when callable, the purchase of the University's bonds on the open market, or any other System purpose permitted by law. Notably, resources within the System are unavailable for use by the University outside of the System. As for HSFS, remaining funds can be used to (1) redeem outstanding bonds, (2) expenditures to improve or restore the system or (3) for any other lawful purpose as expressed by the Board. As such, these excess funds could be transferred out of HSFS for use by the University upon satisfying all required deposits.

During testing, we noted the University had controls to segregate the System and HSFS's assets and include their net position with the University's financial statements; however, the University had not designed its internal controls to ensure accurate reporting of restricted assets and restricted net position under generally accepted accounting principles relative to both the System and HSFS.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS  
Year Ended June 30, 2017**

The University originally designed the control due to the implementation of Governmental Accounting Standards Board Statement No. 34 by drawing inferences from the implementation guidance published by the Governmental Accounting Standards Board that was not necessarily on point with the University's unique "closed system" situation and from discussions with other universities with closed systems.

Historically, auditors did not take exception to the design flaw until the current year. After this issue was noted during the current year, the Auditor General's Office and the Office of the State Comptroller consulted with staff of the Governmental Accounting Standards Board. After this consultation, the University (and all universities with closed systems) changed its accounting presentation in its final financial statements to show all non-capital assets associated with the System and HSFS, totaling \$185.98 million, as restricted assets and reclassified the System and HSFS's portion of the University's net position to expendable restricted net position, totaling \$168.81 million.

Governmental Accounting Standards Board Statement No. 34, Paragraph 34, Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments, requires net position should be reported as restricted when constraints imposed upon the use of the net position are externally imposed by creditors, such as through debt covenants. Further, Governmental Accounting Standards Board Statement No. 34, Paragraph 99, Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments, requires the reporting of restricted assets when constraints imposed upon the use of the net position are externally imposed by creditors which change the nature or normal understanding of the availability of the asset, such as assets that cannot be used to extinguish liabilities outside of those allowed by the bond covenants.

In addition, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the University establish and maintain a system, or systems, of fiscal and administrative controls to provide assurance that revenues, expenses, resources, and funds applicable to operations are properly recorded and accounted for to permit the preparation of reliable financial reports and to maintain accountability over the State's resources.

The University indicated that its financial statement presentation had been consistent with its understanding of the authoritative accounting guidance, which they had believed to have been reasonable and appropriate.

Failure to report the non-capital assets and net position related to the System as restricted resulted in a material misstatement of the University's financial statements and reduced the overall reliability of statewide financial reporting. (Finding Code No. 2017-005)

**Recommendation:**

We recommend the University periodically review its internal controls over financial reporting to provide assurance accounts are properly classified under generally accepted accounting principles.

**University Response:**

**Accepted.** The University's financial reporting classification of these components of net position had been based upon significant due diligence and belief that its interpretation and application of authoritative accounting requirements was appropriate. The University's reporting practices in this area had been in place for many years. The auditors' procedures in reaching closure on this matter included numerous meetings for discussion, including joint consultation with the State Comptroller's office and Government Accounting Standards Board. The University believes this extensive review process speaks to the complexity of this matter and a potential need for greater clarity in the authoritative accounting literature.

**2017-006. Finding: Errors in Sliding Fee Discount Application and Inadequate Documentation**

The University of Illinois at Chicago – Mile Square Health Center (MSHC) did not maintain adequate documentation, did not apply the sliding fee discounts properly with its sliding fee discount schedule and did not follow the MSHC policy and procedures consistently for the Health Center cluster program.

During our testing of the patient’s financial assistance encounters for MSHC, we noted errors in 41 patient encounters, from a statistically valid sample, with program fees totaling \$12,240 out of the 60 patient encounters tested totaling \$19,237 of program fees.

- 23 of the 60 patient encounters tested, we noted MSHC did not maintain the Sliding Fee Eligibility forms to support the assessment of the sliding fee discount. All encounters were assessed at the 100% discount finance class per the billing/accounts receivable reports.
- 14 of the 60 patient encounters tested, we noted MSHC did not maintain the Sliding Fee Eligibility forms to support the assessment of the sliding fee discount. All encounters were assessed at the \$20 finance class per the billing/accounts receivable reports.
- 3 of the 60 patient encounters tested had the incorrect sliding fee applied to the patient. Two of the encounters were classified in the \$20 finance class and should have been charged the \$50 finance class per the form. One of the encounters was classified in the 100% discounted class and should have been charged the \$65 finance class per the completed form.
- 2 out of the 60 Sliding Fee Eligibility Forms for patient encounters were not signed/approved by MSHC staff per the MSHC’s Management Policy and Procedure manual.
- 1 out of the 60 Sliding Fee Eligibility Forms for patient encounters was not signed/approved by the patient per the MSHC’s Management Policy and Procedure manual.

The MSHC must prepare a schedule of fees or payments for the provision of its services consistent with locally prevailing rates or charges and designed to cover its reasonable costs of operation and as such prepare a corresponding schedule of discounts (sliding fee discount schedule) to be applied to the payment of such fees or payments, by which discounts are adjusted on the basis of the patients ability to pay (42 U.S.C. 254b(k)(3)(G)(i)). The MSHC must establish systems for sliding fee eligibility determination.

The MSHC’s Management Policy and Procedures state it is the responsibility of the staff of the MSHC to maintain the schedule of fees in accordance with the principles and policies established by the MSHC Board of Directors. Patients requesting to receive a discount for services must complete the Sliding Fee Eligibility Form, and at this time, the patient is made aware charges for services provided may be reduced based upon eligibility criteria. Upon completion of the form, the patient must provide to the clinic verification of their income. If not received on date of service, health center staff will notify the patient to bring documentation of their income within 30 days of visit date or next office visit, whichever is the least number of days. Failure to provide this information may lead to disqualifying the patient for discounted services. The MSHC should document any refusals, as noted in Sliding Fee Discount and Related Billing and Collections Program Requirement (PIN 2014-02) manual, which states that the health center has records of assessing/re-assessing patient income and family size except in situations where a patient has declined or refused to provide such information.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – FEDERAL COMPLIANCE  
Year Ended June 30, 2017**

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure patient fees are applied correctly.

According to University officials, exceptions noted in bullets 3, 4 and 5, are due to human error. Additionally, exceptions noted in bullets 1 and 2, the Sliding Fee Discount Forms were missing due to a combination of (a) training issues and (b) electronic scanning issues which have since been corrected.

Without effective internal controls over compliance, the MSHC could allow an individual to receive the incorrect amount of discounted services. Also, failure to document verification of eligibility determinations in accordance with the program may result in ineligible beneficiaries receiving services or paying an incorrect amount per the Sliding Fee Discount program. (Finding Code No. 2017-006)

**Recommendation:**

We recommend the MSHC establish and implement an effective system of internal controls to ensure the correct fees are being charged appropriately and implement additional procedures to ensure documentation is complete for all patient encounters. If the patient refuses to provide proof of income or sign the form this should be documented as such by MSHC staff.

**University Response:**

**Accepted.**

In response to bullets 1 through 3, all patients were either charged a nominal fee of \$20 or the fee was waived in accordance with Sliding Fee Discount and Related Billing and Collections Program Requirement (PIN 2014-02), Section IV.2. and the Health Center Program Compliance Manual, Chapter 9: Sliding Fee Discount Program requirements, which superseded PIN 2014-02 in August 2017.

In response to bullets 4 and 5, the Sliding Fee Eligibility Forms were completed at the time of patient intake by MSHC staff, however, were either missing the MSHC employee signature or patient signature as a result of staff confusion relative to a patient's option for financial self-declaration.

As a result, training issues were identified amongst intake staff and were impacted by management changes across sites overseen by MSHC. Per 42 U.S.C. § 254b(k)(3)(G)(iii) the center "(I) will assure that no patient will be denied health care services due to an individual's inability to pay for such services; and (II) will assure that any fees or payments required by the center for such services will be reduced or waived to enable the center to fulfill the assurance described in subclause (I)." This regulation was interpreted by some MSHC staff to mean the Sliding Fee Eligibility Form or components thereof were not required to waive or reduce the fees in order to ensure no patient would be denied health care services based on ability to pay.

UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – FEDERAL COMPLIANCE  
Year Ended June 30, 2017**

**2017-007. Finding: Inadequate Procedures for Closing out Federal Projects**

The University does not have adequate procedures in place to ensure federal projects are closed in a timely manner.

The University administers thousands of individual federal projects from several federal agencies and pass-through entities which have varying project periods. The University has formally documented policies and procedures for closing out federally funded projects which generally require projects to be closed within 90 days after the project end date. Procedures have been established to send a notice of terminating accounts to the principal investigator or program coordinator 90 days prior to the project end date. The notice provides information about the process for closing projects and includes an information request for any extensions granted and other project information necessary to complete the project close out. Personnel in the Grants and Contracts Office are responsible for ensuring the University has met its obligations under the project, closing the general ledger accounts, and returning any unexpended grants funds to the federal agency or pass-through entity.

During our review of the University's schedule of expenditures of federal awards for the year ended June 30, 2017, we noted expenditures (or negative expenditures) were reported for several projects with end dates of greater than the 90-day close out period. Specifically, we noted the following:

Year Ended	Number of projects with end date during fiscal year	Year ended June 30, 2017		
		Number of expenditures	Dollar amount of positive costs	Dollar amount of negative costs
6/30/2002	1	2	44	-
6/30/2009	1	1	1,094	-
6/30/2010	1	1	-	(1)
6/30/2011	3	146	-	(396,105)
6/30/2012	4	23	393	(8,583)
6/30/2013	5	283	58,274	(14,629)
6/30/2014	21	854	204,993	(351,200)
6/30/2015	46	565	95,605	(165,947)
6/30/2016	166	6,936	734,098	(847,953)
<b>Total</b>	<b>248</b>	<b>8,811</b>	<b>1,094,501</b>	<b>(1,784,418)</b>

Upon review of the transactions recorded in the projects above, we noted transactions included a number of transfer expenditures and corrections. Periodic financial reports previously submitted for several of the University's federally funded projects inaccurately included or excluded project expenditures which have later been corrected. Difficulties in collecting delinquent Accounts Receivable balances or completion of project deliverables can contribute to late award closeout. Additionally, some awards may remain open more than 90 days after the end date as the University awaits continuation paperwork for incrementally funded awards.

During the current year of indirect cost testing of the Child Care Development Fund Cluster, out of 40 transactions tested, from a statistically valid sample, at the University of Illinois at Champaign, we noted 1 (3%) transaction (occurring in April 2017) was charged to the grant after the 90-day close out period had ended on March 31, 2017.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – FEDERAL COMPLIANCE  
Year Ended June 30, 2017**

Uniform Grant Guidance requires accurate, current, and complete disclosure of the financial results of each federally sponsored project or program in accordance with the applicable reporting criteria. Under Uniform Grant Guidance (2 CFR 200 Section 200.343(a)), the non-Federal entity must submit, no later than 90 calendar days after the end of the period of performance, all financial, performance and other reports as required by the terms and conditions of the Federal award. The Federal awarding agency or pass-through entity may approve extensions when requested by the non-Federal entity. Uniform Grant Guidance also requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure expenditures are allowable in accordance with federal regulations.

According to University officials, they stated there are a variety of reasons for delays in grant close-outs, including limited staffing, delay in sponsor payments, pending continuation paperwork for incrementally funded awards, difficulties in the completion of project deliverables, and pending decisions from the Illinois Court of Claims.

Failure to close projects and process necessary cost transfers in a timely manner may result in inaccurate periodic financial reports and unallowable costs. (Finding Code No. 2017-007, 2016-005, 2015-005, 2014-005, 2013-005, 12-04, 11-07, 10-11, 09-13)

**Recommendation:**

We recommend the University review its current close-out procedures and implement additional procedures to monitor the timeliness of federal account close-outs.

**University Response:**

**Accepted.**

Due to lengthy vacancies in the past that resulted in limited human capital, the University agrees that there were grants closed after the 90 closing period. Staffing vacancies have been filled or are in the process of being filled. The University agrees that 248 grants from prior fiscal years remained open at some point during fiscal year 2017. However, the University does not believe this is an issue related to internal controls. The University has made significant progress in the number of closeouts, which is demonstrated by having only three grants remain open from the cited list. These grants have not been closed due to non-payment issues. Two of the three grants remain open because they are currently going through the Illinois Court of Claims process and are either (1) awaiting legal judgement on an outstanding receivable or (2) awaiting payment as a result of a favorable judgement. We believe that our established internal controls as designed are sufficient to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. These controls include procedures to ensure expenditures are allowable in accordance with federal regulations which resulted in a net change of negative \$689,917 in expenditure transactions as shown in the chart. In FY17 there was a 40% decrease in the number of awards cited (415 in FY16 to 248 in FY17) and nearly a 50% reduction in the number of expenditure transactions (17,303 in FY16 to 8,811 in FY17).

Specific older transactions hit the SEFA as a result of unusual circumstances. Examples are as follows:

- 2002 – JV to correct Accounts Receivable issue
- 2010 – Small balance adjustment of \$0.67

The University continues to devote additional attention to close-out review and processing to improve the timeliness of project closeout. The University updated its close-out procedures and implemented additional procedures to monitor the timeliness of federal account close-outs.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – FEDERAL COMPLIANCE  
Year Ended June 30, 2017**

**Federal Agency:** US Department of Health & Human Services (USDHHS)

**Program Name:** Temporary Assistance for Needy Families (TANF)  
Child Care Development Funds (CCDF)

**CFDA # and Program Expenditures:** 93.558 (\$6,962,639)  
93.575/93.596 (\$4,864,824)

**Award Numbers:** See Table of Award Numbers

**Questioned Costs:** \$142

**2017-008. Finding: Inadequate Procedures for Verifying Participant Eligibility**

The University of Illinois did not have proper procedures in place to verify participant eligibility and correctly calculate co-payments for the State's Child Care Assistance Program at the Illinois Child Care Resource Services (CCRS).

In relation to the Temporary Assistance for Needy Families Grant, CCRS is located at the University of Illinois at Champaign within the Department of Human Development and Family Studies, designated to verify eligibility for participants receiving aid under the Child Care Resource Services program. The Illinois Department of Human Services (IDHS) is responsible for setting the eligibility requirements, determines payment rates, and accrediting providers. CCRS is responsible for the data entry process into the IDHS system, verifying eligibility per IDHS guidelines, calculating copay using IDHS spreadsheets, and retaining documentation and client files.

During our testing of 60 beneficiary payments, from a statistically valid sample, disbursed totaling \$19,023 for TANF, we noted six beneficiary files with payments totaling \$1,332 where CCRS did not properly verify eligibility or calculate the co-payment correctly:

- In one case, the income per the parent co-payment calculation worksheet, which is used to determine monthly income, was improper based on federal regulation and co-payments were incorrect. For one applicant, an incorrect TANF cash assistance amount was used to calculate the income. Per the Illinois Public Aid Communication System (IPACS) Manual referred to in IDHS Section 01.02.05 (IDHS Child Care Assistance Program Policy Manual), CCRS should use the higher amount between IDHS and the amount of TANF cash assistance reported on the application. In one instance, the lower amount was used in the calculation, resulting in an overcharge of \$18 for the copayment. Additionally, when calculating the monthly income for the one participant, gross wages were not used properly from both provided paystubs.
- In five cases, the income per the parent co-payment calculation worksheet, was improper based on federal regulations. For one applicant, the IDHS system indicated the applicant received TANF cash assistance but the amount was improperly entered in the 'child support' field rather than the 'TANF field' due to a data entry error. For two applicants, the wrong amount was used from one of the pay stubs to calculate the income. For one applicant, the lower of the two reported TANF cash assistance amounts was used to calculate income. Section 01.02.05 of the CCAP manual indicates, CCRS should use the higher amount between IDHS and the amount of TANF cash assistance reported on the application. The last applicant's income was calculated incorrectly due to the bi-weekly method of calculation being used in error. Although the errors were not discovered, the participants were eligible under the program and the co-payments were not affected by the errors.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – FEDERAL COMPLIANCE  
Year Ended June 30, 2017**

In relation to the Child Care Development Funds Grant, CCRS is located at the University of Illinois at Champaign within the Department of Human Development and Family Studies, designated to receive and administer funds and aid under the Child Care Assistance Program to assist parents with child care needs. During our testing for 60 beneficiary payments, from a statistically valid sample, disbursed totaling \$17,391 under the Child Care Assistance Program, we noted eighteen beneficiary files with payments totaling \$5,168 with incorrect or incomplete information related to eligibility or co-payments.

- In one case, the income per the parent co-payment calculation worksheet was improper based on federal regulation. The improper calculation, therefore, resulted in the applicant incorrectly deemed eligible for the program. The CCDF program paid \$8 for services on behalf of the ineligible applicant.
- In seven cases, the income per the parent co-payment calculation worksheet was improper based on federal regulation. In six of the cases, the improper calculation, resulted in assessing the wrong co-payment amount for the applicants. In one of the cases, the correct information was entered into the system; however, the system did not calculate the correct copay and internal documentation did not agree to the information entered into the system. Although all applicants were eligible for the program, there were four applicants that were undercharged co-pays, for a total of \$134, three applicants were overcharged, for a total of \$83, and the errors were not caught in review.
- In ten additional cases, improper amounts were used on the parent co-payment calculation worksheet based on federal regulations. In all ten cases, the applicants were eligible and co-payments remained the same; however, the errors were not caught in review.

The Illinois Department of Human Services Child Care Assistance Program Policy Manual (Section 01) establishes guidelines for the eligibility criteria. Per this established eligibility criteria, an individual or family's eligibility for TANF grant money is ultimately determined by IDHS. When CCRS receives the beneficiary information for processing, they are responsible for verifying eligibility has been determined by IDHS before information is processed for payment to the recipient for child care assistance. CCRS first checks the individual's grant history on the IDHS printout to see if a "Y" is listed under the months the individual is determined to be eligible. If there is not a "Y" in the grant history for the months of eligibility, CCRS views the individual's application to see if they are receiving TANF cash assistance. If the individual indicates they are not receiving TANF cash assistance, they need to verify their eligibility with IDHS and not process the information until the issue has been resolved.

Per Illinois Department of Human Services Child Care Assistance Program Policy Manual Income Guidelines (Section 01.02.01) effective July 1, 2014, a family is considered income eligible when the combined gross monthly base income (earned and unearned) of all family members is at or below the amounts of income for the corresponding family size. In two-parent families, both incomes must be combined to determine eligibility.

The Illinois Department of Human Services Monthly Income Guidelines has a 185% threshold of the Federal Poverty Guidelines published yearly by the U.S. Department of Health And Human Services (89 Ill. Admin. Code, 50.110(d); 50.230; 50.235).

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure eligibility of beneficiaries is properly determined and co-payments are properly calculated and documentation is maintained to support the determination.

According to University officials, co-payments were not properly calculated due to system, data entry, and human errors.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – FEDERAL COMPLIANCE  
Year Ended June 30, 2017**

Without effective internal controls over compliance, CCRS could allow an individual to receive financial support for applicants that are financially ineligible. Also, failure to perform verification of eligibility determinations in accordance with the program regulations may result in ineligible beneficiaries receiving services for which they are not eligible. Lastly, inaccurate calculation worksheets can lead to applicants not paying the correct amount of co-payments based on federal regulations. (Finding Code No. 2017-008, 2016-006, 2015-010)

**Recommendation:**

We recommend the University review its procedures for verifying participant eligibility and implement additional procedures to ensure the correct participant information is used to determine eligibility and calculate co-payments under the TANF and CCDF programs.

**University Response:**

**Accepted.** The University continues to review procedures for verifying participant eligibility and to identify areas of improvement.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – FEDERAL COMPLIANCE  
Year Ended June 30, 2017**

**Federal Agency:** US Department of Education (USDE)

**Questioned Costs:** None

**2017-009. Finding: Failure to Submit Exit Counseling Notification to Students**

The University did not send out the required exit counseling notification for students that only received Federal Direct Subsidized Loans.

Out of the 27, from a statistically valid sample, students tested at University of Illinois at Chicago, we noted 2 (7%) students in which the University did not notify the students of exit counseling.

During the award year of 2010-11, the University of Illinois participated in a reporting tool for exit loan counseling in an Experimental Site Agreement to evaluate alternatives to the current models and timetables for targeting and educating borrowers most likely to default. Additionally, participating in this program was also to evaluate alternative methods of exit counseling on student graduation and/or persistence patterns. This program ended June 30, 2011 and in FY2012 the University was to start reporting Exit Counseling according to the standards.

During our testing of the program in the current year, it was discovered students receiving only Federal Direct Subsidized Loans were excluded from the University's query for identifying students who require Exit Counseling notifications. The queries generating the Exit Counseling reports were created in FY2012 after the University of Illinois's Experimental Site Agreement in which Annual Financial Counseling exempted the University from standard Exit Counseling expired in FY2011. These queries were renewed each academic year without careful review, so from January 2012 to July 2017, students who received only Direct Subsidized Loans were not notified of their requirement to complete Exit Counseling. There were 3,907 students at the University of Illinois at Chicago and 94 students at the University of Illinois at Champaign that did not receive exit counseling notification.

The Code of Federal Regulations (34 CFR 674.42) requires an institution to ensure exit counseling is conducted with each borrower either in person, by audiovisual presentation, or by interactive electronic means. The institution must ensure exit counseling is conducted shortly before the borrower ceases at least half-time study at the institution. As an alternative, in the case of a student enrolled in a correspondence program or a study-abroad program that the institution approves for credit, the borrower may be provided with written counseling material by mail within 30 days after the borrower completes the program. If a borrower withdraws from the institution without the institution's prior knowledge or fails to complete an exit counseling session as required, the institution must ensure exit counseling is provided through either interactive electronic means or by mailing counseling materials to the borrower at the borrower's last known address within 30 days after learning the borrower has withdrawn from the institution or failed to complete exit counseling as required.

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure each student that receives Federal Direct Subsidized loans receives exit counseling.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – FEDERAL COMPLIANCE  
Year Ended June 30, 2017**

According to University officials, in FY2012, the data queries generating reports used to identify University of Illinois at Chicago and University of Illinois at Champaign students requiring exit counseling notifications had not been properly updated after the University's experimental site agreement had expired.

Exit counseling helps federal student loan borrowers understand how to repay their loans and reviews deferment and repayment plans options. Exit counseling also addresses the borrowers' rights and responsibilities. Updated student contact information will also be collected at the end of exit counseling sessions. (Finding Code No. 2017-009)

**Recommendation:**

We recommend the University review reporting processes to ensure all students that require exit counseling receive it in a timely manner.

**University Response:**

**Accepted.** The University agrees that the data queries generating reports used to identify UIC and UIUC students requiring exit counseling notifications had not been properly updated after the University's experimental site agreement had expired. The University has implemented the necessary corrective actions to annually update the exit counseling notification report and has notified the previously excluded students. The University has also notified the U.S. Department of Education.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – FEDERAL COMPLIANCE  
Year Ended June 30, 2017**

**Federal Agency:** US Department of Education (USDE)

**Program Name:** Student Financial Assistance Cluster

**CFDA # and Program Expenditures:** 84.007/84.033/84.038/84.063/84.268/84.379/  
93.264/93.342/93.364 (\$608,399,981)

**Award Numbers:** See Table of Award Numbers

**Questioned Costs:** \$74,175

**2017-010. Finding: Failure to Meet Community Service Requirement**

The University did not use at least 7% of its Federal Work Study (FWS) funds for students employed in community service activities.

At the University of Illinois at Chicago, we noted the federal share of FWS funds used for community service totaled to \$38,637, from a statistically valid sample. The total amount of federal funds spent on FWS funds totaled \$1,611,596. The University is reporting at 2% of Community Service used for FWS funds out of the minimum 7% requirement. The University should have used at least 7%, or \$112,812, of its FWS funds towards Community Service or obtained a waiver from the US Department of Education.

The Code of Federal Regulations (34 CFR 675.18(g)) requires for the 2000-2001 award year and subsequent award years, an institution must use at least 7% of the sum of its initial and supplemental FWS allocations for an award year to compensate students employed in community service activities.

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure FWS funds are used according to federal guidelines or to ensure waivers are obtained.

According to University officials, one of the larger contract providers for the University was no longer available during the 2016-2017 academic year; therefore, the University of Illinois at Chicago was not able to meet the 7% Community Service requirement.

If the University fails to meet any of the FWS community service requirements, then they will be required to return FWS federal funds in an amount equal to the difference between the amount a school should have spent for community service and the amount it actually spent. The University could also be denied future participation in the FWS Program and possibly other FWS programs and/or subject to a substantial fine. (Finding Code No. 2017-010)

**Recommendation:**

We recommend the University review current processes for calculating and tracking the students employed in community service activities for its Federal Work Study funds to meet the minimum 7% requirement.

**University Response:**

**Accepted.** The University is taking steps to address the recommendation in this finding.

**Award Numbers:** See Table of Award Numbers

**Questioned Costs:** None

**2017-011. Finding: Errors in Reporting for National Student Loan Data Systems (NSLDS)**

Throughout the 2016-17 award year, we noted student status changes were not being reported to NSLDS within the 60-day requirement.

Out of 15 students, from a statistically valid sample, tested at the University of Illinois at Chicago, we noted two (13%) student status changes were reported after the 60-day requirement.

The Code of Federal Regulations (34 CFR 685.309) requires enrollment status changes for students be reported to NSLDS within 30 days or within 60 days if the student with the status change will be reported on a scheduled transmission within 60 days of the change in status. Regulations require the status include an accurate effective date.

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations and program compliance requirements. Effective internal controls should include procedures to ensure enrollment reporting is timely completed.

According to University officials, the status change of one student was not reported in a timely manner due to human error. Although the records for the second student were processed timely to the third-party vendor, this information was not subsequently reported to NSLDS by the third-party vendor within the 60-day requirement.

If the NSLDS system is not updated with the student information, overawards could occur should the student transfer to another institution and the students may not properly enter the repayment period. (Finding Code No. 2017-011, 2016-010, 2015-016)

**Recommendation:**

We recommend the University review current processes for reporting to NSLDS and implement procedures to ensure submissions are reported timely for enrollment status and student status changes.

**University Response:**

**Accepted.** The University of Illinois at Chicago agrees that one student record was not reported in a timely manner due to human error. Although the records for the second student were processed timely to the third-party vendor, this information was not subsequently reported to NSLDS by the third-party vendor within the 60-day requirement.

**STATE OF ILLINOIS

**Award Numbers:** See Table of Award Numbers

**Questioned Costs:** \$180

**2017-012. Finding: Inadequate Return of Title IV Fund Calculation**

The University did not accurately complete Return of Title IV calculations for students.

Out of the 22, from a statistically valid sample, students tested at University of Illinois at Chicago, we noted 1 (5%) student in which the University did not determine the student's withdrawal timely and return of Title IV funds within 45 days. The University determined a retroactive withdrawal date of 10/13/16 but the student was not refunded Title IV funds until 5/25/17. Since the calculation was completed accurately, there are no questioned costs resulting from this error.

Out of the 34, from a statistically valid sample, students tested at University of Illinois at Champaign, we noted 1 (3%) student in which the University did not accurately complete the Return of Title IV calculation. The student requested the withdrawal on 3/8/17 but the University used 3/10/17 as the withdrawal date for the Return of Title IV calculation, resulting in an error in the Return of Title IV calculation of \$180, which should have been returned to the Department of Education.

The University of Illinois at Chicago does not have a formal review process in place for the Return of Title IV calculations. The University has indicated review is happening; however, no formal review is documented.

According to the Code of Federal Regulations (34 CFR 668.22 (j)) an institution must return the amount of Title IV funds for which it is responsible under paragraph (g) of this section as soon as possible but no later than 45 days after the date of the institution's determination that the student withdrew. Additionally, the Federal Student Aid Handbook published by the Department of Education states a student who withdraws without providing notification, from a school not required to take attendance, the school must determine the withdrawal date no later than 30 days after the end of the earlier of (1) the payment period or the period of enrollment (as applicable), (2) the academic year, or (3) the student's educational program.

According to 34 CFR 668.22, institutions are required to complete accurate Return of Title IV calculations as defined in the regulations. A student that provides official notification of his or her intent to withdrawal, for the purposes of calculation of the Return of Title IV funds, the date the student began the institution's withdrawal process is the withdrawal date for Title IV purposes.

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure students are awarded within the prescribed limits and include a documented formal review to ensure the accuracy of all Return of Title IV calculations.

According to University officials, the inadequate Return of Title IV calculations were a result of not receiving timely documentation, human errors, and lack of review.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – FEDERAL COMPLIANCE  
Year Ended June 30, 2017**

The Return of Title IV calculation determines the amount of federal financial assistance the student is entitled to and is based on the number of days they completed in the period. Using the incorrect number of days in the term in the Return of Title IV calculations results in incorrect return calculations and additional funds needing to be returned to the US Department of Education.

The lack of independent documented review of the Return of Title IV calculations being performed by the student financial aid staff could result in errors going undetected by the University. (Finding Code No. 2017-012, 2016-012, 2015-018)

**Recommendation:**

We recommend the University review its current procedures for Title IV funds and implement additional procedures to ensure funds are properly and timely returned. We also recommend the University implement a formal review procedure to document the Return of Title IV calculations are being performed to minimize the likelihood that errors may go undetected and not be corrected in a timely manner.

**University Response:**

**Accepted.** Effective July 1, 2017 the University of Illinois at Chicago implemented secondary formal review procedures for Return of Title IV Calculations. The University of Illinois at Urbana-Champaign will continue reviewing existing procedures and provide periodic communications/reminders to staff who work with students regarding withdrawal from the University. The critical importance of accurately documenting the request and approved effective dates of such withdrawals will be emphasized.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – FEDERAL COMPLIANCE  
Year Ended June 30, 2017**

**Federal Agency:** US Department of Health & Human Services (USDHHS)

**Program Name:** Health Center Program

**CFDA # and Program Expenditures:** 93.224/93.527 (\$3,225,342)

**Award Numbers:** See Table of Award Numbers

**Questioned Costs:** None

**2017-013. Finding:** **Inadequate Documentation of Approvals for Payroll Disbursements**

The University has inadequate documentation for approvals of the Health Center Program department payroll disbursements per its Clock-Work Time System procedures.

During our testing of the payroll disbursements for the Health Center Program, we noted 4 (10%) out of 40 disbursements, from a statistically valid sample, tested did not have adequate approval documentation. The Health Center Program department was unable to provide appropriate documentation of approvals for time charged to a federal project.

According to University policy, bi-weekly employees are responsible for completing timesheets and submitting to the supervisor or individual in authority to approve time who is most knowledgeable of the employee's hours and work activities. The approver reviews and approves the hours reported and verifies the funds to which the hours should be charged based upon work performed during the pay period.

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure payroll disbursements are accurate, allowable, and properly allocated.

According to University officials, a lack of training is the reason for this deficiency. The Health Center was in a period where they were between human resource associates and had existing staff performing HR functions (including timesheet approvals). The staff reviewing and approving the timesheets was unaware of the additional steps necessary to document approval.

Failure to monitor procedures to adequately approve payroll disbursements may result in unallowable costs being charged to federal programs. (Finding Code No. 2017-013)

**Recommendation:**

We recommend the University review its procedures relative to approving time reporting documentation.

**University Response:**

**Accepted.** The Health Center was in a period where they were between human resource (HR) associates and had existing staff performing HR functions (including timesheet approvals). The staff reviewing and approving the timesheets was unaware of the additional steps necessary to document approval. The Health Center has since hired HR staff that are involved in and oversee the timesheet approval process.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – STATE COMPLIANCE  
Year Ended June 30, 2017**

**2017-014. Finding: Contracts and Real Property Leases Not Properly Executed**

The University of Illinois (University) has not established adequate internal controls over contracts and leases to ensure all necessary approvals are received and the agreements are executed prior to the performance and filed with the State of Illinois, Office of the Comptroller on a timely basis.

During our review of 67 contracts, including purchase orders, executed during the fiscal year ended June 30, 2017, we noted the following:

- One contract (totaling \$348,024) did not contain the signature of the employee signing on behalf of the University Comptroller.
- Three contracts (totaling \$1,276,664) were not approved by the University's Chief Executive Officer and Chief Legal Counsel out of 47 contracts sampled requiring this level of approval.
- One contract (totaling \$760,000) was executed subsequent to the start date of the contract. The contract execution date was 40 days after the commencement of service.
- Five contracts did not contain disclosure of financial interest statements of contractors or subcontractors, as required. The disclosures were submitted 22 to 87 days late or not submitted at all.
- Six contracts did not have standard vendor certifications, as required. Of the six contracts, five contracts did not contain the certification by the vendor to maintain and make available records to the State for audit purposes.
- Seven contracts were not submitted to the State Comptroller's Office, as required.

During our review of 25 real property leases executed during the year ended June 30, 2017, we noted the following:

- Eight lease agreements (totaling \$1,829,517) did not contain the signature of the employee signing on behalf of the University Comptroller.
- Two leases (totaling \$94,890) were executed after the lease term began. The lease execution dates ranged six and 36 days after the beginning of the lease.
- Three leases were not paid in accordance with the lease term resulting in a net overpayment of \$2,626.
- One multi-year lease agreement did not contain a clause that the contract was subject to termination and cancellation in any year for which the General Assembly fails to make an appropriation to make payments under the terms of the contract.
- Three lease agreements did not contain the certification by the vendor to maintain and make available records to the State for audit purposes.
- One lease agreement did not contain standard vendor certifications required by the Illinois Procurement Code.
- *Real Estate Disclosure Forms* for three leases were not timely completed, as required. Of the three *Real Estate Disclosure Forms*, one was signed 23 days after the beginning of the lease term, and the other two were not completed at all.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – STATE COMPLIANCE  
Year Ended June 30, 2017**

During our review of 33 emergency purchases that occurred during the year ended June 30, 2017, we noted the following:

- One emergency purchase was extended beyond 90 days; however, requirements for an emergency purchase extension were not complied with. Rather than complying with the requirements for an emergency purchase extension, two new emergency purchase affidavits were issued for the extended periods.
- Twenty six emergency purchases were not filed with the Office of the Auditor General, as required. Eighteen out of the twenty six emergency purchases were filed 11 to 210 days late and eight emergency purchases were not filed at all.

The Illinois Procurement Code (Code) (30 ILCS 500 et seq.) and Statewide Accounting Management System (Procedure 15.20 et seq. and 15.10.40) require contracts and real property leases to contain certain signatures, clauses, and certifications, and also require State agencies to file contracts, purchase orders and leases exceeding \$20,000 with the Office of the State Comptroller within 30 calendar days after execution. Moreover, except as otherwise provided by the Illinois Procurement Code, all State contracts shall be awarded by competitive sealed bids. The Code (30 ILCS 500/20-30 (a)) states that in accordance with standards set by rule, a purchasing agency may make emergency procurements without competitive sealed bidding or prior notice when there exists a threat to public health or public safety, or when immediate expenditure is necessary for repairs to State property in order to protect against further loss of or damage to State property, to prevent or minimize serious disruption in critical State services that affect health, safety, or collection of substantial State revenues, or to ensure the integrity of State records; provided, however, that the term of the emergency purchase shall be limited to the time reasonably needed for a competitive procurement, not to exceed 90 days. A contract may be extended beyond 90 calendar days if the chief procurement officer determines additional time is necessary and that the contract scope and duration are limited to the emergency. Prior to execution of the extension, the chief procurement officer must hold a public hearing and provide written justification for all emergency contracts. Notice of all emergency procurements shall be provided to the Procurement Policy Board and published in the online electronic Bulletin. The section also states that a chief procurement officer shall file affidavits with the Procurement Policy Board and the Auditor General of the State of Illinois within 10 days after the procurement setting forth the amount expended.

Further, the State Finance Act (30 ILCS 105/9.02) states that a new contract, contract renewal, order against a master contract, or any contract amendment of \$250,000 or more in a fiscal year, shall be signed or approved in writing by the agency's chief executive officer, chief legal counsel, and chief fiscal officer.

In addition, the University of Illinois Business and Financial Policies and Procedures (Section 1) and good business practices require all contracts and leases to be properly approved and fully executed prior to the beginning of the lease term or the commencement of services. Additionally, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001), requires the University to establish and maintain a system, or systems, of internal controls to provide assurance that: (1) resources are utilized effectively, and in compliance with applicable law; (2) obligations and costs are in compliance with applicable law; (3) funds, property, and other assets and resources are safeguarded against waste, loss, unauthorized use, and misappropriation; (4) revenues, expenditures, and transfers of assets, resources, or funds applicable to operations are properly recorded and accounted for to permit the preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources; and (5) funds held outside the State Treasury are managed, used, and obtained in strict accordance with the terms of their enabling authorities and that no unauthorized funds exists. The University's system of internal controls should include procedures to ensure that contracts and leases contain all necessary provisions, properly approved, and fully executed prior to the performance.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – STATE COMPLIANCE  
Year Ended June 30, 2017**

University officials stated given the high volume of contracts processed by the University and various touchpoints required, there are occasions when certain State and University requirements and University best business practices are not met. University management indicated the bulleted exceptions largely resulted from human error, reliance on timely return of documents from the other party or process interpretation and oversight.

Failure to fully execute a contract or real property lease prior to the commencement of services or lease term leaves the University vulnerable to unnecessary liabilities and potential legal issues. In addition, failure to include all appropriate signatures, clauses, and certifications in contracts and leases, failure to file contracts and real property leases with the Office of the Comptroller on a timely basis, and failure to follow emergency purchase requirements result in noncompliance with State statutes and regulations. (Finding Code No. 2017-014, 2016-015, 2015-020, 2014-022, 2013-018, 12-18, 11-32, 10-35, 09-35, 08-09, 07-10, 06-07, 05-05, 04-05, 03-06)

**Recommendation:**

We recommend the University establish appropriate procedures to ensure that all contracts and leases are completed, approved, and properly executed prior to the start of the services and lease term. Further, the University should review procedures to ensure all appropriate signatures, clauses and certifications are obtained prior to execution for all contracts and lease agreements and that all applicable contracts, real estate leases, and emergency purchases are filed with the Office of the Comptroller and the Auditor General of the State of Illinois in accordance with the State statutes and related guidelines.

**University Response:**

**Accepted.** The University recognizes the importance of process controls, training, and transaction monitoring in these areas. Corrective action measures have been put in place or will be taken in connection with the recommendations in this finding to include: (1) ongoing training on the use of the Illinois Contract System (ICS) which includes name and title of person who signed the documents and includes automatic notifications to staff responsible for timely filing of contracts to the State Comptroller's Office; (2) annual refresher training regarding executed and start dates of contracts and on University policy stating that all procurement contracts that exceed \$249,999 must have the signature of the Comptroller, President, and Chief Legal Counsel; (3) further training and template revisions will be accomplished to mitigate human error and misinterpretations of transaction processing for group purchasing requirements in relation to the Board of Trustees approval, requirements for all contract and real estate lease disclosures to include financial interests, conflict of interest and certifications, contract approval prior to service, vendor registrations, contract file documentation, and emergency purchasing processing and filing.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – STATE COMPLIANCE  
Year Ended June 30, 2017**

**2017-015. Finding: Failure to Maintain Adequate Records Substantiating Written Notices**

The University of Illinois Hospital (University) was unable to provide adequate records substantiating written notices were provided to patients within 24 hours after their admittance into the University Hospital indicating the patients were under observation status in accordance with the University of Illinois Hospital Act (Act) and University policies and procedures.

The University's Patient Admissions Policy and Procedure (Policy) requires the University to issue *Notice of Observation Status* (Form UI-5010) to patients after their admittance into the University Hospital notifying they have been placed under outpatient observation status and have not been admitted as an inpatient. Also, the University requires patients or their legal representative to sign the Form UI-5010 to acknowledge the receipt and understanding of their outpatient observation status.

During testing, we requested Form UI-5010s for 25 patients selected to test the University's compliance with the Act and the Policy. The University was unable to provide Form UI-5010s for 16 (64%) patients. As a result, we were unable to determine the University's compliance with the Act and the Policy.

The Act (110 ILCS 330/8a) states, "within 24 hours after a patient's placement into observation status by the University of Illinois Hospital, the University of Illinois Hospital shall provide that patient with an oral and written notice that the patient is not admitted to the hospital and is under observation status. The written notice shall be signed by the patient or the patient's legal representative to acknowledge receipt of the written notice and shall include, but not be limited to, the following information: (1) a statement that observation status may affect coverage under the federal Medicare program, the medical assistance program under Article V of the Illinois Public Aid Code, or the patient's insurance policy for the current hospital services, including medications and other pharmaceutical supplies, as well as coverage for any subsequent discharge to a skilled nursing facility or for home and community based care; and (2) a statement that the patient should contact his or her insurance provider to better understand the implications of being placed into observation status."

In addition, the University's Patient Admissions Policy and Procedure requires the *Notice of Observation Status* form be presented to patients under observation status for their signatures.

Furthermore, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the University to establish and maintain a system, or systems, of internal fiscal and administrative controls. Effective internal controls should include procedures to ensure supporting documentation for each patient placed under observation status is maintained.

University officials stated the University of Illinois Hospital identified a process gap related to patient encounters and also to information system technology workflows.

Failure to maintain supporting documentation inhibits the auditors' ability to test the University's compliance with applicable laws and regulations. Further, failure to comply with the Act could subject the University to litigation risk. (Finding Code No. 2017-015)

**Recommendation:**

We recommend the University strengthen its controls to ensure *Notice of Observation Status* forms are retained for all patients admitted into the University Hospital.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – STATE COMPLIANCE  
Year Ended June 30, 2017**

**University Response:**

**Accepted.** The University will take several corrective action measures to address the current recommendations. Specifically, the University of Illinois Hospital will (1) modify certain internal workflows driven by level of care assignment, (2) implement daily monitoring of system worklists to identify any gaps in signed notice of Observation forms in order to secure patient signature, and (3) employ routine compliance monitoring for patients in final observation status reviewing for the presence of signed observation notice forms. Further, implementation of a new electronic health record (EHR) for the Hospital is set to occur in the winter of 2020 which is expected to improve data capture and efficiency of process.

However, a portion of deficiencies identified in this audit relate directly to payer driven level of care changes that occurred post discharge (i.e. after a patient has left the facility). The Statute did not contemplate such an occurrence which is being driven by insurance companies on a retrospective basis. Accordingly, there is no immediate action the Hospital can take for this portion of the activity. However, the University may seek a legislative remedy in the future.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – STATE COMPLIANCE  
Year Ended June 30, 2017**

**2017-016. Finding: Failure to Follow Time Reporting Requirements**

The University of Illinois (University) does not require all employees to submit time sheets as required by the State Officials and Employees Ethics Act.

During testing of payroll, we selected 26 employees across all three campuses and noted the following:

- Eight employees (three from the Urbana-Champaign campus, four from the Chicago campus, and one from the Springfield campus) did not file time sheets as required by the State Officials and Employees Ethics Act. University management stated faculty, postdoctoral employees, instructors, and lecturers continue to track their time using a “negative” timekeeping system whereby the employee is assumed to be working unless noted otherwise.
- Two employees from the Springfield campus under Academic Professional employee class did not properly submit time sheets, as required by the University policy. Upon further inquiry, the auditors noticed the two employees did not submit any time sheets during fiscal year 2017.

The State Officials and Employees Ethics Act (Act) (5 ILCS 430/1-5) defines “State agency” to include “public institutions of higher learning...” and defines “State employee” to be “any employee of a State agency”. The Act required the Illinois Board of Higher Education (IBHE), with respect to State employees of public universities, to adopt and implement personnel policies. The Act (5 ILCS 430/5-5(c)) also states, “The policies shall require State employees to periodically submit time sheets documenting the time spent each day on official State business to the nearest quarter hour; contractual State employees may satisfy the time sheets requirement by complying with the terms of their contract, which shall provide for a means of compliance with this requirement.” The IBHE adopted personnel policies for public universities on February 3, 2004 in accordance with the Act. The University has not incorporated these policies into the University’s policies.

The University Reporting Policy for the State Officials and Employees Ethics Act (SOEEA) requires all Academic Professional and Civil Service employees to document all hours worked, using the University’s Online Reporting tool, while conducting official University business.

University officials stated they have not incorporated policies regarding time reporting for all employees as they are having continued dialogue with the academic leadership on this matter. In the meantime, the University has implemented several mechanisms to comply with the requirement for the majority of their employees such as training and weekly reminder emails, however, trying this has proven difficult to achieve full compliance due to the thousands of employees with competing priorities.

Failure to follow and ensure all employees comply with the time reporting requirements of the Act results in noncompliance with the Act. (Finding Code No. 2017-016, 2016-016, 2015-021, 2014-023, 2013-016, 12-19, 11-33, 10-37, 09-40, 08-11, 07-11, 06-06, 05-06)

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – STATE COMPLIANCE  
Year Ended June 30, 2017**

**Recommendation:**

We recommend the University implement procedures to ensure all employees submit time sheets as required by the Act.

**University Response:**

**Accepted.** Regarding faculty and post-doctoral exceptions, there is ongoing dialogue with the academic leadership at each University campus regarding further implementation of this requirement. For academic professional and exempt civil service exceptions, the University continues to take steps to address any issues.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – STATE COMPLIANCE  
Year Ended June 30, 2017**

**2017-017. Finding: Inadequate Controls over University Travel Card Transactions**

The University of Illinois (University) has not established adequate internal controls over travel card transactions.

The University operates a travel card program allowing individuals travelling for University business to pay for qualified travel expenses and business meals, which are then directly reimbursed by the University on a monthly basis. The University's policies require employees assigned a travel card to complete training on University travel card policies, and sign an agreement stipulating they will use the card in accordance with the University policy. The University's policies also require transactions incurred on a travel card to be approved in the University's travel card system by the individual cardholder and an assigned reviewer. However, during our testwork over 63 travel card transactions (totaling \$429,354), we noted the following:

- Two transactions (totaling \$13,484) exceeded the cardholders' single transaction limit amount. The required *T-Card Exception Request Form(s)* were not approved prior to using the T-Cards for those purchases;
- One transaction (totaling \$4,493) involved a purchase (totaling \$8,987) that was paid in two installments, exceeding the card holder's single transaction limit of \$4,999; and
- Seven transactions (totaling \$15,707) exceeded the designated State threshold amount (\$110/per night for out-of-State or \$70/per night for in-State) for lodging and were not properly approved, as required, resulting in a total overage of \$829.

The University has approximately 3,856 active travel cards, and the travel card expenditures paid for the year ended June 30, 2017 totaled \$27,432,908.

The University's policies and procedures state that use of the Travel Card (T-Card) for an expense that is normally prohibited by a policy or is above a Cardholders' limit must be approved prior to using the T-Card for the purchase. Exceptions to University policies or procedures regarding T-Card use must be documented on a *T-Card Exception Request Form*. These requests may be approved when necessary to meet special circumstances or when in the best interest of the University and the State.

In addition, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the University to establish and maintain a system, or systems, of internal fiscal and administrative controls to provide assurance that: (1) resources are utilized effectively, and in compliance with applicable law; (2) obligations and cost are in compliance with applicable law; (3) funds, property, and other assets and resources are safeguarded against waste, loss, unauthorized use, and misappropriation; (4) revenues, expenditures, and transfers of assets, resources or funds applicable to operations are properly recorded and accounted for to permit preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources; and (5) funds held outside the State Treasury are managed, used, and obtained in strict accordance with the terms of their enabling authorities and that no unauthorized funds exist. The University's system of internal controls should include procedures to ensure travel card transactions are properly reviewed and approved to avoid prohibited transactions from being paid and recorded.

University officials stated the exceptions listed above are the result of human error.

Failure to properly review and approve travel card transactions in accordance with University policies and procedures could result in prohibited or fraudulent transactions being recorded in the general ledger system. (Finding Code No. 2017-017, 2016-018)

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – STATE COMPLIANCE  
Year Ended June 30, 2017**

**Recommendation:**

We recommend the University review its current process for reviewing and approving travel card transactions and consider any changes necessary to ensure charges are made in accordance with University policies and procedures.

**University Response:**

**Accepted.** The University will continue to strengthen T-Card process controls, transaction monitoring, and training efforts.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – STATE COMPLIANCE  
Year Ended June 30, 2017**

**2017-018. Finding: Noncompliance with the Illinois Health Policy Center Act**

The University of Illinois (University) did not comply with the requirements of the Illinois Health Policy Center Act (Act).

As of June 30, 2017, the University has not created the Illinois Health Policy Center (Center) as required by the Act. The purpose of the Center is to develop and implement policies to improve the health and healthcare of the people of Illinois.

The Illinois Health Policy Center Act (110 ILCS 430/10) requires the Illinois Health Policy Center to be created within the University of Illinois, to be sponsored by the University of Illinois at Chicago College of Medicine and the University of Illinois Institute of Government and Public Affairs.

University officials stated HB 3286 was passed by the Illinois General Assembly and signed into law by the Governor as Public Act 095-0986, the Illinois Health Policy Center Act. The companion legislation (HB 6299) that would have funded the proposed Health Policy Center was never passed by the General Assembly. Similarly, the Advisory Panel envisioned in Section 20 of the Act was never created by the General Assembly.

Failure to create the Center results in noncompliance with the Act. (Finding Code No. 2017-018)

**Recommendation:**

We recommend the University comply with the requirements of the Illinois Health Policy Center Act or seek legislative remedy.

**University Response:**

**Accepted.** At this juncture – more than eight years after the initial passage of the Act and given the State’s overall financial condition– we have no expectation that the funding might ever be appropriated. Despite this lack of funding, and to the extent that health policy advice is sought from the University of Illinois by members of the General Assembly or the Governor’s Office, the University always attempts to provide the analytical support and guidance as envisioned in the Act. For example, the Vice Chancellor for Health Affairs employs policy analysts and other staff who perform this function. The Institute for Government and Public Affairs communicates regularly with State legislators and executive branch policymakers about various public policy issues, including health policy. The Institute for Health Research and Policy addresses complex health issues through cross-disciplinary research. The Office of Medicaid Innovation provides certain consultations on a fee-for-service basis, though these consultations are generally on behalf of the Illinois Department of Healthcare and Family Services rather than the legislature. Through its Center for Outcomes Research in Peoria, the College of Medicine helps translate new knowledge about the most effective therapies and interventions at the right time and in the right setting. Through programs in healthcare delivery science and implementation science, the College of Medicine in Chicago similarly is working to positively affect the delivery of healthcare. Given all these activities conducted in the spirit of the Act, we have not sought to have the Act repealed.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
PRIOR FINDINGS NOT REPEATED – *GOVERNMENT AUDITING STANDARDS*  
Year Ended June 30, 2017**

None.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
PRIOR FINDINGS NOT REPEATED – FEDERAL COMPLIANCE  
Year Ended June 30, 2017**

**A. Finding: Inadequate Support for Cash Requests**

The University of Illinois (University) had inadequate accounting records to support reimbursement requests for the Research and Development Cluster and did not refund the overpayment on the Child Care Development Funds (CCDF) Grant timely. (Finding Code No. 2016-004, 2015-008, 2014-010, 2013-010, 12-14, 11-28, 10-33)

In the current year, similar exceptions were not identified in the samples selected.

**B. Finding: Incomplete Cost Transfer Information**

The University did not adequately document cost transfers for the Research and Development agricultural grant (Hatch Grant). (Finding Code No. 2016-007, 2015-006, 2014-006, 2013-006)

In the current year, similar exceptions were not identified in the samples selected.

**C. Finding: Failure to Communicate Required Information to Subrecipients or Obtain Required Information from Subrecipients**

The University did not communicate required program information to subrecipients of the Research and Development Cluster program and the Head Start Cluster. (Finding Code No. 2016-008, 2015-013, 2014-020)

In the current year, similar exceptions were not identified in the samples selected.

**D. Finding: Untimely Submission of Financial Reports**

The University did not timely submit financial reports for its federal programs. (Finding Code No. 2016-009)

In the current year, similar exceptions were not identified in the samples selected.

**E. Finding: Incorrect Award of Title IV Funds**

The University of Illinois at Springfield incorrectly awarded one student Pell Title IV Funds. (Finding Code No. 2016-011, 2015-017)

In the current year, similar exceptions were not identified in the samples selected.

**F. Finding: Incomplete Documentation in Client Eligibility Files**

The University did not perform eligibility determinations for beneficiaries of the Maternal and Child Health Services Block Grant (MCH Block Grant) program in accordance with the Illinois Division for Specialized Care for Children (DSCC). (Finding Code No. 2016-013, 2015-004, 2014-004, 2013-003, 12-03, 11-06)

In the current year, similar exceptions were not identified in the samples selected.

FINANCIAL RELATED INFORMATION SUMMARY  
Year Ended June 30, 2017**

Financial related information presented in this section of the report includes the following:

- Financial Related Schedules:
  - Schedule of Expenditures of Federal Awards
  - Attachments to Schedule of Expenditures of Federal Awards
  - Notes to the Schedule of Expenditures of Federal Awards

The Schedule of Expenditures of Federal Awards presented in this section has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in the auditor's opinion, it is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The findings and auditor's reports on compliance testing and questioned costs and internal control related to federal awards are presented in the Compliance Report section of this report.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
June 30, 2017**

**Note 1. Basis of Presentation**

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of the University of Illinois (University) under programs of the federal government for the fiscal year ended June 30, 2017. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirement, Cost Principles, and Audit Requirements for Federal Awards* ("*Uniform Guidance*"). Because the Schedule presents only a selected portion of the operations of the University, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the University of Illinois.

The schedule designates federal awards as direct and pass-through. Direct awards represent federal funding awarded directly to the University by a federal agency, pass-through awards are federal awards passed through a non-federal entity. Pass-through identifying information is presented when available and when applicable.

**Note 2. Summary of Significant Accounting Policies**

Expenditures reported on the Schedule are presented on a modified cash basis of accounting. The methodology for determining federal awards expended is:

Direct costs are reported as federal expenditures on a cash basis, with the following exceptions:

1. Academic Year (nine-month) faculty salaries charged to sponsored projects are earned over nine months and paid over twelve months.
2. Salaries and wages earned between the last payroll date in June and June 30 are accrued and included as a current year federal expenditure.
3. Payroll related fringe benefits costs that are charged on an actuarial basis are included as a current year federal expenditure.

Indirect costs are assessed as a percentage of direct costs and are included as a current year federal expenditure.

Expenditures reported on the Schedule meet the cost principles contained in OMB Circular A-21, *Cost Principles for Educational Institutions*, and/or in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

The University of Illinois has not elected to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance. The University has approved federally recognized indirect cost rates negotiated between the University of Illinois and the Federal Government.

UNIVERSITY OF ILLINOIS  
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
June 30, 2017**

**Note 3. Federal Student Loan Programs**

As disclosed in the Schedule of Expenditures of Federal Awards, the Federal Direct Student Loans Program (CFDA 84.268) administered by the University of Illinois awarded approximately \$211.7 million at Urbana, \$237.4 million at Chicago, and \$20.1 million at Springfield.

In addition, the University of Illinois administers a series of loan programs as part of the Student Financial Assistance Cluster program. Loan balances subject to continuing compliance requirements during the year ended June 30, 2017 under the Federal Perkins Loan Program (Perkins), Health Professional Student Loans (HPSL), Nursing Faculty Loan Program (NFLP), Nursing Student Loan Program (Nursing), and Loans for Disadvantaged Students (LDS) programs were as follows:

	<b>Perkins</b>	<b>HPSL</b>	<b>NFLP</b>	<b>Nursing</b>	<b>LDS</b>
Beginning loan balances	\$37,727,878	\$8,393,178	\$269,868	\$726,794	\$745,400
New loans issued	3,046,261	1,503,346	-	93,500	77,942
Federal capital contributions	-	80,724	32,913	-	93,413
Administrative cost allowance	104,404	-	-	-	-
<b>Total</b>	<b>\$40,878,543</b>	<b>\$9,977,248</b>	<b>\$302,781</b>	<b>\$820,294</b>	<b>\$916,755</b>

The total loan balances outstanding at June 30, 2017 were approximately \$34.75 million for Perkins, \$8.67 million for HPSL, \$243 thousand for NFLP, \$602 thousand for Nursing, and \$745 thousand for LDS.

*Perkins = Federal Perkins Loan Program  
HPSL = Health Professions Student Loans  
NFLP = Nurse Faculty Loan Program  
Nursing = Nursing Student Loans Program  
LDS = Loans to Disadvantaged Students*

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
June 30, 2017**

**Note 4. Non-Cash Federal Assistance**

The University of Illinois received a pass-through grant from Illinois Department of Human Services (IDHS) to review the applications of families seeking subsidized day care under the Temporary Assistance Needy Families cluster, the Child Care Development Funds cluster, and the Social Service Block Grant programs. The applications were reviewed according to guidelines set by IDHS, the prime recipient of the federal funds.

As a result of the University of Illinois's application review, the Illinois State Comptroller distributed \$9,699,391 of federal funds to day care providers as follows:

<u>Program</u>	<u>Number</u>	<u>Assistance</u>
Temporary Assistance Needy Families	93.558	\$ 6,855,712
<i>Child Care Development Funds Cluster:</i>		
Child Care Development Block Grant	93.575	987,893
Child Care Mandatory and Matching Funds of the Child Care and Development Fund	93.596	1,809,673
Social Service Block Grant	93.667	46,113
Total non-cash federal assistance:		\$ 9,699,391

These federal funds, which are paid directly by the State of Illinois to the day care providers, are considered to be non-cash federal assistance to the University of Illinois. The amounts are reported on the Schedule of Federal Awards and have been included for purposes of determination of major programs.

**Note 5. Federal Insurance Disclosure**

Federally funded medical malpractice insurance was in effect under the Federal Tort Claims Act for Health Resources and Services Administration Deeming Notice Number 1-F00000300-15-01 from July 1, 2016 to December 31, 2016 and Deeming Notice Number 1-F00000300-16-01 from January 1, 2017 through June 30, 2017.

**Note 6. Federal Depository Library**

The University's Government Documents Library (Urbana), Albert E. Jenner Jr. Memorial Law Library (Urbana), Richard J. Daley Library (Chicago), and Norris L. Brookens Library (Springfield) serve as depository libraries in the U.S. Government Publishing Office's Federal Depository Library Program (CFDA 40.001, Depository Libraries for Government Publications). The Federal Depository Library Program gives the public free access to government information. The University is the legal custodian of government publications received under this program; however, these publications remain the property of the federal government.

UNIVERSITY OF ILLINOIS  
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
June 30, 2017**

***Note 7. Donated Federal Surplus Property***

The University received donated federal surplus property valued at \$20,313 through the Illinois Central Management Agency under the Donation of Federal Surplus Personal Property program (CFDA 39.003). The property is two High Mobility Multipurpose Wheeled Vehicle (HMMWV) trucks that are being used at Willard Airport for fire safety and general operations.
